Literacy, Education, and Society in New Mexico, 1693-1821 Bernardo P. Gallegos,1992 What place did literacy and education have in the construction and maintenance of a colonial society in New Mexico The answer to that question is carefully developed for the first time in this book Gallegos assembles and interprets church and government documents to examine the relationship between literacy education and the social order in colonial New Mexico This study explores the role of literacy in the process of colonization focusing on how individuals learned to read and write to what ends these skills were employed and the ways that literacy functioned to maintain and challenge the social order Following the military reconquest missions were re established among the pueblos Utilizing a pedagogy common in colonial Mexico the missionaries raised and educated selected young boys from the Indian Pueblos After becoming literate these young men called doctrinarios became invaluable to the friars in the indoctrination of the other natives Moreover the author examines the many ways in which literacy in a

restricted form was used by the civil and religious authorities to establish and maintain social control and by the populace in exercising their political rights and participating in the economic sphere

Spanish American Saints and the Rhetoric of Identity, 1600-1810 Ronald J. Morgan, 2022-08-30 Spanish American civilization developed over several generations as Iberian born settlers and their New World descendants adapted Old World institutions beliefs and literary forms to diverse American social contexts Like their European forebears criollos descendants of Spanish immigrants who called the New World home preserved the memory of persons of extraordinary Roman Catholic piety in a centuries old literary form known as the saint s Life These criollo religious biographies reflect not only traditional Roman Catholic values but also such New World concerns as immigration racial mixing and English piracy Ronald Morgan examines the collective function of the saint s Life from 1600 to the end of the colonial period arguing that this literary form served not only to prove the protagonist s sanctity and move the faithful to veneration but also to reinforce sentiments of group pride and solidarity When criollos praised americano saints he explains they also called attention to their own virtues and achievements Morgan analyzes the printed hagiographies of five New World holy persons Blessed Sebasti n de Aparicio Mexico St Rosa de Lima Peru St Mariana de Jes s Ecuador Catarina de San

Juan Mexico and St Felipe de Jes s Mexico Through close readings of these texts he explores the significance of holy persons as cultural and political symbols By highlighting this convergence of religious and sociopolitical discourse Morgan sheds important light on the growth of Spanish American self consciousness and criollo identity formation By focusing on the biographical process itself Morgan demonstrates the importance of reading each hagiographic text for its idiosyncrasies rather than its conventional features His work offers new insight into the Latin American cult of saints inviting scholars to look beyond the isolated lives of individuals to the cultural and social milieus in which their sanctity originated and their public reputations took shape

El Sistema Educativo Mexicano: Evoluci n, Pol ticas, Problemas Estructurales Y Tendencias Luis Iván Sánchez Rodríguez,2018-12-07 Parte fundamental de las sociedades lo constituyen sus organizaciones La educaci n m s all de ser vista solamente como un proceso es un sistema estructural org nico de la sociedad mexicana en todas sus dimensiones En este sistema las instituciones y los agentes sociales econ micos cient ficos y culturales entre otros tiene puesta su mirada por lo que representa en el devener hist rico presente y futuro del pa s En este sistema se educan los ciudadanos mexicanos se forman los profesionistas que contribuyen al desarrollo econ mico se genera la ciencia y la tecnolog a necesaria para la transformaci n e innovaci n de la vida social y econ mica y se preservan y difunden las manifestaciones culturales que dan identidad a la naci n Como toda organizaci n el sistema educativo mexicano SEM ha transitado por momentos significativos en su devenir Su origen no solamente ha respondido a un hecho hist rico sino a un conjunto de demandas emanadas de los ciudadanos en el marco de un proceso de transformaci n social del pa s su evoluci n se ha visto enmarcada en un conjunto de pol ticas y proyectos que han respondido disfuncionalmente seg n sea la interpretaci n cronol gicamente con los gobiernos nacionales y estatales en turno Es innegable la contribuci n que el SEM a lo largo del tiempo ha hecho a la sociedad mexicana

no obstante sus aportaciones existen un conjunto de problemáticas de orden estructural que son incidentales en los procesos educativos de los diferentes niveles del sistema educativo nacional. Aunadamente a la situación que presenta el SEM emergen un conjunto de tendencias en el escenario internacional que están incidiendo en la reconfiguración de los sistemas educativos nacionales. Esta reconfiguración trae consigo una serie de desafíos a las instituciones escolares y los sujetos interactuantes con las mismas. Si bien todos estos contextos y hechos situacionales hacen énfasis al sistema educativo nacional también constituir el marco referencial para la educación en la entidad tamaulipecana. Los planteamientos formulados en las líneas precedentes dan forma al contenido del curso denominado Sistema Educativo Mexicano del programa de Doctorado en Políticas Educativas del Centro Regional de Formación Docente e Investigación Educativa.

Between the Sacred and the Worldly Nancy van Deusen, 2002-10-01 This groundbreaking work argues that the seminal concept of *recogimiento* functioned as a metaphor for the colonial relationship between Spain and Lima. Ubiquitous and flexible *recogimiento* had three related meanings: two cultural and one institutional that developed over a 200 year period in Renaissance Spain and the viceregal capital Lima. Female and male religious conceptualized *recogimiento* as a mystical praxis that aspired toward union with God and it was also articulated as a fundamental virtue of enclosure and quiescent conduct for women. As an institutional practice *recogimiento* involved substantial numbers of women and girls living in convents, lay pious houses, schools and institutions called *recogimientos* that admitted schoolgirls, prostitutes, women petitioning for divorce and the spiritually devout. In a broader sense practices of *recogimiento* both conformed to and transgressed imagined boundaries of the sacred and the worldly in colonial Lima. *Recogimiento* also reflected the process of transculturation or the adaptation of particular cultural values to local contingencies. Through an analysis of more than 600 ecclesiastical litigation suits and drawing on an impressive array of primary and secondary sources the author shows how *recogimiento* was experienced by a range of individuals from viceroys and archbishops to female food-sellers, shop owners and secluded mystics. She argues that by 1650 women representing different races and classes in Lima claimed *recogimiento* as integral to their public, familial and internal identities. The social and cultural history of Lima between 1550 and 1713 illustrates the complexities of conjugal relations, sexuality and social norms in the viceregal capital demonstrates the inextricable link between sacred and secular realms in colonial society and delineates the process of transculturation between Spain and Lima.
