Murphy,1988 *Time* ,1986 **The Heart of the World** Ian Baker,2006-05-02 The myth of Shangri la originates in Tibetan Buddhist beliefs in beyul or hidden lands sacred sanctuaries that reveal themselves to devout pilgrims and in times of crisis The more remote and inaccessible the beyul the vaster its reputed qualities Ancient Tibetan prophecies declare that the greatest of all hidden lands lies at the heart of the forbidding Tsangpo Gorge deep in the Himalayas and veiled by a colossal waterfall Nineteenth century accounts of this fabled waterfall inspired a series of ill fated European expeditions that ended prematurely in 1925 when the intrepid British plant collector Frank Kingdon Ward penetrated all but a five mile section of the Tsangpo s innermost gorge and declared that the falls were no more than a religious myth and a romance of geography The heart of the Tsangpo Gorge remained a blank spot on the map of world exploration until world class climber and Buddhist scholar Ian Baker delved into the legends Whatever cryptic Tibetan scrolls or past explorers had said about the Tsangpo s innermost gorge Baker determined could be verified only by exploring the uncharted five mile gap After several years of encountering sheer cliffs maelstroms of impassable white water and dense leech infested jungles on the last of a series of extraordinary expeditions Baker and his National Geographic sponsored team reached the depths of the Tsangpo Gorge They made news worldwide by finding there a 108 foot high waterfall the legendary grail of Western explorers and Tibetan seekers alike The Heart of the World is one of the most captivating stories of exploration and discovery in recent memory an extraordinary journey to one of the wildest and most inaccessible places on earth and a pilgrimage to the heart of the Tibetan Buddhist faith The Rites of Assent Sacvan Bercovitch,2014-01-14 The Rites of Assent examines the cultural strategies through which America served as a vehicle simultaneously for diversity and cohesion fusion and fragmentation Taking an ethnographic cross cultural approach The Rites of Assent traces the meanings and purposes of America back to the colonial

typology of mission and specifically in chapters on Puritan rhetoric Cotton Mather Jonathan Edwards and the movement from Revival to Revolution to the legacy of early New England The Ends of Rhetoric John B. Bender, David E. Wellbery, 1990

The discipline of rhetoric adapted through a wide range of reformulations to the specific requirements of Greek Roman Medieval and Renaissance societies dominated European education and discourse whether public or private for more than two thousand years The end of classical rhetoric's domination was brought about by a combination of social and cultural transformations that occurred between the seventeenth and nineteenth centuries Concurrent with the theory boom of recent decades rhetoric has appeared as a center of discussion in the humanities and social sciences Rhetorical inquiry as it is thought and practiced today occurs in an interdisciplinary matrix that touches on philosophy linguistics communication studies psychoanalysis cognitive science sociology anthropology and political theory Rhetoric is now an area of study without accepted certainties a territory not yet parceled into topical subdivisions a mode of discourse that adheres to no fixed protocols It is a noisy field in the cybernetic sense of the term a fertile ground for creative innovation This volume embodies the interdisciplinary character of rhetoric The essays draw on wide ranging conceptual resources and combine historical theoretical and practical points of view The contributors develop a variety of perspectives on the central concepts of rhetorical theory on the work of some of its major proponents and on the breaks and continuities of its history The spectrum of thematic concern is broad extending from the Greek polis to the multi ethnic city of modern America from Aristotle to poststructuralism from questions of figural language to problems of persuasion and interaction But a common interdisciplinary interest runs through all the essays the effort to rethink rhetoric within the contemporary epistemological situation In this sense the book opens new possibilities for research within the human sciences **100 of the World's Greatest Mysteries** E. Randall Floyd, 2000 Comprehensive collection of unexplained phenomena science mysteries and historical oddities ranging from Big Bang and Killer comets to poltergeist and alien abductions **Environmental Stewardship** Dorothy J. Howell, 1997-07-23 This work addresses the cultural background of stewardship as a progression from individual personal aesthetics to a deeply informed environmental ethic that could become a national environmental policy Howell begins by assessing our personal cultural background and our philosophical notions of our role in the natural world She looks at the evolution of Western civilization and changing worldviews in relation to nature examining especially early conceptions of a more appealing simpler life closer to nature in contrast to the perceived civilized world that is portrayed as decadent Howell examines archetypes from literature and the popular arts finding examples in Jungian psychology and in contemporary film and television that support the Wild Man image and promote the Simple Life yearning She then looks at the early 20th century conservation and preservation writers as the most direct ancestors of today's environmental movement and an immediate source of inspiration **Out of Bounds** Alan G. Johnson, 2011-03-31 Out of Bounds focuses on the crucial role that conceptions of iconic colonial Indian spaces jungles cantonments cities hill stations

bazaars clubs played in the literary and social production of British India Author Alan Johnson illuminates the geographical rhetorical and ideological underpinnings of such depictions and from this argues that these spaces operated as powerful motifs in the acculturation of Anglo India He shows that the bicultural intrinsically ambivalent outlook of Anglo Indian writers is acutely sensitive to spatial motifs that insofar as these condition the idea of home and homelessness alternately support and subvert conventional colonial perspectives Colonial spatial motifs not only informed European representations of India but also shaped important aesthetic notions of the period such as the sublime This book also explains how and why Europeans rhetorical and visual depictions of the Indian subcontinent whether ostensibly administrative scientific or aesthetic constituted a primary means of memorializing Empire creating an idiom that postcolonial India continues to use in certain ways Consequently Johnson examines specific motifs of Anglo Indian cultural remembrance such as the hunting memoir hill station life and the Mutiny all of which facilitated the mythic iconography of the Raj He bases his work on the premise that spatiality the physical as well as social conceptualization of space is a vital component of the mythos of colonial life and that the study of spatiality is too often a subset of a focus on temporality Johnson reads canonical and lesser known fiction memoirs and travelogues alongside colonial archival documents to identify shared spatial motifs and idioms that were common to the period Although he discusses colonial works he focuses primarily on the writings of Anglo Indians such as Rudyard Kipling John Masters Jim Corbett and Flora Annie Steel to demonstrate how conventions of spatial identity were rhetorically maintained and continually compromised All of these considerations amplify this book s focus on the porosity of boundaries in literatures of the colony and of the nation Out of Bounds will be of interest to not only postcolonial literary scholars but also scholars and students in interdisciplinary nineteenth century studies South Asian cultural history cultural anthropology women s studies and sociology

Books in Series, 1876-1949 R.R. Bowker Company,1982 Enchanted Isles Evelyn Foster, AI, 2025-02-26 Enchanted Isles explores the captivating myths of magical islands and lost lands that have fueled human imagination across cultures These enchanted isles like Avalon Hy Brasil and the Fortunate Isles represent more than just fantastical locations they symbolize utopian societies gateways to the afterlife and humanity s deepest desires The book examines how these myths reflect cultural values and anxieties providing context for historical explorations and artistic expressions Interestingly some historical accounts blur the lines between reality and myth sparking debate about what we choose to believe The book progresses by first establishing a framework for understanding the concept of the enchanted isle within historical and cultural contexts It then turns to specific examples analyzing their unique features associated legends and symbolic significance Drawing upon historical literary and anthropological sources including medieval maps and travelogues the book reveals the complex interplay between imagination and reality By integrating travel writing historical geography literary studies and cultural anthropology Enchanted Isles offers a nuanced understanding of the enduring allure of the unknown and the power of imagination ultimately revealing how these imagined places reflect our
