**Women on Nature** Katharine Norbury, 2021-05-13 What would happen I wondered if I simply missed out the fifty per cent of the population whose voices have been credited with shaping this particular cultural form If I coppiced the woodland so to speak and allowed the light to shine down to the forest floor and illuminate countless saplings now that a gap has opened in the canopy There has in recent years been an explosion of writing about place landscape and the natural world But within this blossoming of interest women s voices have remained very much in the minority For the very first time this landmark anthology collects together the work of women over the centuries and up to the present day who have written about the natural world in Britain Ireland and the outlying islands of our archipelago Alongside the traditional forms of the travelogue the walking guide books on birds plants and wildlife *Women on Nature* embraces alternative modes of seeing and recording that turn the genre on its head Katharine Norbury has sifted through the pages of women s fiction poetry household planners gardening diaries and recipe books to show the multitude of ways in which they have observed the natural world about them from the fourteenth century writing of the anchorite Julian of Norwich to the seventeenth century travel journal of Celia Fiennes from the keen observations of Emily Bront to a host of brilliant contemporary voices *Women on Nature* presents a groundbreaking vision of the natural world which in addition to being a rich and scintillating anthology that shines a light on many unjustly overlooked writers is of unique importance in terms of women s history and the history of writing about nature      Flashlights on Nature Grant Allen, 1899      **My Spirituality of Nature** Morreece Elaine Cook, 2022-02-16 My life has grown in wholeness with the writing of this book God shows me more every day about how to connect with my spirituality of nature This concept reveals how my spirit my core connects with all of nature earth animals vegetation microorganisms water wind and fire My literary contribution looks at Who is nature Who am I and How are we connected For a very long time I believed that there were few connections if any Through a lifetime of living with God my spirit has been inspired to look more closely at his creations and what makes them connected What is my responsibility if any in all of this Over the course of my lifetime my explorations led to what I name my spirituality of nature It is my spirit my core my believing which leads me to see God as I never have Not only is one human being related to another each of us is related to and responsible for all that God creates I know beyond all unknowing that God created me to be both unique and to be responsible for his creations I am part of all that is and all that is me I invite you to take this phenomenal journey with me My hope is that we will join together in seeking out God s creations      *The Eclectic Magazine of Foreign Literature, Science, and Art* , 1866      **Essays on Nature and Landscape** Susan Fenimore Cooper, 2010-01-25 Susan Fenimore Cooper 1813

1894 though often overshadowed by her celebrity father James Fenimore Cooper has recently become recognized as both a pioneer of American nature writing and an early advocate for ecological sustainability Editors Rochelle Johnson and Daniel Patterson have assembled here a collection of ten pieces by Cooper that represent her most accomplished nature writing and the fullest articulation of her environmental principles With one exception these essays have not been available in print since their original appearance in Cooper s lifetime A portrait of her thoughts on nature and how we should live and think in relation to it this collection both contextualizes Cooper s magnum opus *Rural Hours* 1850 and demonstrates how she perceived her work as a nature writer Frequently her essays are models of how to catch and keep the interest of a reader when writing about plants animals and our relationship to the physical environment By lamenting the decline of bird populations original forests and overall biodiversity she champions preservation and invokes a collective environmental conscience that would not begin to awaken until the end of her life and century The selections include independent essays miscellaneous introductions and prefaces and the first three installments from Cooper s work of literary ornithology *Otsego Leaves* arguably her most mature and fully realized contribution to American environmental writing In addition to a foreword by John Elder one of the nation s leading environmental educators an introduction analyzes each essay in various cultural contexts Brief but handy textual notes supplement the essays Perfect for nature writing aficionados environmental historians and environmental activists this collection will radically expand Cooper s importance to the history of American environmental thought
