The Nostalgic Imagination Stefan Collini,2019 This unusual book explores the historical assumptions at work in the style of literary criticism that came to dominate English studies in the twentieth century Stefan Collini shows how the work of critics renowned for their close attention to the words on the page was in practice bound up with claims about the nature and direction of historical change the interpretation of the national past and the scholarship of earlier historians Among the major figures examined in detail are T S Eliot F R Leavis William Empson and Raymond Williams while there are also original discussions of such figures as Basil Willey L C Knights Q D Leavis and Richard Hoggart The Nostalgic Imagination argues that in the period between Eliot s The Sacred Wood and Williams s The Long Revolution the writings of such critics came to occupy the cultural space left by academic history s retreat into specialized archive bound monographs Their work challenged the assumptions of the Whig interpretation of English history and entailed a revision of the traditional relations between literary history and general history Combining close textual analysis with wide ranging intellectual history this volume both revises the standard story of the history of literary criticism and illuminates a central feature of the cultural

history of twentieth century Britain **Early Larkin** James Underwood, 2021-07-15 Astute Times Literary Supplement

Beginning in the late 1930s this is the first book length critical study of Larkin's early work his poetry novels short fictions essays and letters The book tells the story of Philip Larkin's early literary development starting with Larkin's earliest literary efforts and his remarkable correspondence with Jim Sutton and ending at the point Larkin's maturity begins with the writing of his first great poems In providing a comprehensive and systematic study of this part of Larkin's life this book also presents a new and surprising narrative of Larkin's development Critics have presented Larkin's early career as a false start which he overcame by swapping Yeats's influence for Hardy's Having re-discovered Hardy's poetry in 1946 the story goes Larkin realised the potential of writing about his own life and disavowed Yeats Central to this book's controversial counter narrative is an insistence on the significance of Brunette Coleman the female heteronym Larkin invented in 1943 Three years before his re-discovery of Hardy Larkin wrote a strange and unique series of works for schoolgirls under Coleman's name These writings not only led him away from Yeats and other hindering influences but also away from himself Whereas the Yeats to Hardy narrative emphasises the autobiographical qualities of Larkin's mature verse Early Larkin proposes that the writer's breakthrough was a result of his burgeoning interest in everything outside himself itself the consequence of his curious experiment with Brunette Coleman

Virginia Woolf, the Intellectual, and the Public Sphere Melba Cuddy-Keane, 2003-08-14 Virginia Woolf the Intellectual and the Public Sphere relates Woolf's literary reviews and essays to early twentieth century debates about the value of highbrow culture the methods of instruction in universities and adult education and the importance of an educated public for the realization of democratic goals By focusing on Woolf's theories and practice of reading Melba Cuddy Keane refutes assumptions about Woolf's modernist elitism revealing instead a writer who was pedagogically oriented publicly engaged and committed to the ideal of classless intellectuals working together in reciprocal exchange Woolf emerges as a stimulating theorist of the unconscious of dialogic reading of historicist criticism and of value judgments while her theoretically informed but accessible prose challenges us to reflect on academic writing today Combining a wealth of historical detail with a penetrating analysis of Woolf's essays this 2003 study will alter our views of Woolf of modernism and of intellectual work

Domesticated Bachelors and Femininity in Victorian Novels Jennifer Beauvais, 2020-10-23 Domestic issues chastity morality marriage and love are concerns we typically associate with Victorian female characters But what happens when men in Victorian novels begin to engage in this type of feminine discourse While we are familiar with certain Victorian women seeking freedom by moving beyond the domestic sphere there is an equally interesting movement by the domestic man into the private space through his performance of femininity This book defines the domesticated bachelor examines the effects of the blurring of boundaries between the public and private spheres and traces the evolution of the public discourse on masculinity in novels such as Brontë's Shirley Braddon's Lady Audley's Secret Eliot's Daniel Deronda and Stevenson's The Strange Case of Dr Jekyll and Mr Hyde This bachelor along with his female

counterpart the New Woman opens up for discussion new definitions of Victorian masculinity and gender boundaries and blurs the rigid distinction between the gendered spaces thought to be in place during the Victorian period

What Should Schools Teach? Alka Sehgal Cuthbert ,Alex Standis,2021-01-07 The design of school curriculums involves deep thought about the nature of knowledge and its value to learners and society It is a serious responsibility that raises a number of questions What is knowledge for What knowledge is important for children to learn How do we decide what knowledge matters in each school subject And how far should the knowledge we teach in school be related to academic disciplinary knowledge These and many other questions are taken up in What Should Schools Teach The blurring of distinctions between pedagogy and curriculum and between experience and knowledge has served up a confusing message for teachers about the part that each plays in the education of children Schools teach through subjects but there is little consensus about what constitutes a subject and what they are for This book aims to dispel confusion through a robust rationale for what schools should teach that offers key understanding to teachers of the relationship between knowledge what to teach and their own pedagogy how to teach and how both need to be informed by values of intellectual freedom and autonomy This second edition includes new chapters on Chemistry Drama Music and Religious Education and an updated chapter on Biology A revised introduction reflects on emerging discourse around decolonizing the curriculum and on the relationship between the knowledge that children encounter at school and in their homes

Critical Revolutionaries Terry Eagleton,2022-05-31 Terry Eagleton looks back across sixty years to an extraordinary critical milieu that transformed the study of literature Before the First World War traditional literary scholarship was isolated from society at large In the years following a younger generation of critics came to the fore Their work represented a reaction to the impoverishment of language in a commercial utilitarian society increasingly under the sway of film advertising and the popular press For them literary criticism was a way of diagnosing social ills and had a vital moral function to perform Terry Eagleton reflects on the lives and work of T S Eliot I A Richards William Empson F R Leavis and Raymond Williams and explores a vital tradition of literary criticism that today is in danger of being neglected These five critics rank among the most original and influential of modern times and represent one of the most remarkable intellectual formations in twentieth century Britain This was the heyday of literary modernism a period of change and experimentation the bravura of which spurred on developments in critical theory

Modernist Cultural Studies Catherine Driscoll, 2010-01-03 For many scholars cultural studies is viewed as a product of postmodern criticism and as the antithesis of modernism In this brilliant work Catherine Driscoll argues persuasively that we must view what we call cultural studies as a direct continuation of the innovations and concerns of modernism and the modernists In making her case Driscoll provides a fresh take on arguments some seemingly unresolvable that pivot on modernism s desire for novelty Defining modernity as a critical attitude rather than a time period she describes the many things these ostensibly different fields of inquiry have in common and reveals why cultural studies must be viewed as a fundamentally modernist project Casting a wide net across the shared interests of modernism and cultural studies including cinema fiction fashion art and popular music Driscoll explores such themes as love and work adolescence and everyday life the significance of the everyday the popular as a field of power and the importance of representation to identity and experience in modernity

The Oxford Critical and Cultural History of Modernist Magazines Peter

Brooker, Andrew Thacker, 2009-03-26 The first of three volumes charting the history of the Modernist Magazine in Britain North America and Europe this collection offers the first comprehensive study of the wide and varied range of little magazines which were so instrumental in introducing the new writing and ideas that came to constitute literary and artistic modernism in the UK and Ireland In thirty seven chapters covering over eighty magazines expert contributors investigate the inner dynamics and economic and intellectual conditions that governed the life of these fugitive but vibrant publications We learn of the role of editors and sponsors the relation of the arts to contemporary philosophy and politics the effects of war and economic depression and of the survival in hard times of radical ideas and a belief in innovation The chapters are arranged according to historical themes with accompanying contextual introductions and include studies of the New Age Blast the Egoist and the Criterion New Writing New Verse and Scrutiny as well as of lesser known magazines such as the Evergreen Coterie the Bermondsey Book the Mask Welsh Review the Modern Scot and the Bell To return to the pages of these magazines returns us a world where the material constraints of costs and anxieties over censorship and declining readerships ran alongside the excitement of a new poem or manifesto This collection therefore confirms the value of

magazine culture to the field of modernist studies it provides a rich and hitherto under examined resource which both brings to light the debate and dialogue out of which modernism evolved and helps us recover the vitality and potential of that earlier discussion
