**Working Through Memory** Ofelia Ferrán,2007 Studies various constructions of memory in contemporary Spanish literature evoking different aspects of a past of repression from both the civil war and the Franco regime This book analyzes narrative texts published between the 1960s and 1990s that present memory and the

recuperation of a traumatic past as their main theme     **Trabajo en red** ,2002     **Remembering Home in a Time of Mobility** Maja Mikula,2017-06-23 Memory nostalgia and melancholy have attracted considerable scholarly attention in recent decades Numerous critics of globalisation transnationalism and cosmopolitanism have posited an overwhelming feeling of homelessness not only among people who have been displaced from their original home lands but also among those who feel estranged from their places of origin due to rapid social change or environmental decline Arguably homesickness is prevalent in today s developed world and can be and sometimes indeed is felt even for times and places unrelated to someone s personal roots Memory has been mobilised to justify recent conflicts to question mainstream interpretations of past events or to demand compensation for the suffering of earlier generations Nostalgia has been employed as a utopia in reverse revealing more about our unattainable ideal present than about the elusive lost past it invokes A corollary of nostalgia in the late modern politics of loss melancholy has been a way of dis identifying from both the horrors of recent history and the growing insecurities of the present The volume raises complex questions related to the ways people have coped with displacement and time space compression arguably the two most manifest symptoms of late modernity How do we grapple with the traumatic experience of the loss of home What strategies do we use and what is their underlying politics How do they intersect with identity positions such as gender class and sexuality How might they contribute to the preservation of national cultures How has our understanding of home changed in a time of mobility and flow Spanning multiple Eurasian and Northern American cultural contexts the book is of interest to an international academic readership within the fields of cultural studies memory studies gender studies literature art performance film and media studies

**Spanishness in the Spanish Novel and Cinema of the 20th - 21st Century** Cristina Sánchez-Conejero,2009-10-02 Spanishness in the Spanish Novel and Cinema of the 20th 21st Century is an exploration of the general concept of Spanishness as all things related to Spain specifically as the multiple meanings of Spanishness and the different ways of being Spanish are depicted in 20th 21st century literary and cinematic fiction of Spain This book also represents a call for a re evaluation of what being Spanish means not just in post Franco Spain but also in the Spain of the new millennium The reader will find treatments of some of the crucial themes in Spanish culture such as immigration nationalisms and affiliation with the European Union as well as many others of contemporary relevance such as time memory and women studies that defy exclusivist and clear cut single notions of Spanishness These explorations will help contextualize what it means to be Spanish in present day Spain and in the light of globalization while also dissipating stereotypical notions of Spain and Spanishness     **Unsettling Nostalgia in Spain and Chile** Lisa DiGiovanni,2019-11-08 Unsettling Nostalgia in Spain and Chile Longing for Resistance in Literature and Film reframes nostalgia to analyze how writers and filmmakers have responded to 20th century dictatorial violence and loss in Spain and Chile By reaching beyond reductive definitions that limit nostalgia to a conservative desire to defend traditional power hierarchies Lisa DiGiovanni captures the complexity of a critically conscious type of longing and form of transmission

that she terms unsettling nostalgia. Using literature and film DiGiovanni illustrates how unsettling nostalgia imbues representations of pre dictatorial mobilization during the Second Spanish Republic 1931–1939 and the Chilean Popular Unity 1970–1973 as well as depictions of clandestine resistance to the Franco dictatorship 1939–1975 and the Pinochet regime 1973–1989. Positive memories of efforts to upend power hierarchies coexist with retrospective critiques that fissure romanticized views of revolutionary struggle. Unsettling nostalgic works engender deeper understandings of the complexities of political movements and how stories of resistance are meaningful today. By calling attention to the parallels between nostalgic modes that resist multiple injustices based on gender, class, and sexuality, this book traces an evocative continuity between Spain and Chile that goes beyond the initial work that links forms of militaristic authoritarianism. Scholars of Latin American studies, film studies, literary studies, history, women's and gender studies, memory studies, and rhetoric will find this book particularly useful.
