Values of Our Times Deshun Li, 2013-06-01 Philosophers have gradually accepted axiology as one branch of philosophy As

a basic category belonging to axiology and philosophy value is the general abstraction of concrete value formation in various fields including utility ethics and appreciation of the beauty The problem of value is essentially a problem of historical activities of practice in human society The axiology based on the scientific practice view insists on the principle of unification between theory and practice truth and value In research of axiology the relation between subjectivity and objectivity of values is a problem that must be solved in the first place The modern conversation of value philosophy is the academic and practical demands of the value philosophy research in China Value evaluation is an important part of the axiology In order to deepen the research of value philosophy and to promote the development of current value philosophy we must have scientific mode of thinking suitable for the nature of value It is the base of value relation the origin of value needs the process of value creation and actualization and the fundamental way to proving ones value as a human being

My Life, Our Times Gordon Brown,2017-11-07 This revelatory memoir from Britain s former Prime Minister offers vital insights into our extraordinary times Former Prime Minister and the country s longest serving Chancellor Gordon Brown has been a guiding force for Britain and the world over three decades This is his candid poignant and deeply relevant story In describing his upbringing in Scotland as the son of a minister the near loss of his eyesight as a student and the death of his daughter within days of her birth he shares the passionately held principles that have shaped and driven him reminding us that politics can and should be a calling to serve Reflecting on the personal and ideological tensions within Labour and its successes and failures in power he describes how to meet the challenge of pursuing a radical agenda within a credible party of government From the invasion of Iraq to the tragedy of Afghanistan from the coalition negotiations of 2010 to the referendums on Scottish independence and Europe Gordon Brown draws on his unique experiences to explain Britain s current fractured condition By showing us what progressive politics has achieved in recent decades he inspires us with a vision of what it might yet achieve Riveting expert and highly personal this historic memoir is an invaluable insight into our times

The Words of Our Time John Shosky,2012-05-08

This is a collection of the most influential speeches given since entering the new millennium. It is a timely book capturing contemporary and powerful expressions of ideas and reasoning. Global in perspective, these speeches stand as unmediated and authentic testaments to the profound impact of great words and persuasive vision. During this period, our mindset and culture have changed, reflecting the immense national and international changes the age has witnessed: the global financial crisis, the outbreak of international terrorism, the rise of new wealth in the developing world, austerity in Europe and the United States, and new opportunities for investment and influence. These speeches define our recent history and will be used by historians to understand us in the years and centuries to come. *The Restructuring of Capitalism in Our Time* William K. Tabb, 2012

Actions taken by the United States and other countries during the Great Recession focused on restoring the viability of major financial institutions while guaranteeing debt and stimulating growth. Once the markets stabilized, the United States enacted regulatory reforms that ultimately left basic economic structures unchanged. At the same time, the political class pursued austerity measures to curb the growing national debt. Drawing on the economic theories of Keynes and Minsky and applying them to the modern evolution of American banking and finance, William K. Tabb offers a chilling prediction about future crises and the structural factors inhibiting true reform. Tabb follows the rise of banking practices and financial motives in America over the past thirty years and the simultaneous growth of a shadow industry of hedge funds, private equity firms, and financial innovations such as derivatives. He marks the shift from an American economy based primarily on the production of goods and nonfinancial services to one characterized by financialization, then shows how these developments, perspectives, and approaches not only contributed to the recent financial crisis but also prevented the enactment of effective regulatory reform. He incisively analyzes the damage that increasing unsustainable debt and excessive risk-taking has done to our financial system and expands his critique to a discussion of world systems and globalization. Revealing the willful blind spots of mainstream finance theory, Tabb moves beyond an economic model reliant on debt expansion and dangerous levels of leverage, proposing instead a social structure of accumulation that places economic justice over profit and more practically institutes an inclusive sustainable model for growth. *Economics for Our Times* Smith Augustus H., Howard Patterson S., 2015-11-07

Regenerative Economics John Fullerton, 2025-11-18 A bold vision of an economy as an intelligent living organism freed from the mindless finance algorithm unlocking unseen potential Regenerative Economics is based on the deceptively simple idea that an economic system should emulate the process and patterns that define all life enabling it to adapt and evolve to higher levels of complexity This science based next evolution of economics explains the root cause of the polycrisis the compounding impacts of climate change ecosystem and biodiversity loss planetary systems breakdown and increasing social and economic inequity and promises a hopeful pathway forward at this pivotable moment Rather than reacting to crisis after crisis the purpose of a regenerative economy is to create the conditions that nurture and sustain health and all life This hard hitting and scientifically rigorous yet ultimately hopeful book Identifies the unseen fatal error of our current economic model Outlines a set of key regenerative design principles to navigate the polycrisis Prescribes transformative individual actions and policies which both embrace and move beyond current materialist ideas of sustainability circularity and degrowth to redefine systemic health and true value within the context of a whole living systems approach Offers a fresh pathway through the polycrisis and toward a new economy one that prioritizes human and planetary well being operates within ecological limits and promotes a more just and sustainable future This seminal work is required reading for business government and community leaders economic thinkers academics and anyone who questions the future of capitalism given the reality of finite planetary boundaries and growing social injustice

A Life in Our Times John Kenneth Galbraith, 2019-07-31 In his memoirs John Kenneth Galbraith recalls amusingly even brilliantly the important and low moments in his life the men and women he met who were great only interesting entertaining or even absurd Galbraith studied agriculture in his native Canada and agricultural economics at UC Berkeley He taught at the University of California served briefly in FDR's administration and went on to Harvard In Cambridge England he discovered the new economics of John Maynard Keynes During World War II in Washington he held the key job of organizing and administering the system of wartime price controls After the war Galbraith directed the survey that interrogated former Nazi leaders to assess the effects of the air war on the German economy He then worked for the State Department as administrator for economic affairs in the occupied countries and served as an editor of Fortune when the magazine employed some of the best writers around Galbraith returned to Harvard in 1948 and wrote three of the most influential books on economics of his time *The Affluent Society* *The New Industrial State* and *Economics and the Public Purpose* In these lively memoirs the author relates all of this and more his two major political campaigns with Adlai E Stevenson for whom he was adviser and speech writer and John F Kennedy for whom he campaigned across the country his years as ambassador in India and his long opposition to the Vietnam war And he shares the lessons learned from these experiences On every subject Mr Galbraith is succinct and witty The book is full of strong opinion and proceeds by the vehicle of anecdote The serious business of the book is to trace the

steps of its author's astonishingly varied and useful life. Mr Galbraith's vigor of expression as well as an account of a period of gloom and psychotherapy prevents the writing from ever sounding impersonal. That serious business is also to set the record straight on what his books were about and how he evolved his theory of The Affluent Society and The New Industrial State as two of his most important works were named on why the bombing of Germany during World War II was less than useless why it was patently unnecessary to wage atomic warfare on Japan and why he came to be a dissenter on the war in Vietnam On inflation On the secular priesthood that once presided at the State Department And enchantingly on such movers and shakers he came to know well as the New Dealer Leon Henderson Paul Baran the most interesting economist I have ever known Bernard M Baruch Adlai E Stevenson John F Kennedy and Lyndon B Johnson Christopher Lehmann Haupt The New York Times As a raconteur and a literary stylist Galbraith stands with the best As entertainment the book is a total success Its charm comes from the combination of Mr Galbraith's smooth comic timing and his not always charitable wit James Fallows The New York Times Galbraith ranks with the most entertaining and provocative political writers in America in this century Without Galbraith the political literature of our time would be far drearier Gaddis Smith Foreign Affairs Galbraith has assembled a well-nigh complete record of what he has been up to professionally at least since leaving his family's Ontario farm The account is fascinating The narrative consistently holds the distinctive Galbraith style that makes all his books read like a nippy breeze Geoffrey Colvin Christian Science Monitor Absorbing and irresistible The New Yorker An enjoyable book full of fun full of wisdom and full of rare insights into the history of our times The New Republic A delightfully teeming book Galbraith's comic voice is a distinctive and durable literary achievement Atlantic Monthly A highly perceptive commentary on all our yesterdays anecdotal amusing animated and above all illuminating John Barkham Reviews *The Crisis of Our Time* John Carvalho, 2014-07-15 Dr John Carvalho former Harvard academician and winner of the United States National Research Service Award is no stranger to the word crisis As a scientist scholar and statesman he has spent decades working on the front lines of biomedical and theoretical exploration global health and the worldwide human rights movement The Crisis of Our Time is the astonishing partial memoir and discourse regarding his life's career and philosophy concerning the planet's most pressing problems Written in a way accessible to everyone Carvalho beginning with his passionate poetic and provocative first chapter challenges us to discover that the disastrous external crises of our lives emanate from the unity of our conscious and subconscious experiences Indeed the great troubles afflicting humanity war infectious disease economic recession terrorism family discord psychological trauma human rights violations dilemmas that appear unsolvable actually originate when without truthful self-reflection we glorify mediocrity rather than strive to excel Employing cutting edge scientific information keen historical insight extensive cultural experience and profound philosophical analysis Carvalho dissects our crises to elucidate why they perpetuate In so doing he introduces his theory of causal circular systems to reveal how causes feed off and exacerbate effects which in turn reinforce those same causes Furthering his views he explores global

health the example par excellence as well as economics political history planetary climate change and the most central crisis of all Being or Nothingness the fears of the Self the dread of our mortality Ultimately this short but eye opening book creates epic meaning while using an artistic literary style that is virtually unseen in nonfiction Anyone who genuinely seeks excellence over mediocrity truth over falsity meaning over purposelessness and resolution over despair should read *Crisis*

The American Flint, 1923 *Plural Marriage for Our Times* Philip L. Kilbride, Douglas R. Page, 2012-08-17 This thoroughly revised second edition offers a child centered international perspective as it urges America to de stigmatize alternate family forms In this book s first edition Philip L Kilbride showed polygamy as the preferred marriage pattern in most parts of the nonwestern world and explained how plural marriage is surfacing in western countries to address economic and spiritual crises In *Plural Marriage for Our Times A Reinvented Option Second Edition* Kilbride and his coauthor Douglas R Page update and enhance this thesis in light of contemporary circumstances new studies and current legal debates This new edition examines plural marriage s benefits for children It extends the discussion of polygamy and religion especially the Muslim perspective on marriage and family considers the illegal polygamy of immigrants and looks at multiple marriage in African American communities where crisis polygamy is a growing phenomenon The authors suggest Americans consider plural marriage as a viable practice that can help reduce the divorce rate better protect women and children and serve as an alternative to the fractured family so prevalent in America today

Economics and the Good Life Bertrand de Jouvenel, 2017-10-19 Bertrand de Jouvenel 1903 1987 was known in the United States primarily as a political scientist His best known works *On Power Sovereignty* and *The Pure Theory of Politics* all made distinctive contributions to our understanding of the modern state and to the creation of a political science capable of civilizing that state His work in the field of economics is relatively unknown in the United States but like many writers in the contemporary field of political economy de Jouvenel is not interested in expanding the claims of economy at the expense of polity On the contrary his thinking is governed by the oldest and most fundamental of political concerns the definition of the good life The good life is not a product of the marketplace but of deliberate and collective decision that is a task for thoughtful citizens and statesmen and not simply the sum of millions of separate and amoral consumer preferences De Jouvenel is well known for his opposition to the distended state but he was no anarchist His eloquent warnings to keep the state in its proper sphere were accompanied by a richly sophisticated discussion of what the proper sphere is an aspect of his work that comes through very clearly in this volume Written between 1952 and 1980 the essays range from a discussion of technology to reflections on such fundamental economic concepts as amenity and welfare They include the deeply theoretical as well as the practical and the concrete All are informed by de Jouvenel s insistence that a science which seeks to understand the production and distribution of goods must be concerned in the first place with the good itself *Economics and the Good Life* is a companion volume to *The Nature of Politics Selected Essays of Bertrand de Jouvenel* Like the earlier volume this collection is

accompanied by an editor's introduction that places the essays in the wider context of de Jouvenel's work This work is essential to the libraries of economists political theorists historians and sociologists The Economics of Abundance Wolfgang Hoeschele, 2010 This book critiques capitalism as being based on the creation of scarcity in order to yield profits and proposes an alternative path of development that would promote freedom equity and sustainability as well as entrepreneurial initiative through the creation of abundance *Black Economics and Changing the Economic Molecules* Dr. Keith Gavin, 2016-08-18 We must meet God on the road for he is waiting for us to come up with new and fresh ideas and strategies God wants you to know that he is still in control or he has theocracy God wants to remind us that we must mark our goals plan our direction and set out to meet him on the road of struggle Who is on the Lord's side Do we trust God at his Word that he will never leave us or forsake us And what role do we play in the ecumenical arena meaning the economy of God We cannot build safely on false foundations for truth makes a new creature in whom old things pass away and all things will become new It has been recorded that not one word that God has written in the Bible has failed nor has nothing been added that cannot be explained So what is the condition that requires God to meet you at your level How can God help you out of the condition if you will not help yourself You must be available to God and then he will be available to you for he will meet you where you need him God will come to your level If everyone around you is being blessed and you find yourself wanting and waiting for a blessing did you ask God to come and meet you at your condition Then how can God come down to your level if you will not meet him there **How to Survive Spiritually in Our Times, Mahanta Transcripts, Book 16** Harold Klemp, 2019-03-01 Harold Klemp's stories are your stories They're about people like you They're about extraordinary experiences Heartwarming experiences Small miracles and gifts from God that happen in your everyday life The spiritual good news of today Take the story of Rebecca who is told by doctors that she'll never have children She really wants children of her own She opens herself to Divine Spirit and asks If there's any way for me to have my own children please let it be so She practices techniques included in this book and working with Divine Spirit reinvents herself The direction and insight she receives one day bring her a miracle A child of her own A master storyteller Harold Klemp weaves stories tools and techniques into the golden fabric of his books to help you see deeper truths within and apply them in your life now He speaks directly to Soul that divine eternal spark the real you The survivor Spiritual survival is only the starting point in your spiritual life Harold Klemp shows you how to thrive Eckankar is a modern day spiritual teaching with ancient roots founded in 1965 by Paul Twitchell Harold Klemp is the current spiritual leader of Eckankar since 1981 *Railway Times*, 1890 **Elements of Economics of Industry** Alfred Marshall, 1909
