Patent Office,1902 Photograph the Face ,2014-06-10 The most essential factor in creating a successful salable portrait is properly lighting the face But every face is different and each face type requires a different style of lighting It is imperative that the photographer realizes this From the subjects complexion and facial size to their clothing hair color and setting there are many aspects to consider when lighting a client The photographer must also take into consideration what type of product the client wants senior portrait bridal portrait glamour or professional Each one of these requires something different Properly and efficiently addressing all of these factors will set you and your business apart from the competition In this book Smith focuses on teaching photographers how to conceptualize and produce

portraits that will please the client He emphasizes that he is not creating his own artistic vision but that he is crafting what the client wants That is not to say the results aren't artful and creative Both of those things are very important as Smith shows but the main goal as a successful professional photographer is to create portraits that the subject wants to buy Smith advises photographers to be aware of a subject's self image when creating the portrait being sure not to light them in a manner that is unflattering or distorted Success in creating salable portraits relies as much on understanding people and the way our self image functions as it does understanding the proper techniques of lighting First Smith discusses the differences between face types and what to be aware of when setting up the lighting for each Proper metering and placement of light source are essential to controlling your highlights your shadowing and the transition area in between Establishing a system for modifying your lighting setup for each subject is emphasized The concept of Camera Sight or visualizing the finished photo ahead of time to look for potential problem areas is very important As Smith admits this skill comes with experience Where he once had to take many test shots to pick out these issues he is now able to see them before he shoots a single frame This is a skill that develops over time with training and practice The author then explains the differences between shooting in a studio and shooting on location both indoors and outdoors Different equipment is required for each scenario but the equipment used for shooting outdoors can even differ depending on the time of day While the most ideal natural light occurs just after sunrise or just before sunset most customers do not want to have their portraits taken at 5am or late in the day So the photographer needs to be prepared to shoot in the harsh midday sun In addition to lighting the face the photographer must find usable light to illuminate the background properly Smith details the lighting system he uses for outdoor portraiture and presents it in the context of his shooting experiences While studio shoots provide greater levels of comfort and consistency compared to a location shoot there are still many things required to get that perfect shot Properly applying fill accent light and shadowing are just as important in the studio as they are on location Understanding the concepts of traditional lighting allows the photographer to consistently create studio portraits that will please any customer The most important part of the face to light properly is the eyes Smith explains in detail what factors a successful photographer must consider to get the final portrait every client wants Whether it is a difference in the size of the client's eyes or ears asymmetrical lips or a crooked nose there are ways to light these to correct the differences Using artistry and creative vision to adapt from the comfort of studio shoots to the complicated and diverse demands of location shoots Smith provides the reader with the tools to capture what the client wants every time

Face to Face: The Unveiling of Jesus Christ Micah Paul Gaylor, 2024-03-31 The book of Revelation is more than a prophecy of future events It is an invitation a blessing and a catalyst meant to equip creation for a Face to Face encounter with the King of Kings that will utterly transform the very fabric of reality Book 1 of the Unveiling of Jesus Christ series is all about preparation No not that end of the world as we know it doomsday kind of preparation I mean the kind you make when you are about to go on an epic quest Our quest is to understand and experience the true power of the book of Revelation not as an oracle for survival but as illumination for transformation Without this mindset many previous eschatological expeditions

have produced overconfident predictions while leaving their travelers empty handed unchanged and jaded A better path is available In this prelude to our journey through Revelation we ll build a map for navigating end times prophecy as God intended With a fresh sometimes out of the box perspective we ll unpack familiar Bible verses in unexpected ways that reveal God s beautifully consistent tapestry of truth From Genesis to Revelation we ll learn how God s plan connects the Old and New Testaments with a precision that will strengthen and deepen your faith Join me as we leverage the depth and breadth of Scripture to uncover a divine endgame that defies imagination The goal is to adjust our focus enlarge our perspective and awaken an insatiable hunger for the Unveiling of Jesus Christ Come prepared to be equipped for active participation in the consummating stages of God s eternal plan for His universe
