Edited and with an introduction by Ilan Stavans this is the most comprehensive single volume collection of this prolific poet's work in English. Here the finest translations of nearly six hundred poems by Neruda are collected and joined specially commissioned new translations that attest to Neruda's still resounding presence in American letters. *Recovering Lost Footprints, Volume 1* Arturo Arias, 2017-09-14. Recovering Lost Footprints is the first full length critical study to analyze Latin American Indigenous literary narratives in a systematic manner. In the book Arturo Arias looks at Maya narratives in Guatemala. The study of these works is intended to spark changes so that constitutions recognize these cultures' their rights, their languages, their centers of worship and their cosmologies. Through this study Arias problematizes the partial or full omission of Latin America's original inhabitants from recognized citizenry. This book analyzes these elements of exclusion in the novelistic output of three salient figures Luis de León, Gaspar Pérez de Leon and Viceroy Montejano. The works by these writers offer evidence that most native people have entered modernity without renouncing their respective cultures or the specifics of their singular identities. The philosophical ethics elaborated in the texts such as respect for nature and recognition of the holistic value of natural beings enable non Indigenous readers to both understand and relate to these values.
