Eisenstein At Work:

Eisenstein at Work Jay Leyda, Zina Voynow, 1982 Beschrijving van het werk van de Russische filmregisseur Sergej Michajlovi Ejzen tejn 1898 1948 *Movie Censorship and American Culture* Francis G. Couvares, 2006 From the earliest days of public outrage over indecent nickelodeon shows Americans have worried about the power of the movies The eleven essays in this book examine nearly a century of struggle over cinematic representations of sex crime violence religion race and ethnicity revealing that the effort to regulate the screen has reflected deep social and cultural schisms In addition to the editor contributors include Daniel Czitrom Marybeth Hamilton Garth Jowett Charles Lyons Richard Maltby Charles Musser Alison M Parker Charlene Regester Ruth Vasey and Stephen Vaughn Together they make it clear that censoring the movies is more than just a reflex against indecency however defined Whether censorship protects the vulnerable or suppresses the creative it is part of a broader culture war that breaks out recurrently as Americans try to come to terms with the market the state and the plural society in which they live **The Occult in Russian and Soviet Culture** Bernice Glatzer Rosenthal, 1997 A comprehensive account of the influence of occult beliefs and doctrines on intellectual and cultural life in twentieth century Russia Handbook of Russian Literature Victor Terras, 1985-01-01 Profiles the careers of Russian authors scholars and critics and discusses the history of the Russian treatment of literary genres such as drama fiction and essays Robert De Niro at Work Adam Ganz, Steven Price, 2020-11-09 Robert De Niro at Work is the first critical study to examine how Robert de Niro perhaps the finest screen actor of his generation works with screenplays to imagine prepare and denote his performance In categorising the various ways in which De Niro works with a screenplay this book will re examine the relationship between actor and text This book considers the screenplay as above all a working document and a material object present at every stage of the filmmaking process The working screenplay goes through various iterations in development and exists in many versions on set each adapted and personalised for the specific use of the individual and their role As the archive reveals nobody works more closely with the script than the actor and no actor works more on a script than De Niro **Bazin at Work** Andre Bazin, 2014-04-04 Bazin s impact on film art as theorist and critic is considered to be greater than that of any single director actor or producer He is credited with almost single handedly establishing the study of film as an accepted intellectual pursuit as well as with being the spiritual father of the French New Wave Bazin at Work is the first English collection of disparate Bazin writings since the appearance of the second volume of What Is Cinema in 1971 It includes work from Cahiers le cinema which he founded and which is the most influential single critical periodical in the history of the cinema and Esprit He addresses filmmakers including Rossellini Eisenstein Pagnol and Capra and well known films including La Strada Citizen Kane Scarface and The Bridge on the River Kwai **Weston and Charlot** Lew Andrews, 2011-12-01 Edward Weston 1886 1958 was one of the most celebrated photographers of the twentieth century Jean Charlot 1898 1979 a classically trained French artist best known for his murals woodcuts and paintings celebrating Mexican

culture played a key role as a participant and chronicler of the Mexican Renaissance This book based on letters that Weston and Charlot exchanged from the early 1920s until Weston s death in 1958 documents a friendship that says as much about art about photography and fresco practice criticism and history as it does about the intersection of a number of fascinating characters the ups and downs of the correspondents daily lives the pursuit of their dreams and aspirations and the support and encouragement they gave each other Lew Andrews crafts a multivalent narrative that reconfigures our understanding of Weston Charlot and their era shedding new light on specific events and artwork While giving us rare insight into the everyday life of these artists this work also supplies an important chapter in the history of twentieth century art and photography seen close up and from the inside

Applied Grammatology Gregory L. Ulmer,2019-12-01 Originally published in 1984 In *Applied Grammatology* Gregory Ulmer provides an extraordinary introduction to the third applied phase of grammatology the science of writing outlined by Jacques Derrida in *Of Grammatology* Ulmer looks to the later experimental works of Derrida beginning with *Glas* and continuing through *Truth in Painting* and *The Post Card* In these he discovers a critical methodology radically different from the deconstruction for which Derrida is known At the same time he finds the source of a new pedagogy for all the humanities one based on grammatology and appropriate to the era of audiovisual communications in which we live Detractors of Derrida often accuse him of superficial wordplay and of using images and puns as nonfunctional subversions of academic conventions Ulmer argues that there is in fact a fully developed use of homonyms in Derrida s style which produces its own distinctive knowledge and insight Derrida s experiments with images moreover his expansion of descriptions of everyday objects such as umbrellas matchboxes and post cards into cognitive models serve to reveal a simplicity underlying intellectual discourse which could be used to eliminate the gap separating the general public from specialists in cultural studies Comparing the stylistic innovations of Derrida with Jacques Lacan s use of puns and diagrams with the German performance artist Joseph Beuys s demonstration of models and with the montage writing of the films of Sergei Eisenstein Ulmer explores the possibility of deriving a postmodernist pedagogy from Derrida s texts The first study to suggest the full potential of the program available in Derrida s writings *Applied Grammatology* is also the first outline of a Derridean alternative to deconstructionism With its shift away from Derrida s philosophical studies to his experimental texts Ulmer s book aims to inaugurate a new movement in the American adaptation of contemporary French theory

The Battleship Potemkin Richard Taylor,2001-01-12 The KINO Russian Cinema series has been expanding to provide students and general readers with readable companion handbooks to important and interesting films of Russian cinema from its beginnings to the late 1990s This volume investigates the production context and reception of the film *Battleship Potemkin* the people who made it and the film itself including its place in Russian and World cinema

The Oxford History of World Cinema Geoffrey Nowell-Smith,1996 Featuring nearly three thousand film stills production shots and other illustrations an authoritative history of the cinema traces the development of the medium its

filmmakers and stars and the evolution of national cinemas around the world **Composing for the Red Screen** Kevin Bartig, 2013-04-04 Sound film captivated Sergey Prokofiev during the final two decades of his life he considered composing for nearly two dozen pictures eventually undertaking eight of them all Soviet productions Hollywood luminaries such as Gloria Swanson tempted him with commissions and arguably more people heard his film music than his efforts in all other genres combined Films for which Prokofiev composed in particular those of Sergey Eisenstein are now classics of world cinema Drawing on newly available sources *Composing for the Red Screen* examines for the first time the full extent of this prodigious cinematic career Author Kevin Bartig examines how Prokofiev's film music derived from a self imposed challenge to compose serious music for a broad audience The picture that emerges is of a composer seeking an individual film music voice shunning Hollywood models and objecting to his Soviet colleagues ideologically expedient film songs Looking at Prokofiev's film music as a whole with well known blockbusters like *Alexander Nevsky* considered alongside more obscure or aborted projects reveals that there were multiple solutions to the challenge each with varying degrees of success Prokofiev carefully balanced his own populist agenda the perceived aesthetic demands of the films themselves and later on Soviet bureaucratic demands for accessibility *Samuel Beckett and Cinema* Anthony Paraskeva, 2017-02-23 In 1936 Samuel Beckett wrote a letter to the Soviet film director Sergei Eisenstein expressing a desire to work in the lost tradition of silent film The production of Beckett's *Film* in 1964 on the cusp of his work as a director for stage and screen coincides with a widespread revival of silent film in the period of cinema's modernist second wave Drawing on recently published letters archival material and production notebooks *Samuel Beckett and Cinema* is the first book to examine comprehensively the full extent of Beckett's engagement with cinema and its influence on his work for stage and screen The book situates Beckett within the context of first and second wave modernist filmmaking including the work of figures such as Vertov Keaton Lang Epstein Flaherty Dreyer Godard Bresson Resnais Duras Rogosin and Hitchcock By examining the parallels between Beckett's methods as a writer director and particular techniques such as the embodied presence of the camera the use of asynchronous sound and the cross pollination of theatricality and cinema as well as the connections between his collaborators and the nouvelle vague the book reveals how Beckett's aesthetic is fundamentally altered by his work for the screen and his formative encounters with modernist film culture **The Director's Prism** Dassia N. Posner, 2016-08-15 Finalist 2017 Theatre Library Association George Freedley Memorial Award Shortlist 2019 Prague Quadrennial Best Scenography and Design Publication Award *The Director's Prism* investigates how and why three of Russia's most innovative directors Vsevolod Meyerhold Alexander Tairov and Sergei Eisenstein used the fantastical tales of German Romantic writer E T A Hoffmann to reinvent the rules of theatrical practice Because the rise of the director and the Russian cult of Hoffmann closely coincided Posner argues many characteristics we associate with avant garde theater subjective perspective breaking through the fourth wall activating the spectator as a co creator become uniquely legible in the context of this engagement

Posner examines the artistic poetics of Meyerhold's grotesque, Tairov's mime drama and Eisenstein's theatrical attraction through production analyses based on extensive archival research that challenge the notion of theater as a mirror to life instead viewing the director as a prism through whom life is refracted. A resource for scholars and practitioners alike, this groundbreaking study provides a fresh provocative perspective on experimental theater, intercultural borrowings and the nature of the creative process.

Film as Philosophy Bernd Herzogenrath, 2017-03-21 Film and philosophy have much in common and books have been written on film and philosophy. But can films be or do philosophy? Can they think? Film as Philosophy is the first book to explore this fascinating question historically, thematically and methodically. Bringing together leading scholars from universities across the globe, Film as Philosophy presents major new research that leads film studies and philosophy into a productive dialogue. It provides a uniquely sweeping historical overview of the confluence of film and philosophy for more than a century, considering films from Jean Renoir, Lars von Trier, Jrgen Leth, David Lynch, Michael Haneke and others, the written works of filmmakers who also theorized on the medium including Sergei Eisenstein and Jean Epstein and others who have written on cinema including Hugo Münsterberg, Béla Balázs, André Bazin, Henri Bergson, Gilles Deleuze, Stanley Cavell, Alain Badiou, Jacques Rancière and many more. Representing a major step toward establishing a media philosophy that puts the status, role and function of film into a new perspective, Film as Philosophy removes representational techniques from the center of inquiry, replacing these with the medium's ability to think. Hence it accords film with agency and the dialogue between it and philosophy and even neuroscience is negotiated anew.

History and Film Eleftheria Thanouli, 2018-10-18 History and Film: A Tale of Two Disciplines addresses the representation of history in cinema, a much argued debate on the need to understand cinematic history in its own terms and develop a certain vocabulary for discussing historical films, their relation to public history and their impact on public historical consciousness. Eleftheria Thanouli does this by changing the agenda altogether, combining a macro level perspective with a micro level one in order to argue that cinematic history is the dominant form of historiography in the 20th century as it succeeded in remediating and repurposing the key formal, rhetorical and ideological practices of 19th century professional historiography. With case studies ranging from *The Thin Red Line* and *Life is Beautiful* to *The Fog of War* and *The Last Bolshevik*, Thanouli bridges the gap between history and film studies and lays the foundations for a new visual historiography.

Pierrot in Petrograd Douglas Clayton, 1994-01-10 Douglas Clayton examines the tradition of commedia dell'arte as the Russian modernists inherited it from its origins in Italian street theatre through its various transformations in

Italy Gozzi and Goldini's plays in France the development of Pierrot and the restructuring of the plot and in Germany Tieck's and Hoffmann's metatheatre He also analyses crucial texts by Gozzi Lothar Benavente and Schnitzler that came to play a central role in the Russian theatre Tracing the history of commedia dell'arte on the Russian stage he demonstrates that the introduction of the tradition was theory driven and discusses several milestone productions in the pre and post revolutionary period Clayton examines the impact of commedia dell'arte russified as the new theatrical genre of balagan on both popular and lesser known Russian playwrights and in conclusion explores the significance of the commedia dell'arte as a theoretical underpinning for Sergei Eisenstein's theories of theatre and film

The Hand at Work Susanne Strätling, 2021-12-14 Art New Vision This formula shaped the avant garde With moving images abruptly expanding the boundaries of the visible world new printing techniques triggering a pictorial turn in graphic art and literature becoming almost inseparable from visual media we still regard the avant garde as heyday for modernism's obsession with the eye But what are the blind spots of this optocentrism Focusing on the gestures of giving touching showing and handcrafting this study examines key scenes of tactile interaction between subject and artifact Hand movements manual maneuvers and manipulations challenge optics and expose the crises of a visually dominated perspective on the arts The readings of this book call for a revision of an optically obscured aesthetics and poetics to include haptic experience as an often overlooked but pivotal part of the making as well as the perception of literature and the arts
