**The World's Richest Neighborhood** Quentin R. Skrabec,2010

The residents of Pittsburgh's East End controlled as much as 40% of America's assets at the turn of the last century. Mail was delivered seven times a day to keep America's greatest capitalists in touch with their factories, banks, and markets. The neighborhood had its own private station of the Pennsylvania Railroad with a daily non-stop express to New York's financial district. Many of the world's most powerful men, princes, artists, politicians, scientists, and American Presidents such as William McKinley, Teddy Roosevelt, William Taft, Calvin Coolidge, and Herbert Hoover came to visit the hard-working and high-flying captains of industry. Two major corporations, Standard Oil and ALCOA Aluminum, were formed in East End homes. It was the first neighborhood to adopt the telephone with direct lines from the homes to the biggest banks in Pittsburgh, which at the time was America's fifth largest city. The story of this neighborhood is a story of America at its greatest point of wealth and includes rags to riches stories, political corruption, scandals, and greed. The history of this unique piece of American geography makes for enjoyable reading that will satisfy a large cross-section of readers.

Tesla Marko Perko, Stephen M Stahl, 2022-05-01 The enigmatic Nikola Tesla stalked by his ever-present inner demons invents the modern world. His astonishing story is that of a new-age god, a genius, a Zeus, a wonderful Wizard, yet a deeply troubled one. He tames the mysterious force called electricity; he dazzles the world with his endless inventions and discoveries; he blazes new paths in science that profoundly impact our daily lives; he turns fantasies into realities; his thought experiments disrupt scientific norms; he gives us many of the indispensable tools we use today; and famous actresses and chanteuses clamor for his attention as powerful men desire to be his friend. All before an astonished world. Yet all the while he keeps his own counsel as he simultaneously struggles with the challenging consequences of bipolar disorder, flights of manic energy alternating with depressive depths of great despair. He shuns the clichés of a quotidian life while forever seeking to lift the burdens from the shoulders of mankind. It would become his lifelong leitmotif, but at what cost to him? The authors, Marko Perko and Stephen M Stahl, M.D., Ph.D., D.Sc., propose a new style biography entitled *T E S L A His Tremendous and Troubled Life*. They will examine Nikola Tesla in a manner that has yet to be accomplished in publishing history, asking and answering the seminal question: Who was the real man with an extremely complex psyche, personality, who lived with obsessive compulsive disorder, OCD, and a hyperthymic temperament spilling over at times into high-flying bipolar mania and then crashing into devastating depression, and not simply the iconoclastic scientist who invented the modern world?

*George Westinghouse* Quentin R. Skrabec, 2007 This is a biography of Westinghouse, genius inventor from railroad and gas distribution equipment to the corporate model of invention and research. He surpassed Edison in electricity pioneering and in managing workers too, but they both lost their companies in the panic of 1907. The bank always wins.
