Fables Of Power Aesopian Writing And Political History Hb:

Samuel Richardson and the Art of Letter-Writing Louise Curran, 2016-03-17 This fascinating study examines Samuel Richardson's letters as important works of authorial self-fashioning. It analyses the development of his epistolary style, the links between his own letter-writing practice and that of his fictional protagonists, how his correspondence is highly conscious of the spectrum of publicity and how he constructed his letter collections to form an epistolary archive for posterity. Looking backwards to earlier epistolary traditions and forwards to the emergence of the lives-in-letters mode of biography, the book places Richardson's correspondence in a historical continuum. It explores how the eighteenth century witnesses a transition from a period in which an author would rarely preserve personal papers to a society in which the personal lives of writers become privileged as markers of authenticity in the expanded print market. It argues that Richardson's letters are shaped by this shifting relationship between correspondence and publicity in the mid-eighteenth century. **Radical Philosophy**, 1993
