Sarin, 2012-12-06 In the fall of 1992 a conference honoring Elwood S. Buffa was held at the Anderson Graduate School of Management of the University of California Los Angeles. This book is a collection of the work presented at that conference. The scholars who gathered to honor El are the prominent researchers in the field of Operations Management. Their collective work published in this book represents the richness of the field and provides the reader with valuable insights into its important issues and problems. While any grouping of the articles by these distinguished scholars will be arbitrary, I have organized the book in four sections. In the first section the articles dealing with the strategic issues in Operations Management are compiled. The articles deal with continuous improvement, quality services, supply chain management, and creating value through operations. The articles that explore the interface of Operations Management with other functional areas, e.g., engineering and marketing, are grouped in the second section. The third section of the book contains articles that attempt to model some important planning problems that arise in the management of production and operations. Some of the papers in this section provide state-of-the-art reviews of selected topic areas. Finally, the fourth section contains articles that deal with future directions for Operations Management. The authors offer several insights into the future evolution of the field. The book begins with the keynote address given by El Buffa at the start of the conference on November 2, 1991. FCC Record United States. Federal Communications Commission, 2017 Euro-Par 2004 Parallel Processing Marco Danelutto, Marco Vanneschi, Domenico Laforenza, 2004-12-27 Euro Par Conference Series Euro Par is an annual series of international conferences dedicated to the promotion and advancement of all aspects of parallel computing. The major themes can be divided into the broad categories of hardware, software, algorithms, and applications for parallel computing. The objective of Euro Par is to provide a forum within which to promote the development of parallel computing both as an industrial technique and an academic discipline, extending the frontier of both the state-of-the-art and the state-of-the-practice. This is particularly pertinent at a time when parallel computing is undergoing strong and sustained development and experiencing real industrial take-up. The main audience for and participants at Euro Par are seen as researchers in academic departments, government laboratories, and industrial organizations. Euro Par's objective is to be the primary choice of such professionals for the presentation of new results in their specific areas. Euro Par also targets applications demonstrating the effectiveness of parallelism. This year's Euro Par conference was the tenth in the conference series. The previous Euro Par conferences took place in Stockholm, Lyon, Passau, Southampton, Toulouse, Munich, Manchester, Paderborn, and Klagenfurt. Next year the conference will take place in Lisbon. Euro Par has a permanent Web site hosting the aims, the organization structure, details, as well as all the conference history. <http://www.europar.org> **Discourse 2.0** Deborah Tannen, Anna Marie Trester, 2013-02-15 Our everyday lives are increasingly being lived through electronic media, which are changing our interactions and our communications in ways that we are only beginning to understand. In *Discourse 2.0: Language and New*

Media editors Deborah Tannen and Anna Marie Trester team up with top scholars in the field to shed light on the ways language is being used in and shaped by these new media contexts Topics explored include how Web 2.0 can be conceptualized and theorized the role of English on the worldwide web how use of social media such as Facebook and texting shape communication with family and friends electronic discourse and assessment in educational and other settings multimodality and the participatory spectacle in Web 2.0 asynchronicity and turn taking ways that we engage with technology including reading on screen and on paper and how all of these processes interplay with meaning making Students professionals and individuals will discover that Discourse 2.0 offers a rich source of insight into these new forms of discourse that are pervasive in our lives
