Elements of Modern Igbo Grammar Emmanuel Nolue Emenanjo, 1987 *Elements of Modern Igbo Grammar* E. Nolue Emenanjo, 1978 **Elements of Modern Igbo Grammar** E. Nolue Emenanjo, 1978 *The Oxford Handbook of Language Prosody* Carlos Gussenhoven, Aoju Chen, 2021-01-07 This handbook presents detailed accounts of current research in all aspects of language prosody written by leading experts from different disciplines The volume's comprehensive coverage and multidisciplinary approach will make it an invaluable resource for all researchers students and practitioners interested in prosody Creole Studies – Phylogenetic Approaches Peter Bakker, Finn Borchsenius, Carsten Levisen, Eeva M.

Sippola, 2017-05-31 This book launches a new approach to creole studies founded on phylogenetic network analysis Phylogenetic approaches offer new visualisation techniques and insights into the relationships between creoles and non creoles creoles and other contact varieties and between creoles and lexifier languages With evidence from creole languages in Africa Asia the Americas and the Pacific the book provides new perspectives on creole typology cross creole comparisons and creole semantics The book offers an introduction for newcomers to the fields of creole studies and phylogenetic analysis Using these methods to analyse a variety of linguistic features both structural and semantic the book then turns to explore old and new questions and problems in creole studies Original case studies explore the differences and similarities between creoles and propose solutions to the problems of how to classify creoles and how they formed and developed The book provides a fascinating glimpse into the unity and heterogeneity of creoles and the areal influences on their development It also provides metalinguistic discussions of the creole concept from different perspectives Finally the book reflects critically on the findings and methods and sets new agendas for future studies Creole Studies has been written for a broad readership of scholars and students in the fields of contact linguistics biolinguistics sociolinguistics language typology and semantics

Social and Regional Variation in World Englishes Paula Rautioaho, Hanna Parviainen, Mark Kaunisto, Arja Nurmi, 2022-09-30 This collection charts the evolution of grammatical variation in Englishes from Late Middle English to the present using corpus linguistic tools to address divergence and convergence in local and global perspectives The book considers both diachronic and synchronic perspectives in grammatical variation across varieties of English across the UK North America Europe Africa and Asia The volume reflects on the questions of whether patterns of variation diverge or converge and to what extent catalysts for change are shared in time and space Chapters look at different factors in grammatical variation at both the macro and micro level investigating specific linguistic and grammatical features but also at wider phenomena in contact linguistics social patterns social networks and media based corpora Chapters progress from the local to the global all with an eye towards using the latest methodological approaches from corpus linguistics to shed light on the affordances of data informed methods to study grammatical change and the possibilities for future research This book will be of interest to students and scholars in sociolinguistics corpus linguistics and World Englishes **Text, Speech, and**

Dialogue Petr Sojka,Aleš Horák,Ivan Kopeček,Karel Pala,2016-09-02 This book constitutes the refereed proceedings of the 19th International Conference on Text Speech and Dialogue TSD 2016 held in Brno CzechRepublic in September 2016 The 62 papers presented together with 3 abstracts of invited talks were carefully reviewed and selected from 127 submissions They focus on topics such as corpora and language resources speech recognition tagging classification and parsing of text and speech speech and spoken language generation semantic processing of text and speech integrating applications of text and speech processing automatic dialogue systems as well as multimodal techniques and modelling *Basic Linguistic Theory Volume 2* R. M. W. Dixon,2010 R M W Dixon provides a comprehensive guide to the nature of human languages and their description and analysis The books are a one stop text for undergraduate and graduate students the outcome of a lifetime s immersion in every aspect of language The Oxford Handbook of Vowel Harmony Nancy A. Ritter,Harry van der Hulst,2024-09-17 This handbook provides a detailed account of the phenomenon of vowel harmony a pattern according to which all vowels within a word must agree for some phonological property or properties Vowel harmony has been central in the development of phonological theories thanks to its cluster of remarkable properties notably its typically unbounded character and its non locality and because it forms part of the phonology of most world languages The five parts of this volume cover all aspects of vowel harmony from a range of theoretical and methodological perspectives Part I outlines the types of vowel harmony and some unusual cases before Part II explores structural issues such as vowel inventories the interaction of vowel harmony and morphological structure and locality The chapters in Part III provide an overview of the various theoretical accounts of the phenomenon as well as bringing in insights from language acquisition and psycholinguistics while Part IV focuses on the historical life cycle of vowel harmony looking at topics such as phonetic factors and the effect of language contact The final part contains 31 chapters that present data and analysis of vowel harmony across all major language families as well as several isolates constituting the broadest coverage of the phenomenon to date The Structure and Status of Pidgins and Creoles Arthur K. Spears,Donald Winford,1997-10-06 Destined to become a landmark work this book is devoted principally to a reassessment of the content categories boundaries and basic assumptions of pidgin and creole studies It includes revised and elaborated papers from meetings of the Society for Pidgin and Creole Linguistics in addition to commissioned papers from leading scholars in the field As a group the papers undertake this reassessment through a reevaluation of pidgin creole terminology and contact language typology Section One a questioning of process and evolution in pidginization creolization and other language contact phenomena Section Two a reinterpretation of the sources and genesis of grammatical aspects of Saramaccan and Atlantic creoles in general Section Three a reconsideration of the status of languages defying received definitions of pidgins and creoles Section Four and analyses of aspects of grammar that shed light on the issue of what a possible creole grammar is Section Five Rethinking Universals Jan Wohlgemuth,Michael Cysouw,2010-03-26 Universals of language have been studied extensively for the last four decades

allowing fundamental insight into the principles and general properties of human language Only incidentally have researchers looked at the other end of the scale And even when they did they mostly just noted peculiar facts as quirks or unusual behavior without making too much of an effort at explaining them beyond calling them exceptions to various rules or generalizations Rarissima and rara features and properties found only in one or very few languages tell us as much about the capacities and limits of human language s as do universals Explaining the existence of such rare phenomena on the one hand and the fact of their rareness or uniqueness on the other is a reasonable and interesting challenge to any theory of how human language works The present volume for the first time compiles selected papers on the study of rare linguistic features from various fields of linguistics and from a wide range of languages *The Emergence of Distinctive Features* Jeff Mielke,2008-03-13 The Emergence of Distinctive Features will be of essential interest to phonologists and typologists as well as to syntacticians cognitive scientists and scholars outside linguistics interested in the nature of language and its acquisition BOOK JACKET *Basic Linguistic Theory Volume 3* R. M. W. Dixon,2012-05-24 R M W Dixon provides a comprehensive guide to the nature of human languages and their description and analysis The volumes comprise a one stop introduction for undergraduate and graduate students of linguistics Truly a guide for the perplexed Basic Linguistic Theory is destined to be a classic Nick Enfield *The Languages and Linguistics of Africa* Tom Güldemann,2018-09-10 This innovative handbook takes a fresh look at the currently underestimated linguistic diversity of Africa the continent with the largest number of languages in the world It covers the major domains of linguistics offering both a representative picture of Africa s linguistic landscape as well as new and at times unconventional perspectives The focus is not so much on exhaustiveness as on the fruitful relationship between African and general linguistics and the contributions the two domains can make to each other This volume is thus intended for readers with a specific interest in African languages and also for students and scholars within the greater discipline of linguistics **New Directions in Grammaticalization Research** Andrew D.M. Smith,Graeme Trousdale,Richard Wälchli,2015-04-08 The articles in this volume examine a number of critical issues in grammaticalization studies including the relationship between grammaticalization and pragmaticalization subjectification and intersubjectification and grammaticalization and language contact The contributions consider data from a broad range of spoken and signed languages including Greek Japanese Nigerian Pidgin Swedish and Turkish Sign Language The authors work in a variety of theoretical frameworks and draw on a number of research traditions The volume will be of primary interest to historical linguists though the diversity of approaches and sources of data mean that the volume is also likely have considerable general appeal **Theoretical Approaches to African Linguistics** Akinbiyi Akinlabi,1995 The first of a new series devoted to the study of African linguistics this study presents papers on a wide range of disciplines pertinent to the field that will be of interest to students and researchers This first volume includes work on Niger Congo languages such as Yoruba and Igbo and several Bantu languages *Participles* Ksenia Shagal,2019-11-05 The book is the first large scale

typological study of participles based on data from more than 100 languages Its main aim is to model the diversity of non finite verb forms involved in adnominal modification Participles are examined with respect to several morphological and syntactic parameters and are shown to be a versatile cross linguistic category The book is of interest to language typologists and descriptive linguists **Politics and Identity Formation in Southeastern Nigeria** Apollon O. Nwauwa, Ogechi E. Anyanwu, 2019-05-20

Scholarly studies on the Igbo have been scant and fragmented Politics and Identity Formation in Southeastern Nigeria The Igbo in Perspective fills an obvious gap exploring the social cultural economic political and aesthetic traditions that distinguish the Igbo of southeastern Nigeria from their neighbors In scope content and analysis this book is both multi and cross disciplinary focusing on the experiences and forces that have shaped the Igbo society identity formation and sociocultural political and aesthetic representations Themes such as the importance of Igbo names in understanding the people's social linguistic religious gender and cultural identities as well as the intersection of language politics socialization education and aesthetic expression in the Igbo experience in Nigeria are interrogated in a refreshing fashion with an appreciable level of originality The Present Perfective Paradox Across Languages Astrid De Wit, 2017

This book presents an analysis of how speakers of typologically diverse languages report present time situations Astrid De Wit brings together cross linguistic observations from English French the English based creole language Sranan and various Slavic languages and relates them to the same phenomenon the present perfective paradox Complex Processes in New Languages Enoch O. Aboh, Norval Smith, 2009-12-17 In recent years there has been a new interest in evaluating complex structures in languages The implications of such studies are varied e.g the distinction between supposedly more complex and less complex languages how complexity relates to human knowledge of language and the role of the reduction or increase of complexity in language change and creolization This book focuses on the latter issue but the conclusions presented here hold of typological complexity in general The chapters in this book show that the notion of complexity as conceived of in linguistics mainly centres on the outer manifestations of language e.g numbers of affixes This exercise is useful in establishing the patterning of languages in terms of their degrees of analyticity or synthesis but it fails to address the properties of the inner rules of these grammars and how these relate to the computational system that governs the human language capacity Put simply issues of complexity should not be equated with the complexity observed in surface patterns of grammars alone
