**Economics, Ethics and Religion** R. Wilson, 1997-02-24 There is a revival of interest by economists in ethical issues and beliefs and by moral philosophers and theologians in economics. This book is intended to make a contribution to this cross fertilisation of ideas. Rodney Wilson has undertaken an extensive survey of Jewish, Christian and Muslim views on economics and reviewed the rapidly expanding business ethics literature from a religious perspective. The juxtaposition of the work of theologians and moral philosophers with that of economists results in some interesting comparisons.
