Exprebing Oneself In Japanese:

Expressing oneself in Japanese Osamu Mizutani, Nobuko Mizutani, 1980 *Nihongo Notes*, 1977 **Expressing the Self** Minyao Huang, Kasia M. Jaszczolt, 2018-02-24 This book addresses different linguistic and philosophical aspects of referring to the self in a wide range of languages from different language families including Amharic English French Japanese Korean Mandarin Newari Sino Tibetan Polish Tariana Arawak and Thai In the domain of speaking about oneself languages use a myriad of expressions that cut across grammatical and semantic categories as well as a wide variety of constructions Languages of Southeast and East Asia famously employ a great number of terms for first person reference to signal honorification The number and mixed properties of these terms make them debatable candidates for pronounhood with many grammar driven classifications opting to classify them with nouns Some languages make use of egophors or logophors and many exhibit an interaction between expressing the self and expressing evidentiality qua the epistemic status of information held from the ego perspective The volume s focus on expressing the self however is not directly motivated by an interest in the grammar or lexicon but instead stems from philosophical discussions on the special status of thoughts about oneself known as de se thoughts It is this interdisciplinary understanding of expressing the self that underlies this volume comprising philosophy of mind at one end of the spectrum and cross cultural pragmatics of self expression at the other This unprecedented juxtaposition results in a novel method of approaching de se and de se expressions in which research methods from linguistics and philosophy inform each other The importance of this interdisciplinary perspective on expressing the self cannot be overemphasized Crucially the volume also demonstrates that linguistic research on first person reference makes a valuable contribution to research on the self tout court by exploring the ways in which the self is expressed and thereby adding to the insights gained through philosophy psychology and cognitive science **Ideologies of Communication in Japan** Patrick Heinrich, Florian Grosser, Saana Santalahti, 2025-06-19 This book presents case studies of ideologies of communication in Japan which respond to recent epistemological and methodological developments in the field and reflect the subject wide shift from ideologies of language to ideologies of communication Chapters explore a wide range of language contexts from formal language learning settings to video games smartphones and language use in couples and by immigrants The authors use an array of innovative methodological approaches and theoretical perspectives including language portraits soundscapes and social space The book also contains chapters that present positive perspectives on ideologies examining how they can be created and mobilized to inspire specific groups to pursue their interests Together the chapters give a complex and inclusive picture of language in Japan and the current breadth of the field of ideologies of communication Expressing Oneself / Expressing One's Self Ezequiel Morsella, 2009-12-21 Unlike any book before it this volume embodies the state of the art regarding the experimental study of human communication by bringing together cutting edge findings from psycholinguistics communication cognition neuroscience language and identity Whether linguistic or

nonverbal communication poses unique computational challenges that reveal secrets of the mind brain and social cognition unlike anything else This volume is both a stimulating journey for the general language communication reader as well as a great research tool for graduate students advanced undergraduate students and investigators
