## **Extending Digital Dividends Public Goods And Services That Work For All:**

**Extending Digital Dividends** United States. General Services Administration. Office of Governmentwide Policy, 2002  
Extending Digital Dividends ,2002      **Annual Report** United States. Government Printing Office,      **Administrative Notes** ,2003      **Bowker Annual Library & Book Trade Almanac** Information Today Inc, 2003-05 This acclaimed must have resource provides the following Expert reviews of the key trends events and developments that will influence your work in 2004 and the years to come Clear explanations of new legislation and changes in funding programs and how this will affect libraries Definitive statistics on book prices numbers of books published library expenditures average salaries and other budget crunching assistance A full calendar of events key organizations names and numbers of important individuals including e mail addresses and fax numbers and much more This fully updated reference tool makes it easy to stay on top of the developments that affect libraries booksellers and publishers alike and to find fast answers to the countless on the job questions you encounter      *Subject Guide to Books in Print* ,1991      Digital Dividends and Other Proposals to Leverage Investment in Technology : Hearing Before Subcommittee on Telecommunications and the Internet of the Committee on Energy and Commerce, House of Representatives, One Hundred Eighth Congress, First Session, November 19, 2003 United States. Congress. House. Committee on Energy and Commerce. Subcommittee on Telecommunications and the Internet, 2004 We will be exploring proposals to put spectrum auction proceeds in special trust funds dedicated to the enhancement of technology in education Page 1      **World Development Report 2016** World Bank Group, 2016-01-14 Digital technologies are spreading rapidly but digital dividends the broader benefits of faster growth more jobs and better services are not If more than 40 percent of adults in East Africa pay their utility bills using a mobile phone why can t others around the world do the same If 8 million entrepreneurs in China one third of them women can use an e commerce platform to export goods to 120 countries why can t entrepreneurs elsewhere achieve the same global reach And if India can provide unique digital identification to 1 billion people in five years and thereby reduce corruption by billions of dollars why can t other countries replicate its success Indeed what s holding back countries from realizing the profound and transformational effects that digital technologies are supposed to deliver Two main reasons First nearly 60 percent of the world s population are still offline and can t participate in the digital economy in any meaningful way Second and more important the benefits of digital technologies can be offset by growing risks Startups can disrupt incumbents but not when vested interests and regulatory uncertainty obstruct competition and the entry of new firms Employment opportunities may be greater but not when the labor market is polarized The internet can be a platform for universal empowerment but not when it becomes a tool for state control and elite capture The World Development Report 2016 shows that while the digital revolution has forged ahead its analog complements the regulations that promote entry and competition the skills that enable workers to access and then leverage the new economy and the institutions that are accountable to citizens have not kept pace And when these analog

complements to digital investments are absent the development impact can be disappointing What then should countries do They should formulate digital development strategies that are much broader than current information and communication technology ICT strategies They should create a policy and institutional environment for technology that fosters the greatest benefits In short they need to build a strong analog foundation to deliver digital dividends to everyone everywhere

**Making the Global Economy Work for Everyone** Marco Magnani,2022-01-24 The Covid 19 pandemic has revealed the weaknesses of globalisation exposed the fragility of the current growth model and accelerated the ongoing tech revolution This book is an in depth analysis of these weaknesses and fragilities in the context of sustainability Economist Marco Magnani suggests the possibility of pursuing a more balanced environmentally and socially sustainable growth while defusing today s apocalyptic alarmism about climate change energy and demographic constraints and the future of work To make the global economy work for everyone

**Reaping Digital Dividends** Tim Kelly,Aleksandra Liaplina,Shawn W. Tan,Hernan Winkler,2017-04-14 From East to West the economies of Europe and Central Asia ECA are not taking full advantage of the internet to foster economic growth and job creation The residents of Central Asia and the South Caucasus pay some of the highest prices in the world for internet connections that are slow and unreliable In contrast Europe enjoys some of the world s fastest and affordable internet services However its firms and individuals are not fully exploiting the internet to achieve higher productivity growth as well as more and better jobs Reaping Digital Dividends investigates the barriers that are holding back the broader adoption of the internet in ECA The report identifies the main bottlenecks and provides policy recommendations tailored to economies at varying levels of digital development It concludes that policies to increase internet access are necessary but not sufficient Policies to foster competition international trade and skills supply as well as adapting regulations to the changing business environment and labor markets will also be necessary In other words Reaping Digital Dividends not only requires better connectivity but also complementary factors that allow governments firms and individuals to make the most out of it

**Greece** International Monetary Fund. European Dept., 2013-06-05 The short term objectives are being met but medium term targets and sustainability have to be worked on The impressive fiscal adjustment evident since the crisis erupted is continuing The Executive Directors commend the Greek government's determination to focus on overdue spending cuts However progress on improving tax administration and public administration reforms needs to be started in earnest There is concern about debt relief undermining the payment culture Reforms to open up the economy to competition should be stepped up The macroeconomic and debt outlook must remain under close review **Information and Communication Technology (ICT) in Agriculture** Food and Agriculture Organization of the United Nations, 2018-06-25 An assessment of platforms promoting ICT for agriculture food security and nutrition and proposals for improving its usage such as the creation of the ICT for Sustainable Agricultural Production Innovation Lab Middle East and North Africa Economic Monitor, October 2018 Rabah Arezki, Lili Mottaghi, Andrea Barone, 2018-10-03 After a sharp fall in 2017 economic growth in MENA is projected to rebound to 3.1 percent in 2018 thanks to the positive global outlook oil prices stabilizing at relatively higher levels stabilization policies and reforms and recovery and reconstruction as conflicts recede The outlook for MENA remains positive and the growth rebound is expected to gain momentum over the next two years exceeding 3 percent in 2020 While stabilization policies have helped economies adjust in recent years a second phase of reforms is needed should be transformative if the region is to reach its potential and create jobs for hundred million young people who will enter the labor market in coming decades In this report we explore the role that public private partnerships can play not only in providing an alternative source of financing but in helping change the role of the state from the main provider of employment to an enabler of private sector activity Studies have shown that the gap between MENA economies and fast growing ones is the performance of the services sector The disruptive technology offers new opportunities for boosting private sector led growth through enhancement of high tech jobs in the services sector The report argues that combining the region's fast growing pool of university graduates and a heavy penetration of social media and smartphone could serve as the foundation for a digital sector that could create much needed private sector jobs for the youth over the next decade Digitalization and Social Protection: Macro and Micro Lessons for Vietnam Amr Hosny, Alexandre Sollaci, 2022-09-16 The COVID 19 shock has underscored the importance of digital tools for enhancing the effectiveness and efficiency of social protection systems Cross

country evidence suggests that digital IDs linked with bank and or mobile money accounts can improve the delivery of social protection programs and better reach eligible beneficiaries Using data from the Vietnam Household Living Standard Survey we present micro simulations on the welfare gains of digital social protection during the pandemic While digitalization offers opportunities potential risks would need to be carefully managed Vietnam is advancing on individual pieces of the digitalization puzzle including full digital IDs and mobile money and the next step is to put these pieces together **FCC**
