Understanding the European Union's External Relations Michèle Knodt,Sebastiaan Princen,2003-09-02 The European Union is one of the world s biggest economies However its role as an international actor is ambiguous and it s not always able to transform its political power into effective external policies The development of an assertive European Union challenges the image of an internal project aimed at economic integration and international relations theories based on unitary state actors This book systematically links the EU s external relations to existing political theories showing how existing theories need to be modified in order to deal with specific characteristics of the EU as an international actor **The Making of EU Foreign Policy** K. Smith,2004-01-13 The Making of EU Foreign Policy argues that there has been a common European Union EU foreign policy towards six countries of Eastern Europe Bulgaria Czech Republic Hungary Poland Romania Slovakia and analyzes why the EU has agreed to the policy The objective of the EU s policy is to support the transformation of Eastern Europe and thus ensure security and stability The most important instrument that the EU has used to reach this objective has been the prospect of enlargement The European Union and Central and Eastern Europe Susan Senior Nello,Karen Elizabeth Smith,1998 This text sets out to analyse the implications of the process of enlargement in the EU state and examines which criteria is likely to be used in deciding whether countries are ready to join It also looks at the potential consequences of growth **The Nordic Regions and the European Union** Søren Dosenrode,2018-01-18 The

There is a need to analyze historical and economic aspects of phases of relative success of the socialist system of central planning Next to the important role of distribution of personal incomes and wealth for the success of the transformation process the question of optimal change of personal income and wealth distribution during the process of transformation has to be raised In assessing the costs and benefits of reform policies any methodological approach should take into account an intertemporal perspective How much does the EU continue protectionism against countries which will not become its

A Quarter Century of Post-Communism Assessed M. Steven Fish,Graeme Gill,Milenko Petrovic,2017-02-09 This edited volume seeks to understand and explain the pattern of varying national and regional success in post communist political and economic transition across the post communist world Despite widespread hopes for the development of vigorous democratic political systems and vibrant market economies the outcomes of a quarter century of post communist transition in the countries of the former communist bloc in Eurasia have been widely variant Some have matched these hopes including becoming full members of the EU others have fallen far short with political and economic systems little changed from the communist era This collection with an internationally respected list of contributors addresses some of the pressing issues in political science and transition studies ranging from theoretical overviews to the more specific nitty gritty of contemporary politics

The Political Economy of Competitiveness in an Enlarged Europe J. Pellegrin,2016-10-18 Central and Eastern European countries are entering the development race at a crucial juncture in EU enlargement and the wider phenomenon of globalization In the face of hesitant and controversial EU policy these countries need to engage sound development strategies International production networks are expected to be decisive in helping them strengthen their competitiveness and establish knowledge based economies In this book Julie Pellegrin looks at whether and how production networks develop in Central and Eastern European countries and assesses their chances of catching up with the rest of Europe

The EU's Transformative Power H. Grabbe,2005-11-10 Between 1989 and 2004 the EU s conditionality for membership transformed Central and East Europe The EU had enormous potential power over the whole range of domestic politics in the candidate countries However the EU was able to use that power at a few key points in the process leading to their accession The EU s long term influence worked primarily through soft power and through voluntary rather than coercive means During the membership preparations the EU built many different routes of influence into the candidate countries domestic policy making through Europeanization The Central and East Europeans voluntarily took on the Union s norms and methods guided by the European Commission in a massive transfer of policies and institutions However

the EU missed important opportunities to effect change as well The EU's Transformative Power explores in detail how the EU used its influence to control the movement of people across Europe through both coercive use of conditionality and voluntary methods of Europeanization The Road to the European Union Jacques Rupnik, Jan Zielonka, 2003-11-08 Publisher
