

A close-up photograph of two faces. On the left is a person with dark skin and dark eyes, looking slightly to the left. On the right is a person with light skin and blue eyes, looking slightly to the right. The two faces are positioned very close together, with their noses and foreheads nearly touching. The lighting is soft, highlighting the textures of their skin and the intensity of their gazes.

Wolff, 2012-12-06 *Indigenous People, Race Relations and Australian Sport* Christopher J. Hallinan, Barry Judd, 2016-05-06 The Indigenous peoples of Australia have a proud history of participation and the achievement of excellence in Australian sports Historically Australian sports have provided a rare and important social context in which Indigenous Australians could engage with and participate in non Indigenous society Today Indigenous Australian people in sports continue to provide important points of reference around which national public dialogue about racial and cultural relations in Australia takes place Yet much media coverage surrounding these issues and almost all academic interest concerning Indigenous people and Australian sports is constructed from non Indigenous perspectives With a few notable exceptions the racial and cultural implications of Australian sports as viewed from an Indigenous Australian Studies perspective remains understudied The media coverage and academic discussion of Indigenous people and Australian sports is largely constructed within the context of Anglo Australian nationalist discourse and becomes most emphasised when reporting on aspects of racial and cultural explanations of Indigenous sporting excellence and failures associated anomalous behaviour This book investigates the many ways that Indigenous Australians have engaged with Australian sports and the racial and cultural readings that have been associated with these engagements Questions concerning the importance that sports play in constructions of Australian indigeneities and the extent to which these have been maintained as marginal to Australian national identity are the central critical themes of this book This book was published as a special issue of Sport in Society Community Forum on Race Relations in Grand Rapids United States Commission on Civil Rights. Feminism and Community Penny A. Weiss, Marilyn Friedman, 1995

Author note Penny A Weiss Associate Professor of Political Science at Purdue University is the author of Gendered

Community Rousseau Sex and Politics Marilyn Friedman Associate Professor of Philosophy at Washington University is the author of *What Are Friends For Feminist Perspectives on Personal Relationships and Moral Theory* **Handbook of Dynamics in Parent-Child Relations** Leon Kuczynski, 2003 This handbook provides an interdisciplinary perspective on theory research and methodology on dynamic processes in parent child relations It focuses on cognitive behavioural and relational processes that govern immediate parent child interactions and long term relationships *Signs and Cities* Madhu Dubey, 2007-11-01 Signs and Cities is the first book to consider what it means to speak of a postmodern moment in African American literature Dubey argues that for African American studies postmodernity best names a period beginning in the early 1970s marked by acute disenchantment with the promises of urban modernity and of print literacy Dubey shows how black novelists from the last three decades have reconsidered the modern urban legacy and thus articulated a distinctly African American strain of postmodernism She argues that novelists such as Octavia Butler Samuel Delany Toni Morrison Gloria Naylor Ishmael Reed Sapphire and John Edgar Wideman probe the disillusionment of urban modernity through repeated recourse to tropes of the book and scenes of reading and writing Ultimately she demonstrates that these writers view the book with profound ambivalence construing it as an urban medium that cannot recapture the face to face communities assumed by oral and folk forms of expression Industrial Conflict in Britain S.W. Creigh, Eric Wyn Evans, 2005-08-09 First Published in 1977 This volume is an attempt to bring together in convenient form some of the most important studies of work stoppages in post war Britain For reason of convenience the selections have been grouped under three headings namely British Experience the Causes of Strikes and International Comparisons The moral seems to be that the collection should be treated as a whole in order to obtain a general view of the subject Social Capital in Europe: Similarity of Countries and Diversity of People? Heiner Meulemann, 2008-01-31 Social capital is not only useful for the person who owns it but it may also foster the integration of a society and the stability of a democracy Friendly relations social trust and norms of reciprocity ease the living together in a society and encourage people to take part in democratic decision making This volume examines the differences in levels causes and consequences of social capital between 22 European countries surveyed in the 2002 European Social Survey At first glance social capital differs strongly between countries Yet the determinants of social capital differ strongly between European people as well If one takes account of the latter the former may no longer appear so large The volume asks whether this is indeed the case so that a similarity of countries goes along with a diversity of people To examine this multi level analyses are used in each contribution **Apostasy** Avishai Margalit, 2012 English summary Why betrayal It seems today that the idea of betrayal has lost its grip After all infidelity as a breach of sexual monogamy is relegated nowadays in liberal countries to the private sphere of personal relations Apostasy is rendered in liberal societies not as an act of betrayal but rather a basic human right Avishai Margalit's concern with apostasy is not a concern with theology namely with God but with philosophical anthropology namely with human beings He believes

that the main challenge to anyone who believes in the project of ethics and in the importance and viability of the notion of betrayal is to disentangle the notion of betrayal from its feudal underpinnings In his concept of a decent society Margalit succeeds in incorporating into any political pragmatism an indispensable ethical and moral dimension which is constitutionally and consistently orientated to the basic principle of human dignity German description Warum Verrat Heute scheint die Vorstellung von Verrat kein Thema mehr zu sein So bleibt heutzutage in liberalen Staaten etwa Untreue als Verletzung sexueller Monogamie auf die Privatsphäre persönlicher Beziehungen beschränkt Apostasie ist in liberalen Gesellschaften von einem Akt des Verrats zu einem Grundrecht geworden Avishai Margalits Interesse an Apostasie ist kein theologisches sondern ein philosophisch anthropologisches es zielt nicht auf Gott sondern auf Menschen Seiner Meinung nach ist die größte Herausforderung für jeden der an das Projekt der Ethik und an die Wichtigkeit und Brauchbarkeit des Begriffs des Verrats glaubt den Begriff des Verrats von seiner feudalen Untermauerung zu befreien Mit dem Entwurf einer anständigen Gesellschaft gelingt es Margalit jedem politischen Pragmatismus eine unverzichtbare ethisch moralische Dimension einzuzichnen die sich grundlegend und konsequent am Leitbild menschlicher Würde orientiert

Feminism/Postmodernism Linda Nicholson, 2013-04-15 Feminism Postmodernism asks the question is a postmodern feminist politics possible This anthology draws on prominent contemporary theorists to attempt a response The contributors examine the meaning of postmodernism both as a position of method and a diagnosis of the times They consider issues such as the nature of personal and social identity today the relevance of location in constituting theory the political implications of recent aesthetic trends and the consequence of changing work and family relations on women's lives **New Geographies of Race and Racism** Caroline Bressey, 2016-04-29 In recent years geographers interested in ethnicity race and racism have extended their focus from examining geographies of segregation and racism to exploring cultural politics social practice and everyday geographies of identity and experience This edited collection illustrates this new work and includes research on youth and new ethnicities the contested politics of race and racism intersections of ethnicity religion and race and the theorisation and interrogation of whiteness Case studies from the UK and Ireland focus on the intersections of race and nation and the specificities of place in discourses of racialisation and identity A key feature of the book is its engagement with a range of methodological approaches to examining the significance of race including ethnography visual methodologies and historical analysis Emotions in Finance Jocelyn Pixley, 2004-11-23 Publisher Description **The Social Order of the Slum** Gerald D. Suttles, 1968 While he did the research for this book Gerald Suttles lived for almost three years in the high delinquency area around Hull House on Chicago's New West Side He came to know it intimately and was welcomed by its residents who are Italian Mexican Puerto Rican and Negro Suttles contends that the residents of a slum neighborhood have a set of standards for behavior that take precedence over the more widely held moral standards of straight society These standards arise out of the specific experience of each locality are peculiar to it and largely determine how the neighborhood

people act One of the tasks of urban sociology according to Suttles is to explore why and how slum communities provide their inhabitants with these local norms The Social Order of the Slum is the record of such an exploration and it defines theoretical principles and concepts that will aid in subsequent research *Creative Industries and Innovation in Europe* Luciana Lazzeretti, 2012-08-21 In recent years the study of creativity has shifted from analysis of culture as an end in itself to one of economic enhancement and its capability to generate wealth and promote economic development Increasingly European cities and regions are using the arts to fuel wellbeing and reinvigorate economies after the comparative demise of more traditional industry and manufacturing A growing literature is starting to highlight the innovation capacity of cultural and creative industries CCIs as they intersect the innovation processes of other manufacturing and services sectors with an innovative and creative output Culture and creativity may be a strategic weapon to exit the present crisis and redefine an economic model of sustainable development This book brings together a set of multidisciplinary contributions to investigate the kaleidoscope of European creativity focussing on CCIs and the innovations connected with them The two main questions that this volume aims to address are How can we identify map and define CCIs in Europe And how do they contribute to innovation and sustainable growth The volume is split into two parts The first part deals with the definition measurement and mapping of the geography of European CCIs according to a local economic approach focussing on Italy Spain the UK Austria Denmark and France This section surveys the different industrial typologies and spatial patterns which underline a significant dissimilarity between the North and the South of Europe mainly due to the difference between heritage driven and technology driven countries The section concludes with a case study on a Japanese creative city The second part collects some interesting cases of innovation generated in creative spaces such as cities of art or creative clusters and networks This entails the study of innovations among creative and non creative sectors e g laser technologies in conservation of works of art and design networks in Italy and across European and non European countries e g Spaghetti Western movies in the US or visual artists in New Zealand Finally an innovation capacity of culture that can regenerate mature sectors e g the French food supply chain and Swiss watch Valley or combine the creative and green economics paradigms e g the green creative cities in North Europe is analyzed This book will appeal to academics scholars and practitioners of urban and regional studies cultural and creative economics and managerial and organization studies Mutual Hierarchy Jeffrey A.

Dukeman, 2019-02-22 Social Trinitarians have not been shy about positing community as the chief ontological category for Trinitarian discourse As beneficial as this is social Trinitarians have typically been less helpful in advocating the sort of human community for the Trinitarian analogy that most people would probably find desirable To use the example of a marriage one has often been forced to choose between a fully egalitarian view where the spouses supposedly have no differences from each other and a hierarchical view where a husband exercises a unilateral and oppressive power over his wife This book advocates a third alternative for the sort of community present in the Trinity Just as genuine teamwork is

generally desirable in various human communities the divine persons have a mutual hierarchy relationship with each other Here each divine person has a unique hierarchy over the others and yet each uses this hierarchy to serve the others in a dignified way Recognizing this mutual hierarchy of the divine persons fosters a view of the Trinity that is maximally social in keeping with the name social Trinitarianism In proceeding thus the book attempts to in a unique way show the harmony between systematic theology exegesis and practice
