Einstein Peace Now Visions And Ideas:

Einstein - Peace Now! Reiner Braun, David Krieger, 2005 The editors of this volume solicit many different essays on the subject of peace and Einstein citizen of the world whose scientific accomplishments were valued by his efforts at social and political change The essays include topics such as nonproliferation opinions the role of science and technology in a changing world the role of civil society in disarmament issues and thoughts on conflict resolution *Bertrand Russell and Albert Einstein - Builders of Peace* Claudio Giulio Anta, Bertrand Russell and Albert Einstein had very different cultural backgrounds and personalities At the same time they were united in their tenacious battle for peace it began with the Great War and culminated in their famous 1955 Manifesto Through various kinds of pacifism they sought to encapsulate the dilemmas and problems that derived from the changed political conditions of his time the beginning of the Great War the creation and failure of the League of Nations the affirmation of totalitarian regimes the outbreak of the Second World War the origin of the atomic age and the escalation of the Cold War the establishment of the UN with its political and institutional weakness and the need for a world government in the form of a world federation Their reflections on the subject of peace led them into dialogue with some of the greatest figures of their time R Rolland Th Woodrow Wilson V I Lenin F D Roosevelt J F Kennedy N Khrushchev F Castro S Freud L Szil rd and E Reves *Einstein* Steven Gimbel, 2015-04-28 The commonly held view of Albert Einstein is of an eccentric genius for whom the pursuit of science was everything But in actuality the brilliant innovator whose Theory of Relativity forever reshaped our understanding of time was a man of his times always politically engaged and driven by strong moral principles An avowed pacifist Einstein's mistrust of authority and outspoken social and scientific views earned him death threats from Nazi sympathizers in the years preceding World War II To him science provided not only a means for understanding the behavior of the universe but a foundation for considering the deeper questions of life and a way for the worldwide Jewish community to gain confidence and pride in itself Steven Gimbel's biography presents Einstein in the context of the world he lived in offering a fascinating portrait of a remarkable individual who remained actively engaged in international affairs throughout his life This revealing work not only explains Einstein's theories in understandable terms it demonstrates how they directly emerged from the realities of his times and helped create the world we live in today *Einstein's Pacifism and World War I* Virginia Iris Holmes, 2017-06-22 To understand how Albert Einstein's pacifist and internationalist thought matured from a youthful inclination to pragmatic initiatives and savvy insights Holmes gives readers access to Einstein in his own words Through his private writings she shows how Einstein's thoughts and feelings in response to the war evolved from horrified disbelief to ironic alienation from both the war's violence and patriotic support for it by the German people to a kind of bleak endurance Meanwhile his outward responses progressed from supporting initiatives of other pacifists to developing his own philosophy of a postwar order to being the impetus behind initiatives In the beginning of the postwar period Einstein's writing reflected an optimism about Germany's new Weimar

Republic and trust in the laudatory effects of military defeat and economic hardship on the German people He clearly supported the principles in US President Woodrow Wilson's Fourteen Points speech Yet Einstein's enthusiasm diminished as he became disappointed in the early Weimar Republic's leaders and as his aversion to the culture of violence developing in Germany grew He also felt offended at the betrayal of Wilson's principles in the Treaty of Versailles Drawing upon personal correspondence and public proclamations Holmes offers an intimate and nuanced exploration of the pacifist thought of one of our greatest intellectuals **Joseph Rotblat** Reiner Braun, Robert Hinde, David Krieger, Harold Kroto, Sally Milne, 2007-06-27

Sir Joseph Rotblat 1908 2005 British physicist and one of the most prominent critics of the nuclear arms race received the Nobel Peace Prize in 1995 in conjunction with the Pugwash Conferences on Science and World Affairs an organization of scientists which he headed at the time for their efforts towards nuclear disarmament Joseph Rotblat Visionary for Peace is dedicated to the life of this unique scientist and humanist It contains contributions by Nobel Laureates eminent scholars and prominent politicians who each from their own perspective shed light on the life and work of this distinguished scientist An introduction by the editors is followed by five central articles on Rotblat's biography the impact of his work on science and peace and the Pugwash organization The third part of the book consists of over 30 commentaries written by the likes of Martin Rees Mikhail Gorbachev Jack Steinberger Mohamed ElBaradei Paul J Crutzen and Mairead Corrigan Maguire

Peace Museums Peter van den Dungen, 2024-12-31 This book is the first comprehensive study of the history nature and purposes of peace museums comprising twenty one essays by a leading authority in the field It presents a powerful argument for the need for this new kind of museum that informs and inspires visitors that a world of peace and nonviolence is both necessary and possible Whereas there are numerous museums about war and the armed forces museums about peacemaking and peacemakers are rare indeed the very concept of peace museums is still largely unknown This is a reflection of the traditional writing and teaching of history which is dominated by narratives of war and warriors with little or

no attention being paid to the history of efforts to prevent and abolish war Peace museums are ideal instruments to bring the long fascinating and vitally important history of peace to life for a large public Among the essays included are histories of two forgotten and unknown yet heroic efforts to prevent World War I and then World War II through museums that educated and alerted visitors about the disasters ahead if war was not avoided and ways to steer a different course following the catastrophe that was the Great War At a time when a barbaric war in Europe continuing wars in Africa and ominous threats of war in Asia are raising the specter of nuclear war and World War III the need for anti nuclear bomb and anti war museums is greater than ever Such museums are essential for the development of a global culture of peace and nonviolence The book provides inspiration and hope for everyone interested in efforts to overcome an existential threat to civilization that is wholly man made
