Face Aux Verroux:

Henri Michaux Nina Parish, 2007 Henri Michaux is both a recognised poet and visual artist arguably one of the greatest double artists of the twentieth century This book presents the first detailed examination of a particular interdisciplinary aspect of his production namely the innovative experimentation with signs contained in four works *Mouvements* *Par la voie des rythmes* *Saisir* and *Par des traits* Questions arise concerning their literary and visual status as in their attempt to render interior rhythm and dynamism they occupy an interstitial space between writing and drawing between the book and the canvas between the Western alphabet and Chinese characters This study addresses these questions by analysing the conception production and reception of Michaux's signs and the literary and artistic contexts in which they were produced

Visible Writings Marija Dalbello, Mary Lewis Shaw, 2011 This vastly learned superbly illustrated collection has not a dull text within it I was enlightened and fascinated by every essay on every topic *Visible Writings* is a book to treasure Mary Ann Caws Distinguished Professor of English French and Comparative Literature The Graduate Center CUNY , Redefining Resistance Esther Rowlands, 2021-10-18 The study of resistance developed here by Dr Esther Rowlands consists of a fresh interrogation of the notion of resistance discourse Here for the first time this detailed study of selected wartime texts produced by Francis Ponge Benjamin Perret Henri Michaux and Antonin Artaud compiled between 1936 and 1946 presents a specific critique of resistance which investigates the possibility for opposition and subversion to take place without direct allusion to the object of resistance This investigation questions the criteria according to which literature is perceived as being resistant and suggests that historical and political referentiality may be deemed retaliative and reactionary thereby risking replication of the dominant order The relationship between language and power structures is elucidated through allusion to modern theorists Michel de Certeau Michel Foucault Ross Chambers and Françoise Proust The necessary framework for a study of the poetic voice draws upon aspects of the post structuralist work of Jacques Derrida and Gilles Deleuze incorporating specific theories expounded by the Surrealist leader André Breton The works of the above theorists are foundational to this new critique of poetic discourse which when applied by Dr Esther Rowlands to the wartime works of the four named writers suggests that language itself may be recognised as a locus of resistance This book is designed to be of interest both to undergraduates and to researchers studying Surrealism Second World War Time Literature and Critical Theory *Romantic Irony in French Literature from Diderot to Beckett* Lloyd Bishop, 1989 E.T.: the Extra Terrestrial: The Ultimate Visual History Caseen Gaines, 2022-08-30 Documenting the complete history of E.T. the book explores Spielberg's initial inspiration for the story the challenging shoot and the record breaking success as well as the film's endurance examining the merchandising it inspired and the reasons E.T. holds a permanent place in the hearts of movie fans the world over E.T. the Extra Terrestrial *The Ultimate Visual History* features exclusive interviews with key members of the creative team including cast and crew Filled with visual treasures the book also includes rare and never before seen imagery from the
