Economic And Social Progress In Asia Why Pakistan Did Not Become A Tiger:

Economic and Social Progress in Asia Omar Noman, 1997 In the 1950s when Pakistan opted for a development strategy led by the private sector the country seemed on the verge of a breakthrough Today thirty years later the economic picture is bleak In many ways the country is worse off now than it was then This fiftieth year of Pakistan's Independence 1947-1997 is a good time to reflect on what went wrong Why did Pakistan fail to join the ranks of Asia's tigers This book tries to explain the divergence in development among the Asian countries that sought private sector leadership locating many telling variables regarding both political economy and economic policy **Making Sense of Pakistan** Farzana

Shaikh, 2018-10-15 Pakistan's transformation from supposed model of Muslim enlightenment to a state now threatened by an Islamist takeover has been remarkable Many account for the change by pointing to Pakistan's controversial partnership with the United States since 9/11 others see it as a consequence of Pakistan's long history of authoritarian rule which has marginalized liberal opinion and allowed the rise of a religious right Farzana Shaikh argues the country's decline is rooted primarily in uncertainty about the meaning of Pakistan and the significance of being Pakistani This has pre-empted a consensus on the role of Islam in the public sphere and encouraged the spread of political Islam It has also widened the gap between personal piety and public morality corrupting the country's economic foundations and tearing apart its social fabric More ominously still it has given rise to a new and dangerous symbiosis between the country's powerful armed forces and Muslim extremists Shaikh demonstrates how the ideology that constrained Indo-Muslim politics in the years leading to Partition in 1947 has left its mark skillfully deploying insights from history to better understand Pakistan's troubled present

Rethinking the National Security of Pakistan Ahmad Faruqui, 2019-06-14 This title was first published in 2002 Policy makers in South Asia the Middle East and the Asian Pacific decision makers in the OECD countries organizations and specialists in academe will all find this publication indispensable It presents an integrated model of national security that emphasizes military and non-military determinants In the light of this model it analyzes Pakistan's defence policies over the last half century and proposes a radical reform of Pakistan's military organization In addition to offering a comprehensive look at national security this book provides coherent interrelated analysis of the key issues such as political leadership social and economic development and foreign policy

Political Survival in Pakistan Anas Malik, 2010-10-22 Presenting a framework that incorporates macro level forces into micro level strategic calculations this book explains key political choices by leaders and challengers in Pakistan through the political survival mechanism It offers an explanation for continuing polity weakness in the country and describes how political survival shapes the choices made by the leaders and challengers Using a unique analysis that synthesizes theories of weak states quasi states and political survival the book extends beyond rationalist accounts and the application of choice theoretical approaches to developing countries It challenges the focus on ideology and suggests that diverse religiously and ethnically defined affinity groups have interests that are represented in

particular ways in weak state circumstances Extensive interviews with decision makers and polity participants combined with narrative accounts allow the author to examine decision making by leaders in a state bureaucratic machinery context as well as the complex mechanisms by which dissident affinity groups may support quasi state options This study can be used for comparisons in Islamic contexts and presents an interesting contribution to studies on South Asia as well as Political Development

Historical Dictionary of Pakistan Shahid Javed Burki, 2015-03-19 Pakistan is unlike most other countries in the emerging world It is one of the two nations the other being the state of Israel founded on the basis of religion Although it was created to provide a homeland for the Muslim community of British India in its original form it was able to accommodate only about half of the people of Islamic faith who lived in the subcontinent Pakistan's birth in 1947 resulted in one of the largest movements of people in human history when some 14 million people left their homes with 8 million Muslims leaving India for what is now Pakistan and 6 million Hindus and Sikhs moving in the opposite direction This was the first large scale incidence of ethnic cleansing the world was to witness This fourth edition of Historical Dictionary of Pakistan covers its history through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Pakistan

Islamic Leviathan Seyyed Vali Reza Nasr, 2001-09-13 Islamization is commonly seen as the work of Islamist movements who have forced their ideology on ruling regimes and other hapless social actors There is little doubt that ruling regimes and disparate social and political actors alike are pushed in the direction of Islamic politics by Islamist forces However Islamist activism and its revolutionary and utopian rhetoric only partly explain this trend Here Nasr argues that the state itself plays a key role in embedding Islam in the politics of Muslim countries Focusing on Malaysia and Pakistan Nasr argues that the turn to Islam is a facet of the state's drive to establish hegemony over society and expand its powers and control

Politics of Identity Adeel Khan, 2005-01-06 Excellent and compelling Partha Chatterjee University of Columbia A provocative passionate and stimulating new interpretation of ethnic nationalism Dipesh Chakrabarty University of Chicago A significant study that informs us of the politics and group interests in one of the most volatile regions of the world Stephen Castles Oxford University Very interesting intellectual and political ideas refreshing Gyan Pandey Johns Hopkins University An informed and lucid work that demystifies the politics of nationalism Howard Brasted University of New England A major challenge Pakistan has been confronted with since it came into existence is the self assertion of various ethnic groups which have actively contested the legitimacy of the state structure However despite the seriousness of this ethnic challenge there exists no detailed study of these movements Politics of Identity fills this vacuum Ethnic nationalism the author argues is a political issue and is essentially a struggle for power between dominant and non dominant groups Highlighting the role the state plays in the lives of individuals the book studies both the pre colonial and colonial state system in India and the changes

it effected until India s independence and the creation of Pakistan assesses the state in Pakistan and explains its role in giving rise to ethnic discontent studies four ethnic movements Pukhtun Baloch Sindhi and Mohajir demonstrating how their proximity to or distance from state power have influenced their politics *Afghanistan's Political Stability* Dr Ahmad Shaye Qassem,2013-03-28 Political stability has been a central theme of policy for all governments and political systems in the history of modern Afghanistan Since its inception in the mid nineteenth century the country experimented with a diverse succession of political systems and state ideologies matched by few other countries political histories In the span of less than nine decades since independence in 1919 the Afghan state was substantially restructured at least a dozen times This volume looks at Afghanistan s historic relations with Central and South Asia ethno nationalism and development Soviet occupation and transformation of relations with Pakistan stability of the Islamic State and regional cooperation It examines how Afghanistan s different political systems reformed and readjusted policies to make them more conducive to political stability Yet political stability at best has remained a dream unrealized in Afghanistan *The Warrior State* T. V. Paul,2015 As the U S forces withdraw from Afghanistan a Taliban victory in that besieged long suffering country and the further Talibalization of Pakistan itself have become a real possibility This book explores why Pakistan has become such a heavily militarized ideologically driven state yet remains deeply insecure weak and unable to unite itself or pacify its warring ethnic and religious groups *Crafting Peace in Kashmir* Verghese Koithara,2004-08-30 Presenting a completely new perspective on the Kashmir conflict this book argues that resolving the situation can be brought about through a peace strategy rather than a war strategy Through an analysis of the conflicts in Northern Ireland Sri Lanka and Palestine the author draws parallels between the India Pakistan conflict He also presents reasons why a durable peace based on the Line of Control becoming the settled border and the two parts of Jammu and Kashmir being given parallel and substantial autonomy can be achieved in today s conditions The book concludes that peace between India and Pakistan is possible based on political realism and that strategic solutions that safeguard the interests of both countries are available **Handbook on the South Asian**

Economies Anis Chowdhury,Wahiduddin Mahmud,2008-01-01 With its higher economic growth in recent years South Asia is becoming an increasingly important region in the global economy This volume provides a very useful introduction to the economics of the region and will be of considerable interest to both students and researchers John Weiss University of Bradford UK The editors and contributors are to be congratulated for this comprehensive and original survey of the enormously important and diverse South Asian economies Hal Hill Australian National University The Handbook on the South Asian Economies edited by Wahiduddin Mahmud and Anis Chowdhry is a collection of essays on political economy of development of all seven South Asian countries It is also one of only a few books available in the market covering all economies of South Asia Hence it fills a gap in the literature on South Asian Development One very important aspect of the book is a clear recognition by the editors that South Asia s development will have to be studied and analysed within the

context of its socio political institutions and hence not by relying solely on its economic policy regimes I recommend this book to scholars of all disciplines Kartik Roy University of Queensland Australia This Handbook on the South Asian Economies a companion to the Handbook on the Northeast and Southeast Asian Economies is a comprehensive and unique collection of original studies on the economic and social development of countries in South Asia The analytical narratives draw upon a wide range of extant literature in an easily accessible way whilst highlighting the impact of socio political factors on economic outcomes The introductory chapter by the editors provides a comprehensive survey of the main features of South Asian economic development especially in respect of the policy reforms since the late 1970s The Handbook seeks to understand the varying degrees of achievements in economic transformation and social development in various parts of South Asia and ponders whether these experiences indicate alternative pathways of socio economic progress or provide a unique framework for a South Asian development model The experiences of economic reforms across the South Asian countries with their distinctive socio economic settings and public cultures may thus provide fresh perspectives on the emerging development paradigms The Handbook is indeed based on the premise that development economics and South Asia have a lot to learn from each other As with the Handbook on the Northeast and Southeast Asian Economies this latest Handbook will be an invaluable reference work for many years to come for researchers academics and students of Asian studies and economics Policymakers interested in learning more about the background and future opportunities and challenges posed by these economies will also find much to engage them **In Search of Prosperity** Dani

Rodrik, 2012-11-21 The economics of growth has come a long way since it regained center stage for economists in the mid 1980s Here for the first time is a series of country studies guided by that research The thirteen essays by leading economists shed light on some of the most important growth puzzles of our time How did China grow so rapidly despite the absence of full fledged private property rights What happened in India after the early 1980s to more than double its growth rate How did Botswana and Mauritius avoid the problems that other countries in sub Saharan Africa succumbed to How did Indonesia manage to grow over three decades despite weak institutions and distorted microeconomic policies and why did it suffer such a collapse after 1997 What emerges from this collective effort is a deeper understanding of the centrality of institutions Economies that have performed well over the long term owe their success not to geography or trade but to institutions that have generated market oriented incentives protected property rights and enabled stability However these narratives warn against a cookie cutter approach to institution building The contributors are Daron Acemoglu Maite Careaga Gregory Clark J Bradford DeLong Georges de Menil William Easterly Ricardo Hausmann Simon Johnson Daniel Kaufmann Massimo Mastruzzi Ian W McLean Lant Pritchett Yingyi Qian James A Robinson Devesh Roy Arvind Subramanian Alan M Taylor Jonathan Temple Barry R Weingast Susan Wolcott and Diego Zavaleta **Talibanistan** Peter Bergen, Katherine Tiedemann, 2013-01-04 Essays by experts exploring the intersection of geography religion foreign policy and terrorism in Afghanistan and Pakistan
