**The Anthropology of Morality in Melanesia and Beyond** John Barker,2016-04-01 The Anthropology of Morality in Melanesia and Beyond examines how Melanesians experience and deal with moral dilemmas and challenges Taking Kenelm Burridge s seminal work as their starting point the contributors focus upon public situations and types of people that exemplify key ethical contradictions for members of moral communities While returning to some classical concerns such as the roles of big men and sorcerers the book opens new territory with richly textured ethnographic studies and theoretical reviews that explore the interface between the values associated with indigenous village life and the ethical orientations associated with Christianity the state the marketplace and other facets of modernity A major contribution to the emerging field of the anthropology of morality the volume includes some of the most prominent scholars working in the discipline today including Bruce Knauff Joel Robbins F G Bailey Deborah Gewertz and Frederick Errington      The Governance of Common Property in the Pacific Region Peter Larmour,2013-03-01 With the inevitable lessening of the importance of traditional forms of management of land and water resources in Pacific island countries accompanying the development of the state and the internationalisation of these economies common property problems have arisen in many natural resource areas This publication covers many of the problem areas which have arisen and discusses various approaches to better management Foreword      *Pacific 2010* Paul A. McGavin,1997 Examines the growth of employment in Melanesia Suggests that rural based development is a key factor in accelerating employment growth      **Politics, Development and Security in Oceania** David Hegarty,Darrell Tryon,2013-04-01 French and Australian collaborative research in the humanities and the social sciences in the South Pacific has grown and intensified significantly over the past two decades beginning with the international symposium Changing Identities in the Pacific at the Dawn of the Twenty First Century held at the Australian Embassy in Paris in 1997 In April 2006 another French government sponsored international symposium AGORA Ateliers Gouvernance et Recherche Appliqu e was held at IRD Institut de Recherche pour le D eveloppement Noumea New Caledonia major themes being governance and economic development again bringing together Francophone and Anglophone scholars from France and the Pacific region This was followed in October 2009 by two conjoint Francophone Anglophone conferences held at the IRD Centre in Noumea Stability Security and Development in Oceania preceded by AGORA 2 an international conference on Anglophone research in the humanities and the social sciences in the Francophone Pacific sponsored by the French Government and the Government of New Caledonia The first of these conferences was sponsored by the French Fonds Pacifique and the State Society and Governance Program at The Australian National University An edited selection of presentations from this symposium constitutes the present volume Preface      **Economic Basis of Pacific Security** John E. Starron,Patricia K. Hymson,1982      Sustaining a Resilient Asia Pacific Community Kiran Sagoo,Wilmar Salim,2009-03-26

Coming out of an established international graduate student conference organized by the East West Center this book presents selected papers written by graduate students from different fields of study After identifying historical or contemporary issues in each field these papers propose a framework for resolving these issues whether through global commitment regional cooperation national policy or local knowledge and practice The unifying thread of this book is sustaining resilience in the Asia Pacific We acknowledge this perseverance and try to sustain and disseminate it so that other communities may learn from these practices and experiences Generally a volume like this would address the challenge of this region from a security economics or political perspective This book hopes to add to the literature on resiliency by addressing these issues from a multidisciplinary and multilevel perspective

**Customary Land Tenure and Registration in Australia and Papua New Guinea** James F. Weiner, Katie Glaskin, 2007-06-01 The main theme of this volume is a discussion of the ways in which legal mechanisms such as the Land Groups Incorporation Act 1974 in PNG and the Native Title Act 1993 in Australia do not as they purport serve merely to identify and register already existing customary indigenous landowning groups in these countries Because the legislation is an integral part of the way in which indigenous people are defined and managed in relation to the State it serves to elicit particular responses in landowner organisation and self identification on the part of indigenous people These pieces of legislation actively contour the progressive evolution of landowner social territorial and political organisation at all levels in these nation states The contributors to this volume provide in depth anthropological case studies of social structural and cultural transformations engendered by the confrontation between states developers and indigenous communities over rights to customarily owned land

**Social Change in Melanesia** Paul Sillitoe, 2000-04-13 This book first published in 2000 is a companion volume to An Introduction to the Anthropology of Melanesia 1998 It gives a clear and absorbing account of social change in Melanesia since the arrival of Europeans covering the history of the colonial period and the new postcolonial states Paul Sillitoe deals with economic and technological change labour migration and urbanisation and formation of the modern state but he also describes the sometimes violent reactions to these dramatic transformations in the form of cargo cults secession movements and insurrections against multinational companies He discusses development projects but brings out associated policy dilemmas reviews developments that threaten the environment and implications for local identity such as romanticises primitive culture This fascinating account of social change in the Pacific is addressed to students with little or no background in the region's history and development

**Labour Transformation in Papua New Guinea** Paul A. McGavin, 2001

**The Water, Energy, and Food Security Nexus in Asia and the Pacific** Andrew Dansie, Heidi K. Alleway, Benno Böer, 2024-04-15 This open access book considers the water energy food WEF nexus in the Pacific region The region comprises seventeen sovereign countries and seven territories spread across the Pacific Ocean a blue expanse that covers a fifth of the world's surface area but contains only 0.5% of the population or 44.5 million people The uniqueness of the Pacific and the need for a Pasifika led approach to sustainability

across environmental societal and economical spheres requires this blue continent to be considered in a separate volume under the Water Security in a New World series This Pacific volume is focussed on water energy and food security in Pacific Island Countries and Territories PICTs and the challenges produced by the impacts of anthropogenic climate change and human population pressures The diversity of culture traditional knowledge and ways of life across the Pacific are united by similar geographies and opportunities to apply a Pacific specific WEF nexus approach a coordinated approach to manage water energy and food that is centred on active decision making across the three sectors to increase the security of each Importantly a WEF nexus approach builds on national and international efforts to date in the Pacific which include Integrated Water Resource Management Ridge to Reef Source to Sea UNESCO Biosphere Reserves Integrated Coastal Zone Management and other similar approaches In this book contributions by authors from governments regional bodies multilateral agencies and academia describe water security and its intersectionality with both the energy and food sectors highlighting the significance of both land and marine food systems and connectivity between water and energy in a Pacific focussed context It is demonstrated that these systems cannot be separated from the challenges associated with healthy environments and functioning ecological services transport and waste that are unique to this vast archipelagic region To achieve meaningful change it is essential that solutions are cognizant of the world s colonial past and the global inequalities that persist today The path forward for water and food systems is one that is Pasifika led and builds on traditional knowledge and local capacity National energy demands must consider the future with solutions comprising both WEF integrated approaches and new energy technologies to hasten the transition away from fossil fuels Globally major greenhouse gas emitters both past and present need to step up for the environmental and economic benefit of all by rapidly reducing greenhouse gas emissions and supporting Pasifika leadership on highly ambitious net zero goals This book is a highly recommended source of information and inspiration for policy makers decision makers research communities and practitioners dealing with any aspect of water energy or food security in the Pacific
