service reform difficult to achieve How is freedom of information being used as a means to combat corruption and invoke grassroots activism What can be learned from the successes and failures While public administration practice and education have become considerably professionalized in the last decade a sufficiently in depth and well rounded reference on public administration in these countries is sorely lacking Most available books tackle only aspects of public administration such as administrative reforms civil service economic developments or public policy and are country specific None provide the in depth analysis of the sphere of public action in South Asia found in this book It supplies an understanding of how public administration can be either the source of or solution to so many of the problems and achievements in the Indian subcontinent Rural Development Perspectives ,1989 *The White House Conference on Balanced National Growth & Economic Development: Workshop reports* ,1978 *The Economics of Tourism Destinations* Norbert Vanhove,2022-06-19 Revised and updated the fourth edition of *The Economics of Tourism Destinations* provides a guide to the economic aspects of tourism for students and practitioners to decipher the methods of measurement of supply demand trends and impacts as well as the role of tourism in development strategy for destinations and regional development Each chapter combines theory and practice and international case studies are provided New to this edition Three brand new chapters on overtourism terrorism and pandemics and sustainable development covering the importance of risk management and sustainable strategy in relation to tourism management New content on climate change Airbnb the impact of events and sustainable tourism development Pedagogical features new case studies discussion questions and student activities to show theory in practice and encourage reflection on the content Updated data throughout and reference to important new literature Combining macro and micro aspects of economics to the tourism destination this book is an invaluable resource for students studying this topic **Rebuilding Community Solidarity and Pluralism** Donald G. Reid,2024-06-03 This book critiques the traditional practice of community organization change and development and concludes that the present practice of Community Development CD and Social Policy and Planning SP P is no longer capable of meeting the current challenges at the local or national level The aim of this book is to identify the underlying motivations for the individual aggressive and collective antisocial behaviour that we witness in democratic society today and offer changes to the orientation of the current community change practice in order to build a system that can better address the present needs of society This work identifies the factors that are moving society toward extremism and authoritarianism focusing particularly on the community level Given the turmoil in communities that is degrading democracy and leading to authoritarianism today the issues of Community Solidarity and Pluralism CS P must be attended to before the traditional political economic and material issues that are regularly addressed by CD and SP P practice can become the focus for change and development once again This book will have widespread appeal to academics researchers and postgraduate students throughout the social sciences including sociology social work political science economics philosophy environmental studies and international and

community development studies It is also intended for the general reader who is interested in understanding the authoritarian forces that are attempting to infiltrate the democratic process *Political Engagement in Canadian City Elections* R. Michael McGregor, Laura B. Stephenson, 2024-03-12 Municipal elections in Canada don't look much like those held at the federal and provincial levels A key difference is a significant discrepancy in voter turnout but relatively little is known about why far fewer people vote in city elections Voters show less interest in local government seeing it as less influential than other levels yet they believe their views matter more to local politicians *Political Engagement in Canadian City Elections* explores this apparent contradiction by asking who participates in politics how they go about it and why Drawing from the Canadian Municipal Election Study a novel survey of electors in eight large cities across the country in 2017 and 2018 contributors consider factors ranging from the universal such as the demographic profile of voters or how economic conditions affect them to the specific for example participation in school board and council elections There are more municipal elections than any other kind in Canada The discoveries in *Political Engagement in Canadian City Elections* collectively represent a major leap forward in our understanding of voter activity at the community and municipal level
