Economic Development of the United Arab Emirates (RLE Economy of Middle East) Ragaei el Mallakh, 2014-10-30

Since the early 1970s the oil producing countries of the Gulf have become a focus of intense interest worldwide. Most of this interest has centred on the oil giants Saudi Arabia, Iran, even Iraq and Kuwait. Yet the United Arab Emirates is also among the largest producers on a par with Kuwait, Nigeria and Libya with reserves greater than the USA. Given its high economic growth rate, the UAE is an excellent laboratory in which to test and evaluate policies and programmes to effect rapid economic development. The international stature of the UAE far exceeds what its physical size, population and breadth of resources would seem to indicate. As a member of OPEC, the UAE has played a vital role within that body's price moderates. With one of the world's highest per capita incomes and with ambitious development efforts under way, the UAE not surprisingly has become a major market for capital and consumer goods involving substantial foreign services, banking, business and industry. Based on more than a decade of study, on-site research and interviews with key figures, this book which mixes the practical with the academic approach will prove of great value to Middle Eastern and development specialists, students and to the international business and financial communities. First published in 1981. **Economic Development in the Middle East**, 1995 **Economic Development in the Middle East and North Africa** Mohamed Sami Ben

Ali, 2016-01-26. Using cases on individual countries, *Economic Development in the Middle East and North Africa* offers diverse theoretical and empirical evidence on a variety of issues facing policymakers, investors and other stakeholders in the region.

Economic Development and Population Growth in the Middle East Charles A. Cooper, Sidney Stuart Alexander, 1971. Monograph comprising nine essays on economic development and population problems in the Middle East includes information on Egypt, Lebanon, Jordan, Iraq, Syrian Arab Republic, Saudi Arabia, Kuwait and the Gulf States in respect of economic growth, the balance of payments, trade, prices, economic policies, population growth, fertility patterns, modernization etc. Bibliography, graphs, maps, references and statistical tables. **Economic and Political Change in the Middle East (RLE Economy of Middle East)** Elias H. Tuma, 2014-10-30. In the early 1960s the Middle East suffered from political

instability, inefficiency of government, widespread poverty and inequality, low productivity and a mounting population pressure on the region's resources. With the exception of some of the oil exporting countries, the entire region still suffers from these same burdens. There have been many studies in the economic development and industrialization of the region in recent years. This study is different, motivated by scepticism and a sense of intellectual frustration and apprehension because of the apparent inadequacy of socioeconomic and political development in the Middle East. First published in 1987. *Economic Development in the Middle East* Rodney Wilson, 2002-03-11. Despite its oil resources, the Middle East is falling behind other regions of the developing world, notably the countries of East and South East Asia. Rodney Wilson examines the economic

prospects for the region considering the consequences of rapid population growth including the implications for education and employment low savings levels the absence of significant inflows of private capital and foreign investment fragmentation of the banking system the basic economic infrastructure and the problems caused by excessive military expenditure falling oil prices budget deficits The author examines alternative economic directions for the region arguing that both the methods and goals of development have to be reassessed in a region where Islam prevails *Economic Development in the Middle East, 2nd edition* Rodney Wilson, 2012-11-27 By examining economic development in the Middle East in the aftermath of the Arab Spring this textbook introduces undergraduate and postgraduate students to the most pressing and topical economic issues in the contemporary Middle East With comprehensive coverage of the entire region the author examines the economic prospects for the Gulf and charts the growth of economic power in the region Organised thematically a full range of topics are discussed including the role of banks and capital markets in the region s development the impact of demographic changes such as the dramatic decline in birth rates and the implications for future employment the development of economic advances in oil and gas production the effects of the region s economic development on international and inter regional trade Through discussing the region s problems of the past as well as the present and future challenges this book provides students with a compact and manageable review of the state of economic development in the Middle East **Economic Development in Saudi Arabia** Ahmed Al Rajhi, Abdullah Al Salamah, Monica Malik, Rodney Wilson, 2012-10-12 The changing political situation in the Middle East poses challenges for the economies of the region and some see none more vulnerable to collapse than Saudi Arabia s Yet as this study demonstrates the fundamentals of the Kingdom s economy are relatively robust as over three quarters of GDP is accounted for by the non oil sector and impressive modern industries have been established notably in petrochemicals The financial system functions well and despite substantial government debts there is low inflation and currency stability The private sector increasingly drives the economy although job creation has been insufficient to prevent rising youth unemployment The development challenges Saudi Arabia faces are similar to those of other middle income countries and three decades of diversification have made the economy less unique than it was in the oil boom years of the 1970s The Economic Development of the Middle East; Alfred 1899-1959 Bonne, 2021-09-09 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public To ensure a quality reading experience this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy to read typeface We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **The Determinants of Arab Economic**

Development Yusuf Sayigh, 2014-10-30 This book explores in depth the factors determining economic development in the Arab region. The particular factors relevant to the Arab world are also set within the context of the broad political economy of underdevelopment. The factors are identified as comprising three main groups: economic, political, administrative, and socio-cultural. Petroleum and regional Arab economic development are examined separately. The force and operation of each determinant is further assessed in the context of the individual countries from which the author is able to arrive at some important conclusions concerning the interaction of these determinants and their impact upon development. First published in 1978.

Final Report Nations Unies. Economic Survey Mission for the Middle East, Nations Unies. Commission de conciliation pour la Palestine, 1949

The Middle East Economies in Times of Transition Ahmed Galal, Ishac Diwan, 2016-04-08 Diwan and Galal look at the structure and prospects of the Middle East economies after the 2011 Uprisings, focusing on issues of economic growth, inequality, the impact of oil, and the unfolding political transitions. On the growth question, the book looks into the extent of structural transformation of the economy; the political economy reasons for the lack of structural change and the external conditions in the EU and in the GCC that underpin the lack of structural change. On inequality, the book offers new measures of equality of opportunity in human development and in the job market, and it also reviews the complex political economy of subsidy removal. Regarding natural resources, the volume provides three innovations: connecting the notion of oil curse to the global phenomena of asset bubbles; evidence that resource curse effects do not rise monotonically with the size of the resource rent but rather according to an inverted U shape; and an extension of the concept of rent to the other non-oil rents that are also predominant in the region. Finally, the volume places the political transition in the region in a global perspective using various methods: theoretical, comparative, and empirical, and it explores the relationship between democracy in its variety of forms and economic development.

[The Economic Development of the Middle East](#) Alfred Bonne, 2013-07-04 First published in 1998. This is Volume II of eleven in the Economics and Society series. This book provides an outline of the economic development of the Middle East and planned reconstruction and the problems of transformation after the war.
