Education And Income Determination In Kenya:

Education and Income Determination in Kenya Arne Bigsten, 1984 Study of the impact of education on wage determination and labour market effects on income distribution in Kenya includes the historical background of employment policy and wage policy examines rural workers wages the educational system on the job training and available skills and concludes that educational level influences urban area incomes and resulting innovations influence positively rural income Bibliography references and statistical tables

Historical Dictionary of Kenya Michael Mwenda Kithinji, 2024-06-18 Kenya has a rich and complex history Due to the vast discoveries of prehistoric archaeological remains Kenya is one of the few places in the world with the largest and most complete record of human s cultural development Furthermore the country s strategic location astride the Indian Ocean and the East African littoral attracted numerous foreigners such as the Arabs Persians Portuguese Americans British Chinese French and Germans Additionally immigrants from throughout Africa and beyond have settled in Kenya to escape conflict or political persecution while others wanted an opportunity to begin a new life As a result of being a gateway to the world the country traditionally has been one of the most important business cultural diplomatic and political centers in Africa Still Kenya like many other countries throughout the world has been plagued by an increasing array of complex economic political and social challenges Historical Dictionary of Kenya Fourth Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 500 cross referenced entries on important personalities as well as aspects of the country s politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Kenya

Quality and Qualities: Tensions in Education Reforms Clementina Acedo, Don Adams, Simona Popa, 2012-09-07 Quality and Qualities Tensions in Education Reforms is a provocative call for understanding and further exploring the elusive concept of quality in education Although education quality has acquired high priority in the past few decades the multiplicity of conceptualizations of quality also reflects the concerns and foci of multiple stakeholders Coming to an understanding of quality education involves careful analysis of the context from which any particular reform or program emerges and of the continuing struggle to define and achieve it Two main questions persist who benefits from particular policies focused on quality And what are the potential tradeoffs between a focus on quality equitable distribution of education and inclusion of various traditional expectations This book explores notions of quality as understood within various systems of national formal and nonformal education Also it considers the tensions that arise with the introduction of new standardized notions of quality in relation to international measures and educational reforms in developing countries In all cases specific national issues and concerns compete with global agendas Challenges to quality that are given particular attention in the book chapters include changing definitions of quality high expectations for education and issues with implementation and the introduction of English as a means to achieve quality in a globalizing world Special attention is also given to possible actions that support a more

equitable education without ignoring the requisite of quality The final chapter suggests three models choices for seeking higher quality and guiding the educational future of nations International Education Systems and Contemporary Education Reforms Adel T. Al-Bataineh, Mohamed A. Nur-Awaleh, 2005-01-28 Al Bataineh and Nur Awaleh s both education Illinois State U text is designed for undergraduate and graduate students who want to improve their understanding of educational systems formal school institutions and educational reform worldwide The text compares and analyzes systems and reforms in both developed and developing countries in several Islamic Latin American and African countries and covers a number of themes including the current systems contemporary reforms the historical development of educational policy and schooling the role of national and international agencies in education and post public education in the developing world Also suitable as a reference for researchers educators governmental and educational agencies and university international studies programs Annotation 2004 Book News Inc Portland OR booknews com

Growth and Poverty in Sub-Saharan Africa Channing Arndt, Andy McKay, Finn Tarp, 2016 While the economic growth renaissance in sub Saharan Africa is widely recognized much less is known about progress in living conditions This book comprehensively evaluates trends in living conditions in 16 major sub Saharan African countries corresponding to nearly 75% of the total population A striking diversity of experience emerges While monetary indicators improved in many countries others are yet to succeed in channeling the benefits of economic growth into the pockets of the poor Some countries experienced little economic growth and saw little material progress for the poor At the same time the large majority of countries have made impressive progress in key non monetary indicators of wellbeing Overall the African growth renaissance earns two cheers but not three While gains in macroeconomic and political stability are real they are also fragile Growth on a per capita basis is much better than in the 1980s and 1990s yet not rapid compared with other developing regions Importantly from a pan African perspective key economies particularly Kenya Nigeria and South Africa are not among the better performers Looking forward realistic expectations are required The development process is almost always a long hard slog Nevertheless real and durable factors appear to be at play on the sub continent with positive implications for growth and poverty reduction in future *Inequality in Africa* E. Wayne Nafziger, 1988-08-25 This study of inequality in Africa rejects the orthodox approach of the World Bank and the International Monetary Fund which neglects income distribution and advocates greater external economic reliance

The Primary Sector in Economic Development (Routledge Revivals) Mats Lundahl, 2015-05-08 It is a major problem for less developed countries to make their primary sectors sufficiently profitable in order to be able to build up their manufacturing and service sectors This edited collection first published in 1985 examines the nature of the primary sector and its role in economic development Chapters consider problems of stagnation and income distribution in such countries as Chile and Brazil trade in national primary products and exports in Africa and the Middle East and reform and policies of development in countries such as Peru An interesting volume with an international scope this title will be of value to

economics students with a particular interest in the role of the primary sector in developing economies **Microeconomic Issues of Labor Markets in Developing Countries** Dipak Mazumdar,1989-01-01 This paper deals with labor market structures in developing countries and the impact of government policies on rural and urban labor markets The central concern in analyses of employment is absorption of labor Governments try to influence the demand for labor so that more members of the labor force are absorbed into productive employment Employment outcomes are often the by products of government policies that affect economic growth as a whole This paper concentrates on factors that influence the structure and functioning of labor markets In Chapter 1 a schematic picture of labor markets is presented Chapters 2 and 3 analyze the salient features of the workings of rural and urban labor markets and discuss some important government policies that affect the functioning of these markets The paper concludes that Government intervention in both rural and urban labor markets has often been less than successful sometimes because their policies were based on incorrect assumptions At other times these policies have achieved less because the government also adopted other policies that tended to contradict the goal of providing jobs **People and Education in the Third World** W. T. S Gould,2014-09-25 This text examines education and its role in Third World development Amongst the areas covered are the private and public demand for education global patterns of education the geography of educational provision the school and the community and education and population growth The African Economy Steve Kayizzi-Mugerwa,2002-01-04 This book offers an in depth analysis of the current state of the African economy and makes constructive suggestions about its future direction The contributors argue that despite enduring challenges such as food security and employment creation Africa faces a brighter future in sustainable growth provided that governance and policy making are effectively employed to maintain peace achieve greater regional collaboration and encourage private sector competitiveness *Crisis, Adjustment and Growth in Uganda* Arne Bigsten,Steve Kayizzi-Mugerwa,1999-06-23 Uganda in the 1970s and early 1980s was one of Africa s more tragic economic stories Emerging from civil war it had to embark on reform in the early to mid 1980s from a position of severe political weakness In the study the effects of economic policy at the aggregate level are discussed in detail but snapshot empirical analyses of responses at the household level both urban and rural are also presented Uganda was for many years considered to be Africa s worst case its recent recovery thus provides hope for similar countries in the region Planning for Population Change W. T. S. Gould,R. Lawton,2023-10-02 Originally published in 1986 this book explores many important aspects of the relationship between population change and planning exploring the impact of population change on service provision and its impact on the policy making process In all countries whether their population is expanding ageing or stagnating population mobility is an important cause of economic and social development This book argues that there is a need for greater sensitivity about population change in policy making and service provision and suggests ways of achieving this Ten Millionaires and Ten Million Beggars Mwangi Wa. Githinji,2019-07-30 This title was first published in 2000 An analysis of income distribution and

development in Kenya seeking to increase the reader's understanding of the political economy of that country. The author offers three contributions. He provides an estimate of income inequality in Kenya. He presents data on time allocation in Kenya which makes it possible to compare the distribution of work with the distribution of income. Finally, he attempts to construct a class analysis that goes beyond the debates of the 1970s and 1980s and goes on to draw a number of important conclusions from his findings.

New Directions in Development Economics Mats Lundahl, Benno Ndulu, 2005-08-10

New Directions in Development Economics is divided into two parts. The first half considers the dilemma of growth with special reference to its environmental cost. The second half focuses on the role of the state in the context of the growing dominance of the free market argument. The contributors include Paul Collier, Partha Dasgupta, Ronald Findlay, and Deepak Lal.

Controlled Open Economies David Bevan, Paul Collier, Jan Willem Gunning, 1990. This book develops macroeconomic theory for small open economies characterized by the sort of controls which make much of existing neoclassical economics inapplicable to developing countries. The applicability of this theory is demonstrated in an analysis of two temporary trade shocks in Africa.

Economic Development E. Wayne Nafziger, 2012-03-26. Nafziger explains the reasons for the recent fast growth of India, Poland, Brazil, China, and other Pacific Rim countries, and the slow yet essential growth for a turnaround of sub-Saharan Africa. The book is suitable for those with a background in economics principles. The fifth edition of the text, written by a scholar of developing countries, is replete with real world examples and up to date information. Nafziger discusses poverty, income inequality, hunger, unemployment, the environment, and carbon dioxide emissions, and the widening gap between rich, including middle income, and poor countries. Other new components include the rise and fall of models based on Russia, Japan, China, Taiwan, Korea, and North America; randomized experiments to assess aid; an exploration of whether information technology and mobile phones can provide poor countries with a shortcut to prosperity; and a discussion of how worldwide financial crises, debt, and trade and capital markets affect developing countries.

Kenyan Women, Higher

Education, and the Labour Market Rees Hughes, Kilemi Mwiria, 1988. Essays on Earnings and Human Capital in Kenya Anthony Wambugu, 2003.

Demographic Transition Theory John C. Caldwell, 2007-09-21. This book has a strong theoretical focus and is unique in addressing both mortality and fertility over the full span of human history. It examines the demographic transition in the change in the human condition from high mortality and high fertility to low mortality and low fertility. It asks if fluctuating populations is a new phenomenon or if there has long been an inherent tendency in Man to maximize survival and to control family size.

Labour and Poverty in Kenya, 1900-1980 Paul Collier, Deepak Lal, 1986. Traces the evolution of the Kenyan labour market, focusing on rural-urban and urban-rural interactions and how these interactions have been affected and distorted by wage policies.
