Freie Universität Berlin Germany This highly informative and engaging volume on the Chinese criminal justice system today provides a window into the vagaries of law and its operation in the People's Republic McConville and Pils bring together an impressive array of scholars whose studies span the criminal process From initial police investigation through to prosecution and sentencing of defendants we see how dominant values in the Chinese state and its structures of power make the practice of criminal justice today still intensely political Susan Trevaskes Griffith University Australia *Comparative Perspectives on Criminal Justice in China* is an anthology of chapters on the contemporary criminal justice system in mainland China bringing together the work of recognised scholars from China and around the world The book addresses issues at various stages of the criminal justice process investigation and prosecution of crime and criminal trial as well as problems pertaining to criminal defence and to parallel systems of punishment All of the contributions discuss the criminal justice system in the context of China's legal reforms Several of the contributions urge the conclusion that the criminal process and related processes remain marred by overwhelming powers of the police and Party State and a chapter discussing China's 2012 revision of its Criminal Procedure Law argues that the revision is unlikely to bring significant improvement This diverse comparative study will appeal to academics in Chinese law society and politics members of the human rights NGO and diplomatic communities as well as legal professionals interested in China *Humanity and Labour in China* Adelaide Mary Anderson, 1928

Eyewitnesses to Massacre Kaiyuan Zhang, 2001 Many in the West still think of World War II as starting either after Germany's attack on Poland in 1939 or the Japanese attack on Pearl Harbor in 1941 two years and four years respectively after long simmering tensions between the Chinese and the Japanese exploded into total war To date the infamous Nanjing Massacre of late 1938 in which the Japanese Imperial Army slaughtered and raped countless citizens of Nanjing has been described from various Chinese Japanese and German perspectives This book of firsthand testimony mined from the archives of the Yale Divinity School library by Dr Zhang and his colleagues may be the most powerful of all for here are eyewitness accounts by a remarkable group of nine men and one woman dedicated compassionate articulate and devout American missionaries who were there on ground zero refusing to leave and doing everything in their power to save the Chinese victims of this appalling atrocity China's Muslim Hui Community Michael Dillon, 2013-12-16 This is a reconstruction of the history of the Muslim community in China known today as the Hui or often as the Chinese Muslims as distinct from the Turkic Muslims such as the Uyghurs It traces their history from the earliest period of Islam in China up to the present day but with particular emphasis on the effects of the Mongol conquest on the transfer of central Asians to China the establishment of stable immigrant communities in the Ming dynasty and the devastating insurrections against the Qing state during the nineteenth century Sufi and other Islamic orders such as the Ikhwanî have played a key role in establishing the identity of the Hui especially in north western China and these are examined in detail as is the growth of religious education and organisation and the use of the Arabic and Persian languages The relationship between the Chinese Communist Party

and the Hui as an officially designated nationality and the social and religious life of Hui people in contemporary China are also discussed

Seeing History: Public History in China LI Na, 2023-11-06 When public history was imported from the United States to China around the turn of the twenty first century it was introduced as a sub field within history and has developed along that path ever since Professional historians in China even some forward looking ones see public history as merely presenting a change in the patterns of participation in history making This book offers a sharply different view It contends essentially that public history represents more than a research domain within history or within any existing discipline nor does it fit into any established narratives but rather a fundamental change of the entire process of history making in China In this process the public is prosuming history Public history makes obsolete the old structure for building and acquiring historical knowledge it challenges the old assumptions supersedes the rigid academic hierarchy and stirs the imaginations of the multitudes With an assemblage of case studies this work makes a case for a system view of public history making or public history ing and launches a concept complex public history i e public history ing as complex adaptive systems

The Impact of China's Belt and Road Initiative Jeremy Garlick, 2019-11-15 This book merges macro and micro level analysis of the Belt and Road Initiative BRI to dissect China s aim in creating an integrated Eurasian continent through this single mega project BRI has been the source of much interest and confusion as established frameworks of analysis seek to understand China s intentions behind the policy China s international activity in the early 21st

century has not yet been successfully theorised by IR scholars because of a failure to satisfactorily encompass its complexity. In addition, the mix and match syncretism of the Chinese approach to foreign policy has been under emphasised or omitted in many analyses. Bringing together complexity thinking and analytic eclecticism to assess the degree to which this scheme can transform international relations, Garlick critically examines this large scale interconnectivity project and its potential impacts. The book will be of interest to scholars and practitioners in the field of international relations and China studies including academics, policy makers and diplomats around the world.
