Eyewitnesses James Goulty, 2022-11-04 Goulty tells the story from the perspective of the ordinary sailor or officer who was there *The Northern Mariner* Although many books have been written about naval actions during the Second World War histories and memoirs in particular few books have attempted to encompass the extraordinary variety of the experience of the war at sea That is why James Goulty's vivid survey is of such value Sailors in the Royal Navy and the Merchant Navy experienced a war fought on a massive scale on every ocean of the world in a diverse range of vessels from battleships aircraft carriers and submarines to merchant ships and fishing boats Their recollections are as varied as the ships they served in and they take the reader through the entire maritime war as it was perceived at the time by those who had direct personal knowledge of it Throughout the book the emphasis is on the experience of individuals their recruitment and training their expectations and the reality they encountered on active service in many different offensive and defensive roles including convoy duty and coastal defence amphibious operations hunting U boats and surface raiders mine sweeping and manning landing and rescue craft A particularly graphic section describes in the words of the sailors themselves what action against the enemy felt like and the impact of casualties seamen who were wounded or killed on board or were lost when their ships sank A fascinating inside view of the maritime warfare emerges which may be less heroic than the image created by some post war accounts but it gives readers today a much more realistic impression of the whole gamut of wartime life at sea

weapons thus placing these generally forgotten American adventurers into the context of their times A special set of maps based upon German Army battle maps was drawn and rare photographs supplement the text

Selling Antislavery Teresa A. Goddu, 2020-03-13 Beginning with its establishment in the early 1830s the American Anti Slavery Society AASS recognized the need to reach and consolidate a diverse and increasingly segmented audience To do so it produced a wide array of print material and visual media almanacs and slave narratives pincushions and gift books broadsides and panoramas Building on the distinctive practices of British antislavery and evangelical reform movements the AASS utilized innovative business strategies to market its productions and developed a centralized distribution system to circulate them widely In *Selling Antislavery* Teresa A Goddu shows how the AASS operated at the forefront of a new culture industry and by framing its media as cultural commodities made antislavery sentiments an integral part of an emerging middle class identity She contends that although the AASS s dominance waned after 1840 as the organization splintered it nevertheless created one of the first national mass markets Goddu maps this extensive media culture focusing in particular on the material produced by AASS in the decade of the 1830s She considers how the dissemination of its texts objects and tactics was facilitated by the quasi corporate and centralized character of the organization during this period and demonstrates how its institutional presence remained important to the progress of the larger movement Exploring antislavery s vast archive and explicating its messages she emphasizes both the discursive and material aspects of antislavery s appeal providing a richly textured history of the movement through its artifacts and the modes of circulation it put into place Featuring more than seventy five illustrations *Selling Antislavery* offers a thorough case study of the role of reform movements in the rise of mass media and argues for abolition s central importance to the shaping of antebellum middle class culture
