Orientalism and Identity in Latin America Erik Camayd-Freixas, 2013-03-14 Building on the pioneering work of Edward Said in fresh and useful ways contributors to this volume consider both historical contacts and literary influences in the formation of Latin American constructs of the Orient and the Self from colonial times to the present In the process they unveil wide ranging manifestations of Orientalism Contributors scrutinize the other great encounter not with Europeans but with Arabic Chinese and Japanese cultures as they marked Latin American societies from Mexico Central America and the Caribbean to Peru Argentina and Brazil The perspectives experiences and theories presented in these examples offer a comprehensive framework for understanding wide ranging manifestations of Orientalism in Latin America and elsewhere in the developing world **Orientalism and Identity in Latin America** expands current theoretical frameworks juxtaposing historical biographical and literary depictions of Middle Eastern and Asian migrations both of people and cultural elements as they have been received perceived refashioned and integrated into Latin American discourses of identity and difference Underlying this intercultural dialogue is the hypothesis that the discourse of Orientalism and the process of Orientalization apply equally to Near Eastern and Far Eastern subjects as well as to immigrants regardless of provenance and indeed to any individual or group who might be construed as Other by a particular dominant culture **Spanish Spaces** Ann

Davies, 2012-01-01 Contemporary cultural geography and contemporary Spanish culture are married in this pioneering study of space and place Spain's varied terrain with complex negotiations between the rural urban and coastal offers an ideal setting in which to explore questions of landscape space and place In **Spanish Spaces** Ann Davies draws on contemporary Spanish film and literature to explore Spain's sophisticated sense of its geographical and spatial self *Secondary Moderns*

Brett Levinson, 1996 *Secondary Moderns* examines Lezama Lima's analyses of Latin American history and culture The study begins by carefully demonstrating how Lezama breaks with the modern Latin American intellectual tradition that has explored the question of Latin American in terms of an identity politics and moves on to a close reading of the theories of aesthetics representation resistance criticism death religion and ethics that Lezama puts forth via his notion of the American expression The work concludes by analyzing Lezama's politics of affirmation by scrutinizing his writings on Cuba and the Cuban Revolution *Secondary Moderns* represents a thorough analysis of Lezama's cultural project Latin American twentieth century thought and the complex intersection of Latin American studies and the post Heideggerian philosophical tradition Refuting labels that have too hastily been attached to Lezama's difficult works those works have been dubbed elitist or transcendentalist the text strives to establish Lezama as one of the great thinkers of historicity in the modern age For while many critics have suggested that Latin American modernity is born via a reading and rewriting of Western discourses Lezama's American expression is the site where this theory is most radically put into practice The practice moreover permits one to understand not only Latin American cultural theory but Western thought itself indeed Lezama's aberrant reading of

the West by its very aberrant character reveals aspects of the Western tradition never before explored

Las actividades comerciales en el espacio y el régimen jurídico del turismo espacial Boboc, Silvia, 2025-07-05 Aunque en los inicios de la era espacial durante las décadas de los sesenta y los setenta era difícil concebir la presencia humana en el espacio fuera de la iniciativa y financiación de los gobiernos nacionales hoy día personas que no son astronautas profesionales o no disponen de financiación pública tienen la posibilidad de acceder al espacio realizando vuelos orbitales o suborbitales e

incluso estancias en instalaciones en órbita como la Estación Espacial Internacional. Es lo que se conoce como turismo espacial, cuyos protagonistas en la actualidad son Space Exploration Technologies Corp, SpaceX, Virgin Galactic y Blue Origin. La obra, dirigida a especialistas en el Derecho espacial, ofrece un tratamiento integral de la materia. Analiza no solo el marco legal de las actividades comerciales en el espacio sino también el régimen de autorización del transporte espacial de personas, los modelos de turismo orbital con o sin estancia en instalaciones en órbita, de turismo suborbital y de turismo en globo estratosférico, así como el estatuto jurídico del turista espacial y la responsabilidad civil de las empresas espaciales en relación con el transporte de personas tanto en la normativa internacional como en la europea y en la nacional estadounidense, británica, francesa, italiana, portuguesa y española.
