Expanding Peace Ecology: Peace, Security, Sustainability, Equity and Gender Úrsula Oswald Spring, Hans Günter Brauch, Keith G. Tidball, 2013-11-29 This book has peer reviewed chapters by scholars from Australia Canada Germany Japan

Mexico and the USA that were presented to the Ecology and Peace Commission EPC of the International Peace Research Association IPRA in November 2012 in Japan The chapters address these themes Expanding Peace Ecology Peace Security Sustainability Equity and Gender Two Discourses on Global Climate Change Impacts From Climate Change and Security to Sustainability Transition Peace Research and Greening in the Red Zone Community based Ecological Restoration to Enhance Resilience and Transitions Toward Peace Social and Environmental Vulnerability in a River Basin of Mexico Mobile Learning Rebuilding Community Through Building Communities Supporting Community Capacities Post Natural Disaster Experience Transforming Consciousness through Peace Environmental Education Building Peace by Rebuilding Community Ability Expectations and Peace and on Satoyama Sustainability and Peace *Environmental Problem Solving* Jeffrey W.

Hughes,2013-08-02 As environmental problems become increasingly complex it is critical that students and activists learn the skills with which to address them Although there already are many case studies of actual issues only in the last few years have environmental scientists paid close attention to their resolution *Environmental Problem Solving* teaches these skills Jeffrey W Hughes creates an organized method for approaching problems understanding larger issues and crafting solutions to a wide range of contemporary environmental issues Many environmental activists often have preconceived ideas of environmental protection and problem solving They react emotionally to news of deforestation a new housing development or a planned big box store without thinking about the problem logically and they may automatically regard foresters development companies and corporations as opponents As their views harden discourse turns acrimonious and it becomes ever more difficult to find satisfactory solutions This book teaches those on both sides of the table to address their own preconceptions and approach hard issues critically methodically and fairly Hughes combines aspects of the decision making process from the fields of business management and communication science based on extensive research and ample practical experience in the field and classroom He creates a logical framework to help guide thinking from identifying a problem to finding its solution Using examples drawn from real life situations *Environmental Problem Solving* will become an invaluable guide for environmentalists agency professionals consultants students naturalists and concerned citizens [Handbook on Sustainability Transition and Sustainable Peace](#) Hans Günter Brauch,Ürsula Oswald Spring,John Grin,Jürgen

Harper, Maciej Zalewski, Nic Pacini, 2008-01-01 Ecohydrology is a sub discipline which links elements of ecology with hydrology at various points in the water cycle This book focuses on larger scales of ecohydrology emphasising the use of this tool in striving towards the goal of sustainable water management      **Ecopolis** Paul F. Downton, 2008-11-19 From 2008 for the first time in human history half of the world's population now live in cities Yet despite a wealth of literature on green architecture and planning there is to date no single book which draws together theory from the full range of disciplines from architecture planning and ecology which we must come to grips with if we are to design future cities which are genuinely sustainable Paul Downton's Ecopolis takes a major step along this path It highlights the urgent need to understand the role of cities as both agents of change and means of survival at a time when climate change has finally grabbed world attention and it provides a framework for designing cities that integrates knowledge both academic and practical from a range of relevant disciplines Identifying key theorists practitioners places and philosophies the book provides a solid theoretical context which introduces the concept of urban fractals and goes on to present a series of design and planning tools for achieving Sustainable Human Ecological Development SHED Combining knowledge from diverse fields to present a synthesis of urban ecology the book will provide a valuable resource for students researchers and practitioners in architecture construction planning geography and the traditional life sciences      Sounds, Ecologies, Musics Aaron S. Allen, Jeff Todd Titon, 2023 Sounds Ecologies Musics poses exciting challenges and provides fresh opportunities for scholars scientists environmental activists musicians and listeners to consider music and sound from ecological standpoints Authors in Part I examine the natural and built environment and how music and sound are woven into it how the environment enables music and sound and how the natural and cultural production of music and sound in turn impact the environment In Part II contributors consider music and sound in relation to ecological knowledges that appear to conflict with yet may be viewed as complementary to Western science traditional and

Indigenous ecological and environmental knowledges Part III features multidisciplinary and interdisciplinary approaches by scholars scientists and practitioners who probe the ecological imaginary regarding the complex ideas and contested keywords that characterize ecomusicology sound music culture society environment and nature A common theme across the book is the idea of diverse ecologies Once confined to the natural sciences the word ecology is common today in the social sciences humanities and arts yet its diverse uses have become imprecise and confusing Engaging the conflicting and complementary meanings of ecology requires embracing a both and approach Diverse ecologies are illustrated in the methodological terminological and topical variety of the chapters as well as the contributors choice of sources and their disciplinary backgrounds In times of mounting human and planetary crises Sounds Ecologies Musics challenges disciplinarity and broadens the interdisciplinary field of ecomusicologies These theoretical and practical studies expand sonic scholarly and political activism from the diversity equity inclusion agenda of social justice to embrace the more diverse and inclusive agenda of ecocentric ecojustice

Economics and Sustainability Karl Bruckmeier, 2020-11-21 This textbook provides an overview of economic perspectives on sustainability It synthesises economic ecological and interdisciplinary sustainability research and

by applying an integrated social ecological and economic framework demonstrates how this research can be improved and implemented in practice Split into three parts the book begins by introducing a range of topics forming the basis of knowledge needed to understand the varying sustainability discourses in economics ecology and interdisciplinary sustainability research Chapters cover the political context of sustainability the history of sustainability in European environmental discourses dating back to the seventeenth century as well as various problems and forms of interdisciplinary knowledge integration and synthesis in the sustainability process Part II reviews the core economic themes relevant to sustainable development including natural resource management environmental economics and ecological economics Also highlighted are often neglected issues such as conflicts disasters and interrelated crises on the way towards sustainability The chapters in Part III discuss the future of the sustainability process They argue for the necessity of overhauling the relationship between science and practice explore failures and the unforeseen difficulties of sustainability transformation and discuss how to enable a long term sustainability process that reaches into the distant future An innovative resource for a broad range of interdisciplinary programmes on sustainability The book will be an invaluable reference for master and PhD students instructors researchers and practitioners in sustainability governance **Working With Nature** Carl F.

Jordan,2013-10-31 First Published in 1998 This important work looks at an alternative approach to resource production systems taking the view that many environmental problems associated with conventional resource management are avoidable if we work with nature instead of trying to dominate it Jordan argues that achieving sustainability in production systems is best accomplished by encouraging a change in the relationship between humans and nature from one of exploitation through control to one of sustainability through cooperation Epidemiology and the People's Health Nancy Krieger,2024 Theory Traced to its Greek roots theory means to see inwards to theorize is to use our mind's eye systematically following articulated principles to discern meaningful patterns among observations and ideas Oxford English Dictionary OED 2022 The implication is that without theory observation is blind and explanation is impossible **The Future of the Universe and the Future of Our Civilization** V. Burdyuzha,G. Kohzin,2000 The first of its kind the Symposium on the Future of the Universe and the Future of our Civilization examined the current status and future evolution of the Universe the Galaxy the stars and the Sun Among the major subjects of discussion were 1 How was our Universe born 2 How do the Sun and the stars evolve 3 What is the destiny of the solar system and the Universe 4 What are the origins and the future of the biosphere of the Earth 5 What are the prospects of survival of human civilization Special attention was devoted to analysis of humanitarian and philosophical problems of evolution of humankind on the planet Earth and in the Universe Among them were methodological economic sociological and medical aspects of the progress of civilization Scientists from different countries put forward some practical proposals including those describing the possible ways out of the systemic crisis of our civilization **Living**
