Trajectories in Architecture Michael Jasper, 2023-04-21 *Trajectories in Architecture* Plan Sensation Temporality presents a compelling examination of underlying issues in late twentieth century architecture Three formal preoccupations and conceptual orientations are used as guiding threads or trajectories These three trajectories the plan as conceptual device a logic of sensation and temporalities serve to organise individual chapters in the central sections of the book and provide a new lens to the study of period work revealing architectural conditions and consequent spatial effects little explored to date *Trajectories in Architecture* adds to scholarship and expands our understanding of the role of conceptual and formal criteria in the analysis and creation of works of architecture The book provides potentially transformative new interpretations of influential architects and key projects from the last half of the twentieth century to reveal new alignments and potentialities in architecture's recent past as a contribution to identifying future possibilities In so doing the book argues for the still latent potential in modern architecture's traditions and design principles and their future expression *Trajectories in Architecture* includes analysis of significant projects of Le Corbusier Peter Eisenman Zaha Hadid John Hejduk Louis I Kahn and I M Pei

Architecture, Building Materials and Engineering Management He Tao Hou, Li Tian, 2013-08-08 Selected peer reviewed papers from the 2013 International Conference on Civil Architecture and Building Materials 3rd CEABM 2013 May 24-26 2013 Jinan China *Site and Composition* Enis Aldallal, Husam AlWaer, Soumyen Bandyopadhyay, 2016-06-10 *Site and Composition* examines design strategies and tactics in site making It is concerned with the need for a renewed understanding of the site in the twenty first century and the need for a critical position regarding the continued tendency to view the site as an isolated fragment severed from its wider context The book argues revisiting the traditional instruments or means of both siting and composition in Architecture to explore their true potential in achieving connections between site and context Through the various examples studied here it is suggested that such instrumental means have the potential for achieving greater poetic outcomes The book focuses on the works of twentieth century architects of wide ranging persuasion Peter Eisenman Le Corbusier Frank Lloyd Wright Alvaro Siza Herzog and de Meuron and Charles Correa for example who have strived in quite different ways to achieve deeper engagement with the physical qualities of place and context Departing from a reconsideration of the fragment *Site and Composition* emphasises the role of the positive fragment in achieving both historical continuity and renewed wholeness The potential of both planimetric and sectional compositional methods are explored emphasising the importance of reciprocity between inside and outside between fragment and the whole as well as materiality Written in a clear and accessible manner this book makes vital reading for both researchers and students of architecture and urbanism **Re-living the City** Gideon Fink Shapiro, 2020-02-08 This richly illustrated book presents the exhibits and curatorial visions of the 2015 Shenzhen Biennale of Architecture and Urbanism UABB organized around the theme *Re Living the City* It highlights the contributions of dozens of international architects designers and artists and offers

12 probing original essays The projects and essays of UABB 2015 Re Living the City criticize the status quo of architecture and urbanism but they also resist the false dream of designing a perfect city from scratch Instead they portray the city as the incremental product of its inhabitants and designers who provisionally make and remake its fabric through various means at their disposal Urbanization in the world s fastest growing regions today has a dual character officially sanctioned large scale development shadowed by unregulated or informal spaces built by disenfranchised migrants UABB 2015 operates between these poles seeking alternative paradigms to generate a more sustain able equitable and imaginative urbanity The principal exhibitions of UABB 2015 include 1 Radical Urbanism curated by Alfredo Brillembourg and Hubert Klumpner Urban Think Tank based on the proposition that the city today is more radical than the architects and planners operating within it 2 Collage City 3D curated by Aaron Betsky in which artists and architects are asked to create adjacent three dimensional installations to explore the idea of habitable collage as a mode of urban design and 3 PRD 2 0 curated by Doreen Heng Liu focusing on the need for a more balanced approach to urbanism and architecture in the Pearl River Delta region in southeast China Liu also offers an account of the renovation of the Shenzhen exhibition venue the former Dacheng Flour Factory complex In addition the book presents the Social City online platform and exhibition curated by Renny Ramakers the Maker Maker showcase of contemporary craft and a series of national regional and thematic pavilions Curatorial essays are complemented by guest essays from international critics researchers and practitioners

Ensayos fragmentarios Mariano Gómez Luque, 2021-06-01 Una de las cosas más importantes de este libro es que propone una estructura abierta de trabajo un mecanismo de análisis que admite la investigación colectiva o individual la aplicación académica o la pura especulación intelectual En efecto se trata de una serie de ensayos o pequeñas reflexiones que insinúan todo un territorio posible de exploración futura un grupo de páginas en las que se examina un término o un concepto manteniendo siempre la posibilidad de establecer múltiples conexiones entre ellos o de aislar segregar o clasificar los ensayos según la implementación de determinadas lógicas de análisis Lo interesante es que cada ensayo es un híbrido entre un texto externo una cita bibliográfica una imagen alusiva y potente susceptible de disparar otras tantas asociaciones y el propio texto del autor en una amalgama consistente de ideas en torno a un determinado tema o problema Cumple una triple función 1 es un procesador de información 2 es un mecanismo de extroversión y 3 es un dispositivo crítico de análisis Si bien el formato de ensayo o texto breve no permite una mayor profundidad la sumatoria de reflexiones e ideas vertidas son una especie de puntas de lanza en medio de territorios desconocidos una introducción que tiene toda la energía potencial de futuras investigaciones
