Environment and

Ecology in the History of Economic Thought Vitor Eduardo Schincariol, 2024-07-05 This volume proposes a reconsideration of

ecological and environmental aspects of the work and ideas of various heterodox authors and traditions in the history of economic thought including the field of economic development Many of the contributors to this book focus on thinkers and works which are not typically considered as part of the ecological sphere while others consider such economists in a new light or domain Thus the book elucidates a new and useful research field of reconsidering ecological dimensions in the traditional history of economic thought as well as helping to delineate alternative views for ongoing debates on ecological themes Did Veblen Keynes Sraffa C Furtado and other key economists and schools of thought of our age have relevant and useful insights with respect to environmental issues Which aspects of their intellectual legacies should eventually be discarded in the face of our new environmental challenges On the contrary what aspects of their economic theories can be updated and adapted to a better interpretation of our present ecological concerns How do they differ and why The essays contained in this book will help to answer these questions by means of recovering analysing and updating the work of some of the most relevant heterodox economists and schools of thought of our time This book will be of great interest for readers in the history of economic thought ecological economics environmental economics and economic development

**Ecological Economics Research Trends** Carolyn C. Pertsova, 2007 This new book presents important research in the field of ecological economics which is a trans disciplinary field of academic research that addresses the dynamic and spatial interdependence between human economies and natural ecosystems Ecological economics brings together and connects different disciplines within the natural and social sciences but especially between these broad areas Ecological economics presents a more pluralistic approach to the study of environmental problems and policy solutions characterised by systems perspectives adequate physical and biological contexts and a focus on long term environmental sustainability      *European Economic Legal Order After Brexit* Enzo Cardi, 2021-07-29 This book takes an innovative approach to provide a mirror perspective of the legal systems of the UK and the EU in contemporary institutional scenarios At the beginning of the second decade of the 21st century the legal systems of the EU and the UK are facing challenges of epic proportions Never before have the two legal orders been confronted with the simultaneous impact of a series of events First the effect of the divorce between the two regulatory systems caused by the UK's withdrawal from the EU The Negotiating Documents and the Draft Texts being discussed and aimed at leading to a New Partnership are examined in the book Second the book discusses the impact of the coronavirus shock in all European economies leading to a substantial change of political perspective in the EU

legal order implying innovative debt instruments Third it explores the consequences of the judicial activism of the German Constitutional Court undermining the strategic role of the European Central Bank and the primacy of the European Union Court of Justice The book questions the effects deriving from the legacy i e the foundations of the two legal systems on handling the issues of our time the impact on market regulation of the striking contemporary events and the unsettled consequences on policy of the current convulsing political and financial landscape The book will be essential reading for those working in the areas of European public regulatory law

*Transport in a Free Market Economy* David Banister, Kenneth Button, 2016-07-27

Transport policy has dramatically changed over the last ten years with major regulatory reforms and privatisation of transport enterprises. Part 1 presents an authoritative statement of the theoretical arguments for and against regulatory reform, the changing political scene in North America and the different mechanisms that can be used to return state-owned monopolies to the private sector. Part 2 presents the empirical evidence on ten years of airline deregulation in the United States and this review is matched by an assessment of the different situation in Europe where national governments are under pressure to follow the same path.
