Educational Research Vol 2 In Action:

    Global Perspectives on Education Research, Vol. II Liesel Ebersöhn,Ingrid Gogolin,2023-05-31 Presenting a wide range of new research from World Education Research Association WERA affiliated scholars pertaining to democracy and education this volume including topics such as school readiness in Mongolia high stakes teacher evaluation policy in Japan and family and community involvement in global educational advocacy This collection arrives at a time of extreme global challenges leaving researchers teachers students families and policymakers without a baseline of how to act react and be proactive to stem the chronic flow of disruption to global education systems These challenges require researchers worldwide to consider how evidence can support individuals and systems to buffer against extreme global health distress and conflict whilst simultaneously supporting the continued functioning of education systems and processes Such processes must allow students teachers leaders administrators and members of the educational communities to retain positive self esteem and maintain supportive relationships and systems that provide the appropriate conditions for such processes Global Perspectives on Education Research pulls together contributions from different contexts and cultures to distil vistas and research results that can enlighten a worldwide community of researchers education professionals and practitioners as well as policymakers and local national or supra national decision makers This text is also the ideal companion for educators and leaders alike as they navigate the uncertainty within global health and social justice   *Dialogues in Middle Level Education Research Volume 2* David C. Virtue,2023-04-28 This book echoes and enhances the generative dialogic knowledge building process that took place at the AMLE 2021 conference reflecting the way in which middle level researchers work collaboratively and draw ideas and inspiration for their studies from prior research and accounts of practice as well as their own experiences in the field Each of the five sections features a recent study presented at the roundtable session at the 2021 AMLE conference accompanied by two companion pieces offering different perspectives on the work In the latter the authors enrich and extend the original research by incorporating feedback from the conference session discussions revisiting their findings and conclusions considering alternative approaches to further research and proposing new or clarified implications for practice Addressing themes across theoretical frameworks and diversity of research design and with topics ranging from music education to teacher agency and the productive struggle the volume crucially presents and discusses recent innovations in the field with a view to prompting future research questions and deeper inquiry As such it will benefit researchers doctoral students and academics in the fields of middle level education educational research and specifically research methods in education Those interested in teaching and learning and adolescent development more broadly will also benefit from this volume   **Methodological Approaches to STEM Education Research Volume 2** Peta J. White,Russell Tytler,Joseph Paul Ferguson,John Cripps Clark,2021-08-27 The COVID 19 pandemic has likely changed the mathematics health and environmental education research landscape in profound and long lasting ways As such more than ever there is a need to

creatively and critically think about how we design research and for what purposes This necessitates a considered and robust discussion about educational research theory method and methodology to ensure that our research continues to impact practice in valuable ways This book maps out some of these key challenges and opportunities as we collectively enter a post COVID 19 world in which method and methodology need to be appreciated as much as research findings Topics explored here range from big picture issues in STEM Education research through perspectives on design based research to questions of analysis complexity the Delphi method and ethical dilemmas   *Handbook of Special Education Research, Volume II* Christopher J. Lemons,Sarah R. Powell,Kathleen Lynne Lane,Terese C. Aceves,2022-04-24 Divided into two volumes the Handbook of Special Education Research provides a comprehensive overview of critical issues in special education research Volume II addresses research based practices offering a deep dive into tiered systems of support and advances in interventions and assessments as well as socially emotionally culturally and linguistically relevant practices Each chapter features considerations for future research and implications for fostering continuous improvement and innovation Essential reading for researchers and students of special education this handbook brings together diverse and complementary perspectives to help move the field forward   **Subject Leadership and School Improvement** Hugh Busher,Alma Harris,2000 Curriculum and subject leadership in schools has recently gained substantial attention from both researchers and policy makers The Teacher Training Agency TTA has reinforced the importance of subject leadership in school improvement proposing a new measure of such leadership competence through the creation of national subject leader standards NPQSL Subject Leadership and School Improvement reflects critically on the work of subject and curriculum leaders especially in schools in England and Wales that is those within the policy framework of The National Curriculum and the Teacher Training Agency The book debates the functions of subject leaders in primary and secondary schools using current researc   **New Technology and Education** Anthony Edwards,2012-01-26 New Technology and Education explores the benefits and dangers of the increasing use of technology in education drawing on different cultural perspectives from across the globe to consider a variety of viewpoints The reader is encouraged to engage with each facet of the debate considering the philosophical psychological and sociological implications of the relationship between technology and education Recent debates and developments are considered including What is the relationship between creativity education and new technology Are subject boundaries blurred by the use of new technologies How do we plan for technologies becoming redundant Reflective exercises interviews chapter summaries and useful websites encourage and support student learning and the application of new concepts   *Getting it Right for Boys ... and Girls* Wendy Bradford,Colin Noble,2002-01-04 Boys underachievement is grabbing headlines in the education debate and it has never been more important to solve the problem This book offers clear and practical strategies to headteachers classroom teachers and other professionals for ways to address the issue The book looks at reasons for boys underachievement ways of adapting teaching

styles to maximise learning gains for boys and girls guidance on how to plan successful pyramid whole school and classroom approaches practical strategies for subject leaders and teachers examples of successful case studies After introductory chapters examining whole school issues and strategies there are further subject specific chapters that advise on particular teaching approaches **Methodological Approaches to STEM Education Research Volume 1** Peta J. White,Russell Tytler,Joseph Paul Ferguson,John Cripps Clark,2020-08-13 This book addresses the changing nature of the methodologies that underpin research in mathematics science health and environmental education This is a constantly shifting landscape that educational researchers need to engage with in order for research to continue to impact educational practice The novelty of this book in the context of the existing publishing landscape is that it has a singular focus on methodology and methods not in service of research findings but as something worth considering in itself bringing methodology to the forefront of educational research **Register of Educational Research in the United Kingdom, 1992-1995** National Foundation For Educational Research,1995 This latest volume of the Register of Educational Research in the United Kingdom lists all the major research projects being undertaken in Britain during the latter months of 1992 the whole of 1993 and 1994 and the early months of 1995 Each entry provides names and addresses of the researchers a detailed abstract the source and amount of the grant where applicable the length of the project and details of published material about the research **Fiction written under Oath?** David Bridges,2006-04-18 The essays bring to contemporary debates about educational research both a first hand familiarity with the practices and arguments of the educational research community and a clear grasp of the ways in which philosophical sources and analysis can inform them They are both measured and passionate sparked by an intense personal curiosity which takes Bridges into unexpected resources and territory such as the insights of museology into debates on educational research as narrative fiction as well as more familiar material relating to for example issues about the assessment of quality of educational research and the concern for its relevance The book makes an articulate case by its own example as well as in its argument for the continuing contribution of philosophical thinking to the development and critique of educational research It will be essential reading for researchers already engaged in this development and for masters and doctoral students who are coming to terms with educational research and it offers a contribution to the literature in philosophy of education which is richly grounded in the wider field of educational research Examining Ethics in Contemporary Science Education Research Kathrin Otrel-Cass,Maria Andrée,Minjung Ryu,2020-08-31 This book poses questions on how to work ethically in research on science education Applying research ethics reflectively and responsibly is fundamental for conducting research with people It seeks to renew the conversation on how and why to engage with ethics in science education research and to adjust and refine research practices It highlights both the need for methodological reflections in science education research and the particular ethical research challenges of science education Science education research involves the study of people often young and vulnerable people and their

practices Researchers working within humanities and social science research commonly follow guidelines and codes of conducts set by country specific ethics committees Such guidelines function as minimal requirement for ethical reflection This book seeks to engage the community of science education researchers in a conversation on ethics in science education moving beyond the mere compliance with governmental regulations toward a collective reflection It asks the question of whether the existing guidelines provided for researchers are keeping up with contemporary realities of the visual presence of individuals in digital spaces It also asks questions on how participatory research methodologies alters the relations between researchers and practitioners This book is organized into two parts Part one is entitled Challenging existing norms and practices It asks questions such as What are the conditions of knowledge that shape ethical decision making Where is this kind of knowledge coming from How is this knowledge structured and where are the limitations How can we justify our beliefs concerning our ethical research actions Part two Epistemological considerations for ethical science education research centres norms and practices of conducting science education research in regard to methods validity and scope
