**The Foreign Policy of the European Union** Stephan Keukeleire, Tom Delreux, 2022-02-10 Keukeleire and Delreux

demonstrate the scope and diversity of the European Union's foreign policy showing that EU foreign policy is broader than the Common Foreign and Security Policy and the Common Security and Defence Policy and that areas such as trade development environment and energy are inextricable elements of it This book offers a comprehensive and critical account of the EU's key foreign relations with its neighbourhood with the US China and Russia and with emerged powers and argues that the EU's foreign policy needs to be understood not only as a response to crises and conflicts but also as a means of shaping international structures and influencing long term processes This third edition reflects recent changes and trends in EU foreign policy as well as the international context in which it operates addressing issues such as the increasingly contested international order the conflict in Ukraine the migration and refugee crisis Brexit and Covid 19 The book not only clarifies the formal procedures in EU foreign policy making but also elucidates how it works in practice The third edition includes new sections and boxes on strategic autonomy European arms exports the EU's external representation the Brussels Effect and decentring and gender approaches to EU foreign policy Up to date jargon free and supported by its own website [eufp.eu](http://eufp.eu) this systematic and innovative appraisal of this key policy area is suitable for undergraduate and postgraduate students as well as practitioners

*Rethinking the*

*World Trade Order* Mohammad F. A. Nsour, 2010 Regional Trade Agreements RTAs have proliferated at an unprecedented pace since the creation of the World Trade Organization WTO Although the WTO legally recognizes countries entitlement to form RTAs neither the WTO nor parties to RTAs have an unequivocal understanding of the relationship between the WTO and RTAs In other words the legal controversies the result of uncertainty regarding the application of the WTO GATT laws risk undermining the objectives of the multilateral trade system This research tackles a phenomenon that is widely believed to be heavily economic and political It highlights the economic and political aspects of regionalism but largely concentrates on the legal dimension of regionalism The main argument of the book is that the first step to achieving harmony between multilateralism and regionalism is the identification of the legal uncertainties that regionalism produces when countries form RTAs without taking into account the substantive and procedural aspect of the applicable WTO GATT laws The book calls for the creation of a legal instrument i e agreement on RTAs that combines all of the applicable law on RTAs and simultaneously clarifies the legal language used therein Likewise the WTO should have a proactive role not merely as a coordinator of RTAs but as a watchdog for the multilateral system that has the power to prosecute violating RTAs The author is aware that political concerns are top priorities for governments and policy makers when dealing with the regionalism problematic Hence legal solutions or proposals are not sufficient to create a better international trade system without the good will of the WTO Members who are in fact the players who are striving to craft more regional trade arrangements

implementing trade reforms and in taking steps to deepen global integration The lowering of trade barriers and the growth of foreign investment have benefited the developing countries but have also created vulnerabilities including risks of dependence and political interference Is deeper integration in the best interest of developing countries In this book part of the Integrating National Economies series Stephen Haggard examines the position of the developing countries in the international trade regime Focusing on the nations of East and Southeast Asia and Latin American Haggard explores the cause of economic liberalization policies in the developing nations He argues that various international constraints such as economic shocks and political pressures from the economically advanced nations pushed developing countries to open up to international competition and to pursue economic relations with advanced industrial states Haggard addresses such central questions as Will developing countries benefit from the deep integration agenda Will they instead join closed regional blocs that fragment the international economy Will the developing nations orient themselves toward the multilateral institutions particularly the World Trade Organization or will they gravitate toward regional arrangements Haggard argues that the advanced developing countries have become strong supporters of the multilateral system and that the extent of regionalism has been overstated He contends that a more serious threat is the lure of bilateralism and the effort of the advanced industrial states to impose standards on developing countries that are inappropriate or politically counterproductive A volume of Brookings Integrating National Economies Series     The European Union and Interregionalism Mr Mathew Doidge, 2013-03-28 The European Union and Interregionalism is the most comprehensive study of interregionalism to date providing a vigorous analysis of its role and functions in the architecture of global governance and of the place of qualitative differences between regional actors in shaping interregional relationships Regionalism itself is an established phenomenon with regional politics becoming increasingly institutionalised As a result with the EU as forerunner regions have begun to exert themselves in the external policy space developing networks of relations including prominently interregional relations We have thus seen the emergence of a new governance space at the interregional level banded on one side by sites of global governance and on the other by governance at the regional level Important questions challenging the current literature of these interregional structures include do interregional relationships conform to theoretical expectations and what patterns of engagement and interaction are emerging within the EU's core interregional partnerships and are these replicated elsewhere Exploring interregionalism beyond the core Europe Asia partnerships including the network of relations centred on ASEAN this book should be read by all those engaged in consideration of interregional structures to understand how patterns of EU centred interregional engagement rather than being sui generis are increasingly evident in the broader network of interregional relationships     **International Relations Law of the European Union** Dominic McGoldrick, 1997 The role of the EC in international relations is an area of increasing importance Its legal implications are the subject of much controversy and debate This text provides an up to date account of the law and practice of the external relations of the EC

and its relationship with international community and national law      **European Union and European Community**, 1994 Brings together the texts of all the key European Union treaties including the Treaty of Rome Maastricht the Social Charter ESSC and Euratom A commentary on the Treaty texts and their amendments is included with particular emphasis on policy implications and the structure of the Treaties      *European Union* Jeremy Richardson, Sonia Mazey, 2015-02-23 A key textbook for undergraduate and postgraduate students of contemporary European politics European Union Power and policy making 4th edition offers a comprehensive and accessible analysis of the European Union policy process Intended to advance understanding of the EU as a now mature and ongoing policy system this book addresses the central issues relating to the distribution of power and influence in the European Union including Theoretical perspectives The roles of key institutions in the processing of policy problems Different channels of representation The EU as a policy making state Written by a distinguished group of international scholars this new edition will also appeal to the worldwide community of researchers on the EU New to this edition New chapters on The Politics of Multispeed Europe The Distribution of Power Among Institutions EU Agencies Covert Integration in the European Union and Political Representation and Democracy in the EU New authors and theoretical approaches on many topics such as differentiated integration opt outs and multi speed integration negotiation and coalition building the interplay of judicial and legislative policy making power distribution agency behaviour integration by subterfuge the democratic deficit fully updated data and content throughout Jeremy Richardson is joined by a co editor Professor Sonia Mazey for the fourth expanded edition of this highly regarded textbook on the EU Jeremy Richardson is an Emeritus Fellow at Nuffield College Oxford UK and Adjunct Professor at the National Centre for Research on Europe University of Canterbury New Zealand He is also Founder and Co editor of the Journal of European Public Policy Sonia Mazey is a Professor and Pro Vice Chancellor of the College of Business and Law University of Canterbury New Zealand and formally a Fellow of Keble College Oxford UK      **Crossing the Atlantic** Patrick M. Crowley, 2017-11-30 Given the legal political economic and social similarities that exist comparisons between the European Union EU and Canada can prove instructive This volume introduces the rationale for comparing Canada and the EU and reviews the political initiatives that have been undertaken to forge links between the two Taking the political and economic structure used by the EU it compares this structure to the Canadian model at both the federal supranational level and the local government level Using various disciplinary approaches and case studies specific policy areas are used to illustrate these comparisons and several of the papers in the collection extend these comparisons to the NAFTA level A highly useful reference tool Crossing the Atlantic will intrigue and inform an interdisciplinary and inter regional studies audience
