Fabre Poet Of Science:

Fabre; Poet of Science Georges Victor Legros,1913 HERE I offer to the public the life of Jean Henri Fabre at once an admiring commentary upon his work and an act of pious homage such as ought to be offered while he lives to the great naturalist who is eventoday so little known Hitherto it was not easy to speak of Henri Fabre with exactitude An enemy to all advertisement he has so discreetly held himself withdrawn that one might almost say that he has encouraged by his silence many doubtful or unfounded rumours which in course of time would become even more incorrect For example although quite recently his material situation was presented in the gloomiest of lights while it had really for some time ceased to be precarious it is none the less true that during his whole life he has had to labour prodigiously in order to earn a little money to feed and rear his family to the great detriment of his scientific inquiries and we cannot but regret that he was not freed from all material cares at least twenty years earlier than was the case **Fabre, Poet Of Science** Dr G -V Legros,2024-03
