Educational Values In The Shulchan Aruch:

Educational Values in the Shulchan Aruch Abraham A. Glicksberg, 1984 The standard code of Jewish law is discussed by the author as a source of educational values both in a historical and a contemporary perspective By doing so the author enhances the value of the Shulchan Aruch not only as a source book for Jewish observance but also as an excellent educational tool both for the general reader and for the classroom A Bibliography of Jewish Education in the United States Norman Drachler, 2017-12-01 Entries from thousands of publications whether in English Hebrew Yiddish and German on all aspects of Jewish education from pre school through secondary education This book contains entries from thousands of publications whether in English Hebrew Yiddish and German books research reports educational and general periodicals synagogue histories conference proceedings bibliographies and encyclopedias on all aspects of Jewish education from pre school through secondary education *Children's Rights and Traditional Values* Gillian Douglas, Leslie Sebba, 2016-12-05 This book of essays by legal scholars from the United Kingdom Eire Israel and Palestine explores the extent to which the recognition of the concept of children s rights is affected by adherence to religious cultural and ethnic traditions The aim is twofold first to illuminate the interface between internationally agreed norms of conduct regarding children and national and cultural determination to preserve traditional approaches and secondly to reflect upon the conflicts within societies between different cultural and religious groups in their attempts to determine whether liberal secular or conservative religious norms predominate in attitudes to children s upbringing This is the first collection of papers covering and comparing the UK and Israeli Palestinian jurisdictions The particular blends of social religious and cultural diversity in both regions mingled with the political factors operating as well render these jurisdictions of special interest as case studies in the reception of western liberal norms and values Moreover Israel and Palestine despite their manifestly different cultures as compared with Britain have been influenced by the colonial legacy of the common law rendering this particular east west comparison of special interest *The Educational Teachings of Rabbi Menachem M. Schneerson* Aryeh Solomon, 2000-02 Rabbi Schneerson s educational contribution has been largely unexamined and remains undisclosed to both the Jewish world beyond Habad and to contemporary students of religious and moral education Through the analysis in this book it will be argued that Rabbi Schneerson s teachings hold import not only for the Habad fraternity but for communities and individuals in the wider world
