*Unfolding Consciousness* Edi Bilimoria,2024-03-11 Exploring the Living Universe and Intelligent Powers in Nature and Humans author Edi Bilimoria heralds the new science of consciousness and offers the readers a roadmap and necessary tools to achieve future growth Presented in three volumes plus volume IV contains references resources further reading they

reveal the unity of the Eastern and Western branches of our perineal wisdom Bilimoria shows how science seeks truth using a synthesis of both traditions Evidence from a wide range of sources scientific medical philosophical religious and cultural is put forward to argue the case that humans are spiritual beings primarily and not merely complicated biological machines Bilimoria teaches that consciousness is not the product of matter but the primary element from which all else emanates This process and its underlying mechanisms are described in detail with much clarity This work has over 2000 references and is supported by copious tables and diagrams plus individual chapter summaries and sidenotes to assist readers in navigating the multidimensional terrain traversed Key areas The scientific and esoteric worldviews compared and contrasted The ultimate promise of science The soft and hard problems of consciousness How external input to the physical senses results in an internal subjective experience Quantum physics its contribution to a new scientific paradigm The Mystery Teachings of All Ages their worldwide unity and central message Wet computers and computers Is the brain no different in principle from a computer Death and after the transition and continuity of consciousness in other realms Paranormal phenomena and apparitions Subtle bodies Evolution and destiny Powers latent in human beings Divinity and the united message of all world religions The question of immortality The primacy of consciousness and the manner of its unfoldment from the unmanifest realms to the physical world Edi Bilimoria s guest appearance on the Shepherd Walwyn podcast series can be found on this link <https://shepherdwalwyn.com/edi-bilimoria-unfolding-consciousness-why-sapolsky-is-wrong-and-how-to-get-in-tune-with-life>

**The New Science of Consciousness Survival and the Metaparadigm Shift to a Conscious Universe** Dr. Alan Ross Hugenot, 2016-06-30 Alan Hugenot lectures on the Leading Edge Science of the Afterlife he concluded that the entire universe is conscious and that this explains both near death experiences and certain paradoxes of quantum theory As someone with a physics degree I know that Hugenot s basic idea of a conscious universe is neither crazy nor new Erwin Schrödinger one of the fathers of quantum physics was an avid student of Hindu philosophy and believed something similar Gideon Lichfield April 2015 Atlantic Monthly The existence of a hidden field Bohm s implicate order of non physical consciousness occupying as yet undiscerned additional dimensions which are outside the visible reality Bohm s explicate order as defined by 3 D plus time has now been proven scientifically by the following collated data Recent repeated replication of John Bell s theory of non locality Studies of the Near Death experience and After death communications demonstrated in triple blind laboratory experiments testing evidential mediumship This hidden field implicate order of non physical consciousness also provides the matrix upon which the explicate order of observed reality is continually manifested Alan Hugenot Our challenge is to discover through careful science how we can interface with this matrix of consciousness Viewing psi phenomena as belonging to aspects of reality about which we as yet simply know very little is the only honest way for any scientist to proceed Healthy scientific skepticism must be open to new discoveries and so allow open examination of the scientific data developed by rigorous para normal research Honest open minded inquiry will bring both new discoveries of truth and new

laws of physics beyond the limits of the Newtonian paradigm Alan Hugenot *The Inner Dimensions of Life* Niels Brønsted, 2024-01-17 The Inner Dimensions of Life is a compressed yet exhaustive educational presentation of the esoteric teachings in three volumes subtitled Esoteric Philosophy Esoteric Psychology and Esoteric Sociology With a background in many years of work as a teacher in his Esoteric School the author has gathered and edited a comprehensive and thoroughly tested curriculum including illustrations and copious source references Thus the work appeals to readers who will be content with a general view as well as those who wish to delve deeper into the subject The first volume Esoteric Philosophy offers an introduction to all the basic concepts of the esoteric teaching beginning with the esoteric Genesis or Creation Account The 7 Planes and further on to the Constitution of Man Death and New Birth Evolution Reincarnation and Karma the Path of Initiation the Path of Discipleship the 7 Rays the Evolution of Consciousness Cosmology the Esoteric World History the Inner World Government the New Evolutionary Impulse and the Deva Kingdom **The Physics of God** Joseph Selbie, 2021-10-01 An impressive and thought provoking work regarding the metaphysical mysteries of life physical reality and human consciousness Highly recommended Spirituality Today Science and religion are often thought to be in conflict But the contemporary fields of relativity quantum physics neuroscience and more are in agreement with the transcendent phenomena described by saints sages and near death experiencers Today s science actually provides profound insight into miracles immortality heaven God and transcendent awareness The Physics of God describes the intersections of science and religion with colorful easy to understand metaphors making abstruse subjects within both science and religion easily accessible to the layman This intriguing book Pulls back the curtain on the light show illusion we call matter Connects string theory to religion s transcendent heavens Reveals the scientific secret of life and immortality Demonstrates the miracle making power of our minds to effect instantaneous physiological changes Included in this revised edition is a new chapter on the physics of meditation and other updates *The Secret Teachers of the Western World* Gary Lachman, 2015-12-08 This epic study unveils the esoteric masters who have covertly impacted the intellectual development of the West from Pythagoras and Zoroaster to the little known modern icons Jean Gebser and Schwaller de Lubicz Running alongside the mainstream of Western intellectual history there is another current which in a very real sense should take pride of place but which for the last few centuries has occupied a shadowy inferior position somewhere underground This other stream forms the subject of Gary Lachman s epic history and analysis The Secret Teachers of the Western World In this clarifying accessible and fascinating study the acclaimed historian explores the Western esoteric tradition a thought movement with ancient roots and modern expressions which in a broad sense regards the cosmos as a living spiritual meaningful being and humankind as having a unique obligation and responsibility in it The historical roots of our counter tradition as Lachman explores have their beginning in Alexandria around the time of Christ It was then that we find the first written accounts of the ancient tradition which had earlier been passed on orally Here in this remarkable city filled with teachers philosophers and mystics

from Egypt Greece Asia and other parts of the world in a multi cultural multi faith and pluralistic society a synthesis took place a creative blending of different ideas and visions which gave the hidden tradition the eclectic character it retains today The history of our esoteric tradition roughly forms three parts Part One After looking back at the earliest roots of the esoteric tradition in ancient Egypt and Greece the historical narrative opens in Alexandria in the first centuries of the Christian era Over the following centuries it traces our other tradition through such agents as the Hermeticists Kabbalists Gnostics Neoplatonists and early Church fathers among many others We examine the reemergence of the lost Hermetic books in the Renaissance and their influence on the emerging modern mind Part Two begins with the fall of Hermeticism in the late Renaissance and the beginning of the esoteric counterculture In 1614 the same year that the Hermetic teachings fell from grace a strange document appeared in Kassel Germany announcing the existence of a mysterious fraternity the Rosicrucians Part two charts the impact of the Rosicrucians and the esoteric currents that followed such as the Romance movement and the European occult revival of the late nineteenth century including Madame Blavatsky and the opening of the western mind to the wisdom of the East and the fin de si cle occultism of the Hermetic Order of the Golden Dawn Part Three chronicles the rise of modern esotericism as seen in the influence of Rudolf Steiner Gurdjieff Annie Besant Krishnamurti Aleister Crowley R A Schwaller de Lubicz and many others Central is the life and work of C G Jung perhaps the most important figure in the development of modern spirituality The book looks at the occult revival of the mystic sixties and our own New Age and how this itself has given birth to a more critical rigorous investigation of the ancient wisdom With many detours and dead ends we now seem to be slowly moving into a watershed It has become clear that the dominant left brain reductionist view once so liberating and exciting has run out of steam and the promise of that much sought after paradigm change seems possible We may be on the brink of a culminating moment of the esoteric intellectual tradition of the West *Acorns: Windows High-Tide Foghat* Joshua Morris,2013-01-23 *Acorns* delineates the future of humanity as a reunification of intellect with the Deep Self Having chosen to focus upon ego established securely by the time of Christ much more beta brain wave development will destroy our species and others which process has already begun We create our own realities through beliefs intents and desires and we were in and out of probabilities constantly Feelings follow beliefs not the other way around **The Worldwide List of Alternative Theories and Critics** Jean de Climont,2020-11-01 This Worldwide List of Alternative Theories and Critics only available in english language includes scientists involved in scientific fields The 2023 issue of this directory includes the scientists found in the Internet The scientists of the directory are only those involved in physics natural philosophy The list includes 9700 names of scientists doctors or diploma engineers for more than 70% Their position is shortly presented together with their proposed alternative theory when applicable There are nearly 3500 authors of such theories all amazingly very different from one another The main categories of theories are presented in an other book of Jean de Climont **THE ALTERNATIVE THEORIES** The Yugas Joseph Selbie,David Steinmetz,2011-08-16 Millions are wondering

what the future holds for mankind and if we are soon due for a world changing global shift Paramhansa Yogananda author of the classic Autobiography of a Yogi and his teacher Sri Yukteswar offered key insights into this subject They presented a fascinating explanation of the rising and falling eras that our planet cycles through every 24 000 years According to their teachings we have recently passed through the low ebb in that cycle and are moving to a higher age an Energy Age that will revolutionize the world Over one hundred years ago Yukteswar predicted that we would live in a time of extraordinary change and that much that we believe to be fixed and true our entire way of looking at the world would be transformed and uplifted In The Yugas authors Joseph Selbie and David Steinmetz present substantial and intriguing evidence from the findings of historians and scientists that demonstrate the truth of Yukteswar s and Yogananda s revelations **The Reality of ESP** Russell Targ, 2012-03-27 The co founder of the 20 year government supported ESP research program at Stanford Research Institute delivers the evidence of psychic abilities that he has collected Original **The Future of the Body** Michael Murphy, 1993-04-21 In the oral and written histories of every culture there are countless records of men and women who have displayed extraordinary physical mental and spiritual capacities In modern times those records have been supplemented by scientific studies of exceptional functioning Are the limits of human growth fixed Are extraordinary abilities latent within everyone Is there evidence that humanity has unrealized capacities for self transcendence Are there specific practices through which ordinary people can develop these abilities Michael Murphy has studied these questions for over thirty years In The Future of the Body he presents evidence for metanormal perception cognition movement vitality and spiritual development from more than 3 000 sources Surveying ancient and modern records in medical science sports anthropology the arts psychical research comparative religious studies and dozens of other disciplines Murphy has created an encyclopedia of exceptional functioning of body mind and spirit He paints a broad and convincing picture of the possibilities of further evolutionary development of human attributes By studying metanormal abilities under a wide range of conditions Murphy suggests that we can identify those activities that typically evoke these capacities and assemble them into a coherent program of transformative practice A few of Murphy s central observations and proposal include The observation that cultural conditioning powerfully shapes or extinguishes metanormal capacities The proposition that we cannot comprehend our potentials for extraordinary life without an empirical approach that involves many fields of inquiry and different kinds of knowing The notion that a widespread realization of extraordinary capacities would constitute an evolutionary transcendence analogous to the rise of humankind from its primal ancestry The proposal that all or most instances of significant human development are produced by a limited number of identifiable activities such as disciplined self observation visualization of desired capacities and caring for others The idea that a balanced development of our various capacities is possible through integrated practices In The Future Of The Body Murphy states that such practices can carry forward Earth s evolutionary adventure and lead humanity to the next step in its development *Consciousness* Ravi K. Ph.D.,2017-11-14 Consciousness The Ultimate Reality explores all aspects of consciousness It is a well written well researched work that I find unique in that it delves deep into the subject while still being easy to understand That combination is difficult to accomplish and Dr Puri has done an excellent job I highly recommend this book its well worth the readers time Elizabeth Davis Newspaper columnist and freelance editor Boonville MO A very insightful perspective on consciousness A marvelous explanation portraying the subtleties of consciousness that is comprehensive and very easy to understand A reading for a soul searching hungry world Cynthia Neff Columbia MO Consciousness is a very complex subject and has always baffled me The book is an eye opener for me I am blown away by the expression of the author Very simple comprehensive well written amazing insight A read that will stay with you a life time A mind stretched can never go back to its original form Captivating Lisa McKinzie President CEO of McKinzie Company Osage Beach MO This thought provoking beautifully written book has deep rich insights on higher truth and its relationship with consciousness It serves as an inspiration for those ready to begin their quest on the path of self knowledge A fascinating and clearly annotated study Not only is Dr Puri a deep thinker but also a deep knower Linda Castillon Director of the Transcendental Meditation Program Maharishi University of Management Fairfield Iowa *Dreamgates* Robert Moss,2010-09-24 A world renowned authority on the history uses and power of dreaming Robert Moss guides neophyte and experienced adventurers alike to open their own dreamgates Through these gates await otherwise inaccessible realms of reality as well as soul remembering the recovering of knowledge that belonged to us before we came into this life experience Exercises meditations and the mesmerizing tales of fellow dream travelers outline Moss s Active Dreaming technique a kind of shamanic soul flight that offers frequent flyers a passport between worlds In this world beyond physical reality Moss points to wellsprings of healing creativity and insight As readers move into these different ways of seeing and knowing they may also communicate with spiritual guides and departed loved ones in ways that transform their everyday lives **Prime Elements of Ordinary Matter, Dark Matter & Dark Energy** Vladimir B. Ginzburg,2007 The book describes a history of the vortex theory Introduced at the dawn of science almost 2600 years ago it had passed through five phases of accumulation of its strength by absorbing the discoveries made during the Greek civilization the Copernicus Revolution the age of electromagnetism the atomic age and the information age During the first four phases see Chapters 1 through 12 of this book the development of the vortex theory followed the same unfortunate pattern Each time this theory managed to bring attention of a new generation of brilliant scientists who were enchanted by a deep physical meaning of its basic concept But although they employed the latest advances in science none of them was able to produce a mathematical tool making the vortex theory practically usable The fifth phase began in 1993 with the discovery of a unique spacetime spiral element called the toryx The toryx is a particular case of a multiple level dynamic spiral with a poetic name helicola that describes the paths of all moving celestial bodies in our universe The ability of the toryx to be turned inside out made it perfect for modeling the polarized prime elements of matter A close offspring of the

toryx called the helix turned out to be ideal for modeling the polarized prime elements of the radiation particles This discovery led to the development of a new version of the vortex theory called Three Dimensional Spiral String Theory 3D SST outlined in Chapters 13 through 16

**The Elder Brother** Gregory Tillett, 2016-01-29 A leading figure in the Theosophical Society Leadbeater was a prolific author writing on subjects ranging from Buddhism Masonic history and the origins of Christianity through to the power of thought and the fourth dimension Leadbeater was also the force behind Annie Besant the discoverer and educator of Krishnamurti and became Presiding Bishop of the Liberal Catholic Church For all his influence Charles Leadbeater remains largely unknown as a man This biography first published in 1982 dispels many of the mysteries surrounding his life and Leadbeater emerges as neither evil degenerate or infallible saint but as a complex and eccentric adventurer into the realm of the occult This title will be of particular interest to students of history and theology

The Spacetime Origin Of the Universe With Visible Dark Matter & Energy Vladimir Ginzburg, 2015-02-10 The Universal Spacetime Theory UST is the main subject of this book It attempts to answer some very interesting questions related to the science and philosophy What is the origin of the Universe How was the Universe created out of nothing What are the structure and properties of ordinary matter that makes up less than 5% of the Universe What are the structure and properties of dark matter that occupies about 27% of the Universe What are the structure and properties of the dark energy that occupies roughly 68% of the Universe Is the communication possible with superluminal velocity

**The Spacetime Origin of the Universe** Vladimir Ginzburg, 2013-08-19 This book describes the basic concept of the Universal Spacetime Theory UST During its development I was stimulated by many scientific ideas proposed since the dawn of science that I described briefly in Chapter 1 In the UST these ideas took on a completely new form thanks to my discovery of a spiral string entity that I named the toryx The toryx turned out to be a perfect candidate for a prime element of nature This however was only the tip of the iceberg Besides yielding the unified laws applicable to both micro and macro worlds the toryx helped me to find the answer to the most puzzling question of science
