The Lutheran Witness ,1924 *Under the Eye of Power* Colin Dickey,2023-07-11 From beloved cultural historian and acclaimed author of Ghostland comes a history of America s obsession with secret societies and the conspiracies of hidden power The United States was born in paranoia From the American Revolution thought by some to be a conspiracy organized by the French to the Salem witch trials to the Satanic Panic the Illuminati and QAnon one of the most enduring narratives that defines the United States is simply this secret groups are conspiring to pervert the will of the people and the rule of law We d like to assume these panics exist only at the fringes of society or are unique features of the internet age But history tells us in fact that they are woven into the fabric of American democracy Cultural historian Colin Dickey has built a career studying how our most irrational beliefs reach the mainstream why and what they tell us about ourselves In *Under the Eye of Power* Dickey charts the history of America through its paranoias and fears of secret societies while seeking to explain why so many people including some of the most powerful people in the country continue to subscribe to these conspiracy theories Paradoxically he finds belief in the fantastical and conspiratorial can be more soothing than what we fear the most the chaos and randomness of history the rising and falling of fortunes in America and the messiness of democracy Only in seeing the cycle of this history Dickey says can we break it Excavating the Historical Memory of the American Revolution Shawn Thomson,2025-07-10 In this book Shawn Thomson excavates Charles Anthon s personal notes to reveal revolutionary memory and the presence of historical melancholy in this era of radical turnover and shifting alliances In these notes Charles Anthon recorded his personal inquiries into all aspects of life in the Loyalist stronghold of Staten Island from October 13 1850 to January 8 1853 Through this written record Anthon provides a counter history of the Loyalists of Staten Island to the grand narrative of the Patriots of the American Revolution Through a close reading of Anthon s notes Shawn Thomson examines how these personal records and historical research hold the places ruins artifacts and most significantly the collective and personal memory of Staten Island Loyalists and New Jersey Whigs Through this close reading Thomson

The Lutheran Companion ,1918 *Lutheran Companion* ,1918 *Eye on Israel* Michelle Mart,2006-02-09 Examines the image of Israel in American culture before 1960 [One in the Eye for Harold](#) Phil Mason,2011-09-29 The problem with history is that much of what you learn in school simply isn't true For instance King Harold was NOT shot in the eye with an arrow at the Battle of Hastings Neanderthals were not as dumb as you'd think Britain had an Indian curry restaurant years before it had fish and chip shops and the American Wild West really wasn't that wild In many ways the history we casually accept as truth is full of mistakes One in the Eye for Harold is a riotous romp through the centuries with revelations about the untruth of large swathes of history It shows us how fictions have coloured our views of religion politics war and society and shows us how some of our most solidly held beliefs are entirely false In One in the Eye for Harold Phil Mason author of Napoleon's Haemorrhoids catalogues how myth and error have shaped our view of the past and how the history our teachers handed down is often far from the mark It is full of remarkable insights that entertain gloriously as they challenge the conventional view of history *Encyclopedia of Crime and Punishment* David Levinson,2002 Authoritative and comprehensive this multivolume set includes hundreds of articles in the field of criminal justice Impressive arrays of authors have contributed to this resource addressing such diverse topics as racial profiling money laundering torture prisoner literature the KGB and Sing Sing Written in an accessible manner and attractively presented the background discussions definitions and explanations of important issues and future trends are absorbing Interesting sidebars and facts reference lists relevant court cases tables and black and white photographs supplement the entries Appendixes cover careers in criminal justice Web resources and professional organizations A lengthy bibliography lists relevant works The Best of the Best Reference Sources American Libraries May 2003 [Journalism's Roving Eye](#) John Maxwell Hamilton,2011-08-15 In all of journalism nowhere are the stakes higher than in foreign news gathering For media owners it is the most difficult type of reporting to finance for editors the hardest to oversee Correspondents roaming large swaths of the planet must acquire expertise that home based reporters take for granted facility with the local language for instance or an understanding of local cultures Adding further to the challenges they must put news of the world in context for an audience with little experience

and often limited interest in foreign affairs a task made all the more daunting because of the consequence to national security In *Journalism's Roving Eye* John Maxwell Hamilton a historian and former foreign correspondent provides a sweeping and definitive history of American foreign news reporting from its inception to the present day and chronicles the economic and technological advances that have influenced overseas coverage as well as the cavalcade of colorful personalities who shaped readers' perceptions of the world across two centuries From the colonial era when newspaper printers hustled down to wharfs to collect mail and periodicals from incoming ships to the ongoing multimedia press coverage of the Iraq War Hamilton explores journalism's constant and not always successful efforts at dishing the foreign news as James Gordon Bennett put it in the mid nineteenth century to describe his approach in the *New York Herald* He details the highly partisan coverage of the French Revolution the early emergence of special correspondents and the challenges of organizing their efforts the profound impact of the non yellow press in the run up to the Spanish American War the increasingly sophisticated machinery of propaganda and censorship that surfaced during World War I and the golden age of foreign correspondence during the interwar period when outlets for foreign news swelled and a large number of experienced independent journalists circled the globe From the Nazis' intimidation of reporters to the ways in which American popular opinion shaped coverage of Communist revolution and the Vietnam War Hamilton covers every aspect of delivering foreign news to American doorsteps Along the way Hamilton singles out a fascinating cast of characters among them Victor Lawson the overlooked proprietor of the *Chicago Daily News* who pioneered the concept of a foreign news service geared to American interests Henry Morton Stanley one of the first reporters to generate news on his own with his 1871 expedition to East Africa to find Livingstone and Jack Belden a forgotten brooding figure who exemplified the best in combat reporting Hamilton details the experiences of correspondents editors owners publishers and network executives as well as the political leaders who made the news and the technicians who invented ways to transmit it Their stories bring the narrative to life in arresting detail and make this an indispensable book for anyone wanting to understand the evolution of foreign news gathering Amid the steep drop in the number of correspondents stationed abroad and the recent decline of the newspaper industry many fear that foreign reporting will soon no longer exist But as Hamilton shows in this magisterial work traditional correspondence survives alongside a new type of reporting *Journalism's Roving Eye* offers a keen understanding of the vicissitudes in foreign news an understanding imperative to better seeing what lies ahead
