El Anticristothe Antichrist:

The Antichrist Philip C. Almond,2020-10-01 The malign figure of the Antichrist endures in modern culture whether religious or secular and the spectral shadow he has cast over the ages continues to exert a strong and powerful fascination Philip C Almond tells the story of the son of Satan from his early beginnings to the present day and explores this false Messiah in theology literature and the history of ideas Discussing the origins of the malevolent being who at different times was cursed as Belial Nero or Damien the author reveals how Christianity in both East and West has imagined this incarnation of absolute evil destined to appear at the end of time For the better part of the last two thousand years Almond suggests the human battle between right and wrong has been envisaged as a mighty cosmic duel between good and its opposite culminating in an epic final showdown between Christ and his deadly arch nemesis

Preaching and New Worlds

Timothy Johnson,Katherine Shelby,John Young,2018-12-07 This collection of essays examines the polyvalent concept of New Worlds in the context of medieval and early modern sermon studies While the terms Old World and New World are commonplace in studies of Europe and the Americas this volume explores how preaching in the Atlantic world and beyond creatively engaged audiences in addressing new cultural and religious perspectives regardless of their geographical location and time period The identification of the other in sermons is already an implicit recognition of a novel world which could be equally enticing and intimidating The scholars represented in this volume examine a wide panorama of medieval and early modern efforts as they identify how sermons which often served as a highly effective media of mass communication reflect shifting identities sometimes contested and sometimes embraced within long standing traditional constructs Particular themes include apocalypticism art and mission cultural interaction multilingualism forms of religious life and theological innovation

Montaje cinematográfico, El. Del guion a la pantalla (5.ª edición) Joan Marimón, 2022-05-13. El montaje es uno de los más bellos y avanzados oficios artísticos pero también uno de los más desconocidos por su naturaleza a menudo invisible. Y ello a pesar de que junto con el guion y la dirección constituye uno de los pilares del proceso de creación de una obra audiovisual. Pensar rodar y montar en esto consiste en definitiva hacer una película. Las tres actividades se entrelazan y complementan hasta tal punto que en cierto modo el montaje puede entenderse como una operación vertebradora que empieza en el guion y culmina en la posproducción. En *El montaje cinematográfico* se exponen los secretos de esta apasionante profesión tanto las reglas técnicas como los recursos de lenguaje, la historia y las aplicaciones en los distintos géneros como los aspectos prácticos estudiados mediante análisis pormenorizado de secuencias. Obra de referencia para estudiantes y profesionales del audiovisual, su interés va mucho más allá del ámbito estrictamente técnico pues muestra cómo el montaje ha contribuido a hacer del cine una de las artes más completas, poderosas y fascinantes.

Primeras interpretaciones del sueño de Nabucodonosor Antonio de la Torre Muñilla, 2021-03-02. Estudio, 1915. Liminal Fiction at the Edge of the Millennium Jessica A. Folkart, 2014-10-08. Liminal Fiction at the Edge of the Millennium: The Ends of Spanish Identity

investigates the predominant perception of liminality identity situated at a threshold, neither one thing nor another but simultaneously both and neither caused by encounters with otherness while negotiating identity in contemporary Spain. Examining how identity and alterity are parleyed through the cultural concerns of historical memory, gender roles, sex, religion, nationalism and immigration, this study demonstrates how fictional representations of reality converge in a common structure wherein the end is not the end but rather an edge, a liminal ground. On the border between two identities, the end materializes as an ephemeral limit that delineates and differentiates yet also adjoins and approximates. In exploring the ends of Spanish fiction, both their structure and their intentionality, Liminal Fiction maps the edge as a constitutive component of narrative and identity in texts by Najat El Hachmi, Cristina Fernández Cubas, Javier Marías, Rosa Montero and Manuel Rivas. In their representation of identity on the edge, these fictions enact and embody the liminal not as simply a transitional and transient mode but as the structuring principle of identification in contemporary Spain.
