Edition of One Eugene B. Power, 1990 *A Companion to the History of the Book* Simon Eliot, Jonathan Rose, 2011-08-24
A COMPANION TO THE HISTORY OF THE BOOK A COMPANION TO THE HISTORY OF THE BOOK Edited by Simon Eliot and Jonathan Rose As a stimulating overview of the multidimensional present state of the field the Companion has no peer Choice If you want to understand how cultures come into being endure and change then you need to come to terms with the rich and often surprising history Of the book Eliot and Rose have done a fine job Their volume can be heartily recommended Adrian Johns Technology and Culture From the early Sumerian clay tablet through to the emergence of the electronic text this Companion provides a continuous and coherent account of the history of the book A team of expert contributors draws on the latest research in order to offer a cogent transcontinental narrative Many of them use illustrative examples and case studies of well known texts conveying the excitement surrounding this rapidly developing field The Companion is organized around four distinct approaches to the history of the book First it introduces the variety of methods used by book historians and allied specialists from the long established discipline of bibliography to newer IT based approaches Next it provides a broad chronological survey of the forms and content of texts The third section situates the book in the context of text culture as a whole while the final section addresses broader issues such as literacy copyright and the future of the book Contributors to this volume Michael Albin Martin Andrews Rob Banham Megan L Benton Michelle P Brown Marie Frangoise Cachin Hortensia Calvo Charles Chadwyck Healey M T Clanchy Stephen Colclough Patricia Crain J S Edgren Simon Eliot John Feather David Finkelstein David Greetham Robert A Gross Deana Heath Lotte Hellinga T H Howard Hill Peter Kornicki Beth Luey Paul Luna Russell L Martin Ill Jean Yves Mollier Angus Phillips Eleanor Robson Cornelia Roemer Jonathan Rose Emile G L Schrijver David J Shaw Graham Shaw Claire Squires Rietje van Vliet James Wald Rowan Watson Alexis Weedon Adriaan van der Weel Wayne A Wiegand Eva Hemmungs Wirt n *We the Dead* Brian Michael Murphy, 2022-05-16 Locked away in refrigerated vaults sanitized by gas chambers and secured within bombproof caverns deep under mountains are America s most prized materials the ever expanding collection of records that now accompany each of us from birth to death This data complex backs up and protects our most vital information against decay and destruction and yet it binds us to corporate and government institutions whose power is also preserved in its bunkers infrastructures and sterilized spaces We the Dead traces the emergence of the data complex in the early twentieth century and guides readers through its expansion in a series of moments when Americans thought they were living just before the end of the world Depression era eugenicists feared racial contamination and the downfall of the white American family while contemporary technologists seek ever denser and more durable materials for storing data from microetched metal discs to cryptocurrency keys encoded in synthetic DNA Artfully written and packed with provocative ideas this haunting book illuminates the dark places of the data complex and the ways it increasingly blurs the lines between human and machine biological body and data body life and digital afterlife

The Transformation of Historical Research in the Digital Age Ian Milligan, 2022-08-18 Historians make research queries on Google ProQuest and the HathiTrust They garner information from keyword searches carried out across millions of documents their research shaped by algorithms they rarely understand Historians often then visit archives in whirlwind trips marked by thousands of digital photographs subsequently explored on computer monitors from the comfort of their offices They may then take to social media or other digital platforms their work shaped through these new forms of pre and post publication review Almost all aspects of the historian's research workflow have been transformed by digital technology In other words all historians not just Digital Historians are implicated in this shift The Transformation of Historical Research in the Digital Age equips historians to be self-conscious practitioners by making these shifts explicit and exploring their long-term impact This title is also available as Open Access on Cambridge Core

Old Books and Digital Publishing: Eighteenth-Century Collections Online Stephen H. Gregg, 2021-01-28 This is a history of Eighteenth Century Collections Online a database of over 180 000 titles Published by Gale in 2003 it has had an enormous impact on the study of the eighteenth century Like many commercial digital archives ECCO's continuing development obscures its precedents This Element examines its prehistory as first a computer catalogue of eighteenth century print and then as a commercial microfilm collection before moving to the digitisation and development of the interfaces to ECCO as well as Gale's various partnerships and licensing deals An essential aspect of this Element is how it explores the socio-cultural and technological debates around the access to old books from the 1930s to the present day Stephen Gregg demonstrates how these contexts powerfully shape the way ECCO works to this day The Element's aim is to make us better users and better readers of digital archives This title is available as Open Access on Cambridge Core

Paper Knowledge Lisa Gitelman, 2014-05-07 Paper Knowledge is a remarkable book about the mundane the library card the promissory note the movie ticket the PDF Portable Document Format It is a media history of the document Drawing examples from the 1870s the 1930s the 1960s and today Lisa Gitelman thinks across the media that the document form has come to inhabit over the last 150 years including letterpress printing typing and carbon paper mimeograph microfilm offset printing photocopying and scanning Whether examining late nineteenth century commercial or job printing or the Xerox machine and the role of reproduction in our understanding of the document Gitelman reveals a keen eye for vernacular uses of technology She tells nuanced anecdote-filled stories of the waning of old technologies and the emergence of new Along the way she discusses documentary matters such as the relation between twentieth century technological innovation and the management of paper and the interdependence of computer programming and documentation Paper Knowledge is destined to set a new agenda for media studies

The Library of Congress Jane Aikin, 2025 This is the first comprehensive history of the Library of Congress that is not merely about one aspect or another e g buildings ornamentation collections timeline highlights Jane Aikin engages deeply with a wealth of primary and secondary sources to weave a narrative of the individuals events and controversies that have shaped this venerable institution Drawing millions of visitors a year the Library serves as the research arm of Congress the home of the U S Copyright Office and as a public forum for artistic and literary culture Never designated by law as the national library of the United States it nonetheless occupies that place in the national imagination This history of 13 male Librarians culminates in 2016 with the swearing in of Carla Hayden the first woman and first African American Librarian of Congress The narrative is punctuated by stories of key donors and pivotal performances by poets authors and celebrities

Authors and Apparatus Monika Dommann, 2019-03-15 Copyright is under siege From file sharing to vast library scanning projects new technologies actors and attitudes toward intellectual property threaten the value of creative work However while digital media and the Internet have made making and sharing perfect copies of original works almost effortless debates about protecting authors rights are nothing new In this sweeping account of the evolution of copyright law since the mid nineteenth century Monika Dommann explores how radical media changes from sheet music and phonographs to photocopiers and networked information systems have challenged and transformed legal and cultural concept of authors rights Dommann provides a critical transatlantic perspective on developments in copyright law and mechanical reproduction of words and music charting how artists media companies and lawmakers in the United States and western Europe approached the complex tangle of technological innovation intellectual property and consumer interests From the seemingly innocuous music box invented around 1800 to BASF s magnetic tapes and Xerox machines she demonstrates how copyright has been continuously destabilized by emerging technologies requiring new legal norms to regulate commercial and private copying practices Without minimizing digital media s radical disruption to notions of intellectual property Dommann uncovers the deep historical roots of the conflict between copyright and media a story that can inform present day debates over the legal protection of authorship
