Extremes Reflections On Human Behavior:

Extremes: Reflections on Human Behavior A. J. Dunning, 1993-11-18 Fourteen essays that chart humanity from the saintly to the monstrous Extremes convincingly shows through its bizarre tales all documented all true how unnatural human nature can be Translated by Johan Theron A Helen and Kurt Wolff Book *Extremes* Arend Jan Dunning, 1993-01-01 Humanity Ken Bazyn, 2019-01-16 How can one do justice to the heights and depths of the human condition its mind boggling accomplishments its horrid corruptions Christian tradition in its wisdom has acknowledged both extremes We are fallible amphibians composed of matter and spirit yet capable of intense communication with God Bazyn poetically expands on and dissects the conundrums Frustrations dog our every step and cravings overthrow us repeatedly Why are we so prone to duplicity to prejudice What causes us to explode in anger retreat into superficiality see only the short term Why do we mistreat and ridicule others e g the poor minorities women Free will itself can create saints or antiheroes Rich in vocabulary dense in allusions far ranging in insight at times aphoristic in style these poems are the outpourings of anguished authenticity What message is our town bell pealing today Why are there flaws beneath the smoothest of surfaces How is it that we so often follow a zigzag course If revelation comes it may blind us or shine but a dim shadowy half light Bazyn s spontaneous undoctored black and white images clarify and add nuance to each vital topic As Augustine forthrightly acknowledged in Confessions I have become a puzzle to myself **Cannibal Fictions** Jeff Berglund, 2006-08-15 Objects of fear and fascination cannibals have long signified an elemental otherness an existence outside the bounds of normalcy In the American imagination the figure of the cannibal has evolved tellingly over time as Jeff Berglund shows in this study encompassing a strikingly eclectic collection of cultural literary and cinematic texts Cannibal Fictions brings together two discrete periods in U S history the years between the Civil War and World War I the high water mark in America s imperial presence and the post Vietnam era when the nation was beginning to seriously question its own global agenda Berglund shows how P T Barnum in a traveling exhibit featuring so called Fiji cannibals served up an alien other for popular consumption while Edgar Rice Burroughs in his Tarzan of the Apes series tapped into similar anxieties about the eruption of foreign elements into a homogeneous culture Turning to the last decades of the twentieth century Berglund considers how treatments of cannibalism variously perpetuated or subverted racist sexist and homophobic ideologies rooted in earlier times Fannie Flagg s novel Fried Green Tomatoes invokes cannibalism to new effect offering an explicit critique of racial gender and sexual politics an element to a large extent suppressed in the movie adaptation Recurring motifs in contemporary Native American writing suggest how Western expansion has cannibalistically laid the seeds of its own destruction And James Dobson s recent efforts to link the pro life agenda to allegations of cannibalism in China testify still further to the currency and pervasiveness of this powerful trope By highlighting practices that preclude the many from becoming one these representations of cannibalism Berglund argues call into question the comforting national narrative of e pluribus unum

Long Night's Journey into Day Charles G. Roland, 2010-10-30 Sickness starvation brutality and forced labour plagued the existence of tens of thousands of Allied POWs in World War II More than a quarter of these POWs died in captivity Long Night's Journey into Day centres on the lives of Canadian British Indian and Hong Kong POWs captured at Hong Kong in December 1941 and incarcerated in camps in Hong Kong and the Japanese Home Islands Experiences of American POWs in the Philippines and British and Australians POWs in Singapore are interwoven throughout the book Starvation and diseases such as diphtheria beriberi dysentery and tuberculosis afflicted all these unfortunate men affecting their lives not only in the camps during the war but after they returned home Yet despite the dispiriting circumstances of their captivity these men found ways to improve their existence keeping up their morale with such events as musical concerts and entertainments created entirely within the various camps Based largely on hundreds of interviews with former POWs as well as material culled from archives around the world Professor Roland details the extremes the prisoners endured from having to eat fattened maggots in order to live to choosing starvation by trading away their skimpy rations for cigarettes No previous book has shown the essential relationship between almost universal ill health and POW life and death or provides such a complete and unbiased account of POW life in the Far East in the 1940s

Conceptualizing Extreme Beliefs and Behaviors Rik Peels, John Horgan, 2025 This book explores challenging conceptual issues in defining analyzing conceptualizing and operationalizing notions such as extremism radicalization fanaticism and terrorism The focus is theoretical but the work is empirically embedded Rather than adding yet further definitions of phenomena like extremism it seeks to make progress by addressing underlying conceptual issues Specifically it explores four crucial questions about extremism fundamentalism fanaticism conspiracy theorizing and terrorism First how should each of these extreme phenomena be defined in a fruitful manner and what are the desiderata in seeking definitions of each of them Second how should the project of defining and conceptualizing these phenomena be undertaken in terms of necessary and sufficient conditions or family resemblances or INUS conditions and based on datasets or intuitions about particular cases or common understandings in the public debate or yet something else Third what is the role of normativity in defining these extreme phenomena that is the proper place of normative or even pejorative concepts and the normative framework of the researcher Fourth and finally how do the phenomena of extremism fanaticism fundamentalism terrorism and conspiracism relate to one another and to things such as apocalypticism nationalism cults charisma and state terror This second volume in the Extreme

Belief and Behavior Series lays the conceptual groundwork that the other volumes in the series will build on Provided by publisher *The Extreme Gone Mainstream* Cynthia Miller-Idriss,2019-12-03 This book comes at a time that could hardly be more important Miller Idriss opens up a completely new approach to understanding the processes of violent radicalization through subcultural products and will surely become a standard work in the study of right wing extremism Daniel Koehler founder and director of the German Institute on Radicalization and De Radicalization Studies dies **On Loss and Losing** Melvyn L. Fein,2017-09-08 All people suffer instances of personal loss that cause distress All too often their discomfort is treated as a medical issue requiring treatment usually through medication Melvyn L Fein argues for a broader understanding of loss and losing that offers another approach which he characterizes as resocialization Indeed how a person thinks feels and acts may all need to be reorganized if personal distress is to be overcome Fein urges that we distinguish between the loss of something we once possessed and losing something that never came to fruition Thus it is possible never to achieve vital social roles social statuses and or personal bonds despite our individual efforts While some of these losses are not necessarily problematic others are extremely painful Unfortunately rather than investigate the source of this discomfort distraught individuals frequently seek refuge in simplistic solutions As a consequence one of the reasons the medical model remains dominant is that the alternative is imperfectly understood Fein presents a compelling case for a sociological interpretation of personal distress Although he acknowledges that some personal suffering derives from biological sources and that mental illnesses can spill over to cause social dysfunctions he argues that it is important to recognize the social causes of human suffering In thereby recognizing the limitations of the human condition most of us can do better than blindly accept an inherited dedication to the medical model On Loss and Losing offers a legitimate option without denying the reality of human suffering **Longitude and Empire** Brian W. Richardson,2010-10-01 Before Captain Cook's three voyages to Europeans the globe was uncertain and dangerous after it was comprehensible and ordered Written as a conceptual field guide to the voyages Longitude and Empire offers a significant rereading of both the expeditions and modern political philosophy More than any other work printed accounts of the voyages marked the shift from early modern to modern ways of looking at the world The globe was no longer divided between Europeans and savages but populated instead by an almost overwhelming variety of national identities Cook's voyages took the fragmented and obscure global descriptions available at the time and consolidated them into a single comprehensive textual vision Locations became fixed on the map and the people animals plants and artifacts associated with them were identified collected understood and assimilated into a world order This fascinating account offers a new understanding of Captain Cook's voyages and how they affected the European world view **Head, Eyes, Flesh, and Blood** Reiko Ohnuma,2007 Head Eyes Flesh and Blood is the first comprehensive study of a central narrative theme in premodern South Asian Buddhist literature the Buddha's bodily self sacrifice during his previous lives as a bodhisattva Conducting close readings of stories from Sanskrit Pali Chinese and Tibetan literature written between

the third century BCE and the late medieval period Reiko Ohnuma argues that this theme has had a major impact on the development of Buddhist philosophy and culture Whether he takes the form of king prince ascetic elephant hare serpent or god the bodhisattva repeatedly gives his body or parts of his flesh to others He leaps into fires drowns himself in the ocean rips out his tusks gouges out his eyes and lets mosquitoes drink from his blood always out of selflessness and compassion and to achieve the highest state of Buddhahood Ohnuma places these stories into a discrete subgenre of South Asian Buddhist literature and approaches them like case studies analyzing their plots characterizations and rhetoric She then relates the theme of the Buddha's bodily self sacrifice to major conceptual discourses in the history of Buddhism and South Asian religions such as the categories of the gift the body both ordinary and extraordinary kingship sacrifice ritual offering and death Head Eyes Flesh and Blood reveals a very sophisticated and influential perception of the body in South Asian Buddhist literature and highlights the way in which these stories have provided an important cultural resource for Buddhists

Combined with her rich and careful translations of classic texts Ohnuma introduces a whole new understanding of a vital concept in Buddhists studies Russian/Soviet Military Psychiatry 1904-1945 Paul Wanke,2005-07-08 Psychiatry like most professional fields in Russia gained its legitimacy from its ability to serve the Tsar and later the Bolshevik party The militarised nature of these governments meant that psychiatry would have to prove its worth to the military This study will cover Russian Soviet military psychiatry from its first practical experience during the Russo Japanese war to its greatest test during the Great Patriotic War 1941-45 Throughout this study the continuity between Russian and Soviet military psychiatry will be emphasised For example psychiatry's materialist school dominated throughout this period and that Russia's acceptance that psychiatric casualties will occur allowed them to focus their resources on treatment rather than prevention

Mind Control 101 - How to Influence the Thoughts and Actions of Others Without Them Knowing Or Caring J. K. Ellis,Dantalion Jones,2011-09-12 Why would someone write a book on Mind Control Because as much as we try to elevate ourselves above being human animals we are in fact animals We are subject to the wants and desires of any being with a genome and vertebrae To rise above that is an admirable and a task we should take on as a worthy spiritual endeavor But to deny that we are truly animals is to lie to ourselves We must deal with people who may not be so enlightened advanced as we are They may desire what we have and be secretly filled with envy and contempt The worst event is to have these suspicions fulfilled and then be pulled down into the politics of man Do we deny that it s happening and hope others will be touched by our honesty and good will enough to change Or do we drop our highest spiritual ideals and play their game I would like to suggest a radically different strategy Take the game of

manipulation and Mind Control and make it a part of your spirituality Cosmic energies and mankind: graphs for reflection
Николай Конюхов, 2018-09-13 This book is about the facts of fundamental dependency between the mankind development and cosmic energies both electromagnetic and non electromagnetic ones The facts are systematized in graphs Their interpretation and conclusions are a prerogative of the readers It s not a simple one For those who are used to think independently
