First Encyclopaedia of Islam E. J. Brill,1993 Emerging Subjectivity in the Long 19th-Century Middle East

Stephan Guth,2024-06-04 This volume revisits the long 19th century in the Middle East from the perspective of emerging subjectivity as a fundamentally new attitude of the individual vis vis the World Stephan Guth s holistic vision interprets emerging subjectivity as the key operator at the heart of the many aspects of the so called Arab ic Renaissance and corresponding movements in Turkish like rationalism critical analysis political emancipation reformism moralism and emotionalism but also a new language new genres and new concepts Guth s thoroughly philological approach demonstrates how a close reading of literary texts from the period a cultural psychological interpretation of linguistic phenomena and an etymology informed look into conceptual terminology can contribute to a deeper understanding of what modernisation actually meant deep inside the human beings mind and psyche in their meeting with a rapidly changing world Twenty essays on language literature and key concepts reflect the author s life long engagement with the culture of the period in question The articles are glued together by a guiding narrative that assigns each treated aspect its place in the author s vision which includes a global perspective [The Muslim Reception of European Orientalism](#) Susannah Heschel,Umar Ryad,2018-12-07

Edward Said s Orientalism now more than fifty years old has to be one of the most frequently cited books among academics in a wide range of disciplines and the most frequently assigned book to undergraduates at colleges Among the common questions raised in response to Said s book Did scholars in Western Europe provide crucial support to the imperialist colonialist activities of European regimes Are their writings on Islam laden with denigrating eroticized distorting biases that have left an indelible impact on Western society What is the Orientalism invented by Europe and what is its impact today However one question has been less raised or less has been done about the question How were the Orientalist writings of European scholars of Islam received among their Muslim contemporaries An international team of contributors rectify this oversight in this volume **The Shi'i Islamic Martyrdom Narratives of Imam al-Husayn** Muhammad-Reza

Fakhr-Rohani,2023-06-14 Martyrdom narratives maqtals represent a prominent genre of Islamic particularly Shi i literature

In this genre the heart rending aspects of the martyrdom scenes of religiously prominent people are depicted graphically. Although not exclusively limited to the martyrdom accounts of Imam al usayn and his companions who were martyred on the plain of Karbala Iraq a great majority of Islamic martyrdom narratives deal with the Ashura episodes. As the first book length treatment of this genre in English this text takes the reader from the dawn of Islam in ancient Arabia exploring the background of the Battle of Karbala and giving a view of the various maqtals and several related studies. Although examining Arabic and Persian sources this book presupposes little background knowledge on the part of the reader **Liber 420** Chris Bennett, 2018-04-20. Although little known cannabis and other psychoactive plants held a prominent and important role in the Occult arts of Alchemy and Magic as well as being used in ritual initiations of certain secret societies. Find out about the important role cannabis played in helping to develop modern medicines through alchemical works. Cannabis played a pivotal role in spagyric alchemy and appears in the works of alchemists such as Zosimos Avicenna Llull Paracelsus Cardano and Rabelais. Cannabis also played a pivotal role in medieval and renaissance magic and recipes with instructions for its use appear in a number of influential and important grimoires such as the Picatrix Sepher Raxiel Liber Salomonis and The Book of Oberon. Could cannabis be the Holy Grail? With detailed historical references the author explores the allegations the Templars were influenced by the hashish ingesting Assassins of medieval Islam and that myths of the Grail are derived from the Persian traditions around the sacred beverage known as haoma which was a preparation of cannabis opium and other drugs. Many of the works discussed have never been translated into English or published in centuries. The unparalleled research in this volume makes it a potential perennial classic on the subjects of both medieval and renaissance history of cannabis as well as the role of plants in the magical and occult traditions **Muwaššah, Zajal, Kharja** Henk Heijkoop, Otto Zwartjes, 2004-01-01. This bibliography intended to be as complete as possible provides information on written material in 22 languages about muwassa and zajal poetical strophic forms in al Andalus during the Middle Ages and the kharja final segment of muwassa and some zajals and about their popularity in East and West **Interpreting al-Tha'labi's Tales of the Prophets** Marianna Klar, 2009-09-10. Al Tha labi was a renowned Qur'anic scholar of the fifth eleventh century and his Ara is al majalis is arguably the finest and most widely consulted example of the Islamic qisas al anbiya genre. Drawing on primary Arabic sources Klar applies modern critical methods in order to explore the nature of al Tha labi's Ara is al majalis within its historical and literary context and thereby produces a compelling examination of the stories of Noah Job Saul and David as portrayed in the key historiographical and folkloric texts of the medieval Islamic period. Via a close analysis of the relevant narratives the book considers a number of universal aspects of the human condition as they are displayed in these tales from first a religious then a familial and finally a social perspective. Touching upon the benefits and limitations of the application of biblical studies and literary motifs to Islamic materials the book investigates the possibilities of interpretation raised by a primarily psychoanalytical reading of the tales of the four individuals in question. As such this text will be of great

interest to scholars of the biblical prophets Qur'anic studies Islamic historiography folklore and literary criticism
