Introducción al Corán Richard Bell, 2006-06-20 Este libro esboza el marco histórico, la vida, los objetivos, el carácter y la inspiración de Mahoma. Se explican en ella la recopilación, la autenticidad, la forma y el estilo del Corán y se considera la posibilidad de ordenarlo cronológicamente. La introducción al Corán de Richard Bell revisada por Montgomery Watt es el estudio más amplio y completo en una lengua occidental sobre las Sagradas Escrituras musulmanas. Profesor M. Khadduri, John Hopkins University.

El Corán y los Evangelios Pedro Gómez García, 2023-09-29 Este libro contiene un estudio comparativo entre los textos fundacionales del cristianismo y del islamismo respectivamente: el Nuevo Testamento y el Corán. El propósito estriba en poner al descubierto las semejanzas y las diferencias más emblemáticas. El parentesco genético entre ambos sistemas facilita el planteamiento, pero lo importante es estar atentos no solo a las correlaciones sino a las relaciones de oposición. Una vez explicitada la metodología, al punto de partida se añaden los respectivos axiomas fundamentales: ese núcleo duro de postulados sagrados últimos que instaura e identifica cada sistema. La tarea del análisis va abordando una veintena de temas significativos seleccionados, expuestos y contrastados conforme a la interpretación canónica de cada fuente documental. Estos temas están agrupados en tres bloques: temas con sentido mítico, temas con sentido ritual y temas con sentido práctico. Tras los análisis se formulan las conclusiones de la comparación con un sumario de las diferencias y la tesis de la incompatibilidad entre los dos mensajes. Por último se ofrecen las claves para una interpretación crítica del islamismo.

La lectura sobrenatural de la Biblia John Piper, 2018-09-18 John Piper pretende mostrarnos cómo Dios trabaja a través de su palabra escrita cuando buscamos el acto natural de leer la Biblia de manera que experimentemos su poder. Sight giving, un poder que se extiende más allá de las palabras en la página. John Piper aims to show us how God works through his written word when we pursue the natural act of reading the Bible so that we experience his sight giving power, a power that extends beyond the words on the page.

European Muslims and the Qur'an Gulnaz Sibgatullina, Gerard Wieggers, 2023-12-18 This edited volume aims to advance a Muslim centered perspective on the study of Islam in Europe. To do so it brings together a range of case studies that illustrate how European

Muslims engaged with their Sacred Scripture while being part of a Christian dominated social and political space The research presented in this volume seeks to analyse Muslims practices of translating interpreting and using the Qur'an as a sacred object and thus pursues three main research agendas Part I focuses on the issues of Muslim Christian relations in Europe and studies how these relations have engendered discursive connections between Muslim and Christian produced texts related to the study and interpretation of the Qur'an Part II aims to bring scholarly attention to the under represented cases of Muslim communities in Europe This part introduces new research on Polish Belarusian Daghestani Bosnian and Kazan Tatars and examines local traditions of producing vernacular Qur'ans and commodification of Qur'anic manuscripts The final section of the volume Part III contributes to filling in the gaps related to the theoretical and conceptual framing of Muslim translation activities The history of religious thought and practice in European history is in many ways still uncharted territory This book aims to contribute to a better understanding of the cultural history of the Qur'an and Muslim agency in interpreting transmitting and translating the Sacred Scripture
