China: the New Imperialists & Neo- Colonialists in Africa? Kwame A. Insaadoo,2016-04-21 Chinese generally look condescendingly on the humanity of black Africans but over the past decades there have been a huge influx of Chinese on the African continent What is driving the Chinese to the African continent Are the Chinese in Africa to help Africa develop in their so called win win or south southdevelopment method Or are the Chinese in Africa to exploit the huge super abundant raw materials and mineral resources to fuel their expanding industries It is true that the Chinese are currently building monumental stadiums presidential palaces conference halls but as much as Africans are grateful for these they do not represent economic progress for Africa What we see though is Chinese offering huge loans to African nations in return for their raw materials Ironically most of the loans end up in the hands of Chinese contractors undertaking the construction projects Chinese labor working in the projects and Chinese materials and products used in the projects In the end African governments are left holding the bag of huge repayments back to China Moreover some if not many of the infrastructure are often shoddy as the case of Angolan hospital and many roads in Africa have demonstrated Additionally Chinese also support African dictators like Mugabe of Zimbabwe Omar Bashir of Sudan Santos of Angola and many others with deadly weaponry to oppress African citizens Finally the Beijing Consensus though has helped lift many Chinese out of poverty cannot be replicated in Africa because of its authoritarian nature

Gender at the Border Janet Henshall Momsen, 2018-01-18 Looking at two contrasting border regions one in western Hungary one in the east of the country this volume is the first to combine an examination of border related issues with gender and economic development By comparing and critically analyzing the relative levels of encouragement of entrepreneurial activities and gender differences it highlights the importance of borders within the changing European Union Despite the assumption that entrepreneurship would be strongest near the western border with Austria the findings show that on the contrary many women in western Hungary would rather avoid the risk of being self employed by getting well paid jobs in Austria or working for foreigners while in the east of the country entrepreneurship was often the only possible way of earning a living It also highlights the importance of setting up a business to the empowerment of women in both regions by giving them a bigger decision making role in the family

and the Bank In this ruthlessly honest day by day account of a mission he undertook in Sierra Leone he uses his diary to tell the story of how the World Bank obsessed with the free market imposed a secret agreement on the government banning all government food imports or subsidies The collapsing economy meant that the private sector would not import Famine loomed No ministry no state marketing organization no aid organization could reverse the agreement It had to be a top level government decision whether Sierra Leone could afford to annoy minor World Bank officials This is a rare and important portrait of the aid world which insiders will recognize but of which the general public seldom get a glimpse **Global**
