F-89 Scorpion in Action Larry Davis, Dave Menard, 1990-01-01 Beskriver det amerikanske jagerfly F 89 Scorpion
American Aircraft Development Second World War Legacy William J. Norton, 2021-12-02 This volume focuses on the influence of America's Second World War aviation development and experience subsequent aviation technological advances and world events in shaping American choices in military aircraft and associated weapons development during the few years following the war. It shows how air warfare weapons from the last conflict were carried forward and altered how new systems evolved from these and how the choices fared in the next war Korea. The period was one of remarkable progress in a short span of time via a great many aircraft and weapons programs and associated technological progress. These systems were of immense importance influencing and growing the engineering production and operational capabilities to be exploited for the next generation of weapons that soon followed. Emphasized is the innovative features or new technology and how these contributed to advancing American military aviation influencing the evolution of follow on models or types. Included are military prototype experimental and research aircraft that are equally important in understanding the history of American aircraft development. Combat employment progress and equipment adaptation during the Korean Conflict is then highlighted. Tabulated characteristics are provided of those aircraft that entered production or represented significant technological advances influencing others that follow.

All-Weather Fighters Gordon B. Greer, 2006-09-11 Mr Greer outlines the not well known aircraft and activities of the United States Air Force's all weather fighters during the first part of the Cold War. He covers the organization development and decline of the all weather force in response to the Soviet Union's long range strategic bomber force equipped with atomic weapons. The author describes not only the individual aircraft from the early night fighters of World War II through the F 106A of the seventies and beyond but also the control organization that directed them until the whole operation was made superfluous by the ballistic missile standoff between the United States and the Soviet Union in the latter half of the Cold War.

Northrop F-89 Scorpion Pilot's Flight Operating Manual United States Air Force, 2008-09-01 The F 89 Scorpion was the first multi seat all weather jet interceptor in the U S Air Force. It also became the first aircraft ever equipped with a nuclear air to air weapon the 1.5 kiloton Genie missile. The F 89 made its debut in 1948 joined the Air Force in 1950 and then served as the mainstay of Air Defense Command for 17 years. Over 1 000 F 89s were produced including 350 of the J model equipped with pylons to carry the Genie. One F 89 did fire the missile as part of Operation Plumbob in 1957. Originally printed by Northrop and the USAF this F 89 Flight Operating Manual taught pilots everything they needed to know before entering the cockpit. Classified Restricted the manual was recently declassified and is here reprinted in book form. This affordable facsimile has been reformatted and color images appear in black and white. Care has been taken however to preserve the integrity of the text.
