Expressive Singing J. Timothy Caldwell, 2012-07-31 **The ^AMoving Body in the Aural Skills Classroom** Diane J. Urista, 2016-08-30 The Moving Body in the Aural Skills Classroom influenced by Dalcroze Eurhythmics is a practical guide for college instructors and students interested in integrating the moving body into the aural skills classroom The book presents movement exercises for teaching rhythmic melodic harmonic and formal concepts to encourage a dynamic link between musical training and artistic performance **German Cities and Bourgeois Modernism, 1890-1924** Maiken

Umbach, 2009-06-25 This is a study of a distinctive brand of modernism that first emerged in late nineteenth century Germany and remained influential throughout the inter war years and beyond Its supporters saw themselves as a new elite ideally placed to tackle the many challenges facing the young and rapidly industrializing German nation state They defined themselves as bourgeois and acted as self appointed champions of a modern consciousness Focusing on figures such as Hermann Muthesius Fritz Schumacher and Karl Ernst Osthaus and the activities of the Deutscher Werkbund and other networks of bourgeois designers writers and experts this book shows how bourgeois modernism shaped the infrastructure of social and political life in early twentieth century Germany Bourgeois modernism exercised its power not so much in the realm of ideas but by transforming the physical environment of German cities from domestic interiors via consumer objects to urban and regional planning Drawing on a detailed analysis of key material sites of bourgeois modernism and interpreting them in conjunction with written sources this study offers new insights into the history of the bourgeois mindset and its operations in the private and public realms Thematic chapters examine leitmotifs such as the sense of locality and place the sense of history and time and the sense of nature and culture Yet for all its self conscious progressivism German bourgeois modernism was not an inevitable precursor of neo liberal global capitalism It remained a hotly contested historical construct which was constantly re defined in different geographical and political settings Jazz Singing Tish Oney, 2022-02-15 Tish

Roseman, 2025-08-22 From the celebrated historian of Nazi Germany the story of a remarkable but completely unsung group that risked everything to help the most vulnerable In the early 1920s amidst the upheaval of Weimar Germany a small group of peaceable idealists began to meet practicing a quiet communal life focused on self improvement For the most part they had come to know each other while attending adult education classes in the city of Essen But the Bund as they called their

group had lofty aspirations under the direction of their leader Artur Jacobs its members hoped to forge an ideal community that would serve as a model for society at large But with the ascent of the Nazis the Bund was forced to reevaluate its mission focusing instead on offering assistance to the persecuted despite the great risk Their activities ranged from visiting devastated Jewish families after Kristallnacht to sending illicit letters and parcels of food and clothes to deportees in concentration camps to sheltering political dissidents and Jews on the run What became of this group And how should its deeds often small seemingly insignificant acts of kindness and assistance be evaluated in the broader history of life under the Nazis Drawing on a striking set of previously unpublished letters diaries Gestapo reports other documents and his own interviews with survivors historian Mark Roseman shows how and why the Bund undertook its dangerous work It is an extraordinary story in its own right but Roseman takes us deeper encouraging us to rethink the concepts of resistance and rescue under the Nazis ideas too often hijacked by popular notions of individual heroism or political idealism Above all the Bund s story is one that sheds new light on what it meant to offer a helping hand in this dark time

Strategies for Teaching Elementary and Middle-Level Chorus Ann R. Small, Judy K. Philosophical Leisure Annette Holba, 2007 Human beings have suffered a communication eclipse as a result of rapid technological advancements and conspicuous consumption Consequences of this communication eclipse can be devastating to the human condition Philosophical Leisure Recuperative Praxis for Human Communication invites us to understand the ontological and phenomenological difference between leisure and recreation This distinction is important since outcomes of each activity differ dramatically Philosophical leisure can repair our ability to communicate with others at a deeply human level So be prepared to revision your understanding of leisure and experience a transformation of your soul

El presente estudio implica concretar los fundamentos teóricos conceptuales prácticos y didácticos que están en la base del pensamiento de cinco pedagogos musicales representativos del siglo XX: Edgar Willems, Carl Orff, mile Jaques Dalcroze, Zoltán Kodály y Maurice Martenot. Ellos interesan porque sus métodos abarcan todos los aspectos de la educación musical y recogen el pensamiento en diferentes áreas del saber de pensadores y humanistas de la época anticipándose a desarrollos posteriores dados en los campos del constructivismo y la teoría de las inteligencias múltiples. Teniendo como punto de partida la comprensión de que la música hace parte de la experiencia humana, la intención consistió en dilucidar cómo se aprende con qué procesos cómo este aprendizaje se relaciona con otras áreas del conocimiento como la psicología la filosofía y las neurociencias. Qué saberes y prácticas llevaron a los pedagogos en cuestión a entender el desarrollo cognitivo fisiológico y afectivo y cómo establecieron la relación entre la música y el desarrollo integral en sus métodos sin dejar de comprender cómo estos procesos de enseñanza aprendizaje responden a fundamentos teóricos y conceptuales que sustentan esas metodologías.
