bound up with claims about the nature and direction of historical change the interpretation of the national past and the scholarship of earlier historians Among the major figures examined in detail are T S Eliot F R Leavis William Empson and Raymond Williams while there are also original discussions of such figures as Basil Willey L C Knights Q D Leavis and Richard Hoggart The Nostalgic Imagination argues that in the period between Eliot's The Sacred Wood and Williams's The Long Revolution the writings of such critics came to occupy the cultural space left by academic history's retreat into specialized archive bound monographs Their work challenged the assumptions of the Whig interpretation of English history and entailed a revision of the traditional relations between literary history and general history Combining close textual analysis with wide ranging intellectual history this volume both revises the standard story of the history of literary criticism and illuminates a central feature of the cultural history of twentieth century Britain **The New Criticism** Alfred J.

*William Empson, Volume I* John Haffenden, 2005-04-28 William Empson was the foremost English literary critic of the twentieth century He was a man of huge energy and curiosity and a genuine eccentric who remained imperturbable in the face of all the extraordinary circumstances in which he found himself The discovery of contraceptives in his possession by a bedmaker at Cambridge University led to his being robbed of a promised Fellowship Yet Seven Types of Ambiguity drafted while he was still an undergraduate promptly brought him world wide fame Empson invented modern literary criticism in English He acted too as a cultural fifth columnist challenging received doctrine in life and literature It is a very good thing for a poet to be saying something which is considered very shocking at the time he maintained To become morally independent of one's formative society is the grandest theme of all literature because it is the only means of moral progress His public life took him through many of the major political events of the modern world the rise of imperialism in Japan the Sino Japanese war in China wartime propaganda for the BBC and the Chinese civil war and Communist takeover of Peking in 1949 His friends and critical sparring partners included I A Richards Kathleen Raine J B S Haldane Humphrey Jennings George Orwell Robert Lowell Dylan Thomas Stephen Spender Helen Gardner and T S Eliot It is of great importance now that writers should try to keep a certain world mindedness he insisted Without the literatures you cannot have a sense of history and history is like the balancing pole of the tightrope walker and nowadays we very much need the longer balancing pole of not national but world history His passionate world mindedness and his humanism combativeness and wit are fully in evidence in this the first of two volumes exploring his remarkable life and work

**The Art of Discovery** Margareth Hagen, Randi Koppen, Margery Vibe Skagen, 2010-08-30 This anthology brings together scholars from literature the natural sciences and the philosophy of science to present new perspectives on the relations between literary and scientific communities Drawing on literature spanning the 19th and 20th centuries as well as Europe and the Americas the authors explore how science has been portrayed from the perspective of literature at different times and in different places as challenge or opportunity promise or scandal The disturbance of science emanates perhaps from its association with a frightening future or its ability to change

the appearance of the past the scandal occurs as it recalls us to thresholds and hybrids human and non human animal and machine Science however also emerges as a source of metaphor and imaginative modelling of encodings and decodings representations and discoveries Less prominent in the collection though no less important is the view on how scientific cultures portray literature or the literary academic and how science reflects on itself **Experiencing Ways Through Words** Emily Abdeni-Holman,2025-09-29 We tend to think of ourselves using language What if we thought instead about language working on us or about language as something we experience rather than make use of This book explores the generative capacities of language suggesting that we need to pay much greater attention to the meaning making capabilities and political and moral implications of more intangible aspects of language atmosphere mood texture the mode of being a use of language carries and not only carries but gives off sends into both its reader and writer Advancing an interpretation of language as fundamentally attitudinal and creative *Experiencing Ways Through Words* explores literature in the light of such thinking claiming that properties we tend to sideline as aesthetic are profoundly constitutive of a text s capacity for significance

**The Institution of English Literature** Barbara Schaff,Johannes Schlegel,Carola Surkamp,2016-11-07 The contributions investigate the ways in which numerous institutions of English literature shape the literary field While they cover an extensive historical field ranging from the Early Modern period to the 18th century to the contemporary they focus not only on literary texts but also on extra literary ones including literary prizes literary histories and anthologies and highlight the various ways in which these negotiate the processes that constitute the literary field All contributions assert that there is no such thing as literature outside of institutions Great emphasis is therefore put on different acts of mediation
