challenge adopting a Jungian perspective to explore successive phases of Paz's poetry Williamson illustrates how archetypal images infuse Paz's early poetry and his surrealist period and shows how the circular structure of Paz's longer poems such as *Piedra de sol* and *Blanco* are based on the Eastern sacred circle or mandala a major archetype of psychic wholeness in Jung He argues that a grasp of the psychological importance of Jung's archetypes is essential to understanding the various syntheses of creative truth and existence sought by Paz at different defining moments of his career as a poet The *Writing in the Stars* will prove fascinating to anyone interested in Latin American literature Jungian psychology or critical theory
