Educating The Powerless:

Educating the Powerless Stanley Charnofsky,1971 *Educating the Powerless* Stanley Charnofsky,1971

Empowerment through Multicultural Education Christine E. Sleeter,1991-01-01 This book reframes questions about student diversity by probing the extent to which society serves the interests of all and by examining the empowerment of members of oppressed groups to direct social change It examines the empowerment of children who are members of oppressed racial groups lower class and female based on the ideas of multicultural education A series of ethnographic studies illustrates how such young people view their world their power to affect it in their own interests and their response to what is usually a growing sense of powerlessness as they mature The authors also conceptualize contributions of multicultural education to empowering young people and report investigations of multicultural education projects educators have used for student empowerment Issues in teacher education are also discussed Language Teacher Emotion, Identity Learning and Curriculum Reform Shanshan Yang,2024-01-20 This book explores language teachers identity learning through the lens of teacher emotions This qualitative study utilizing a longitudinal case study design sets out to trace how four college English teachers at the case study university in East China respond emotionally towards the curriculum reform how teacher identity learning takes place and how emotions interact with the identity learning processes Guided by the theoretical framework this book adopts diversified methods to collect data across one academic year of curriculum implementation It also discusses the findings which reveal that curriculum reform poses great emotional challenges for English as a Foreign Language EFL teachers teachers who traverse across emotional geographies orient to feeling rules and perhaps translate emotion work into emotional capital This book explores language teachers identity learning This book helps the researchers policymakers and other stakeholders involved in highereducation policymaking to understand how EFL teacher emotions can be utilized to support EFL teachers identity learning and thus sustain curriculum reform efforts Visioning Multicultural Education H. Prentice Baptiste,Jeanette Haynes Writer,2020-09-23 Organized by the National Association of Multicultural Education NAME this volume explores the organic relationship between the past present and future of the discipline In particular the book addresses the various forms of recent social upheaval from educational inequities and growing economic divides to extreme ideological differences and immigration conflicts Written by a group of eminent and emerging scholars chapters draw lessons from the past two decades and celebrate present accomplishments in order to ambition a better future through multicultural education *Handbook of Research on the Learning Organization* Anders Örtengren,2013-09-30 This timely Handbook establishes the contextualization of the learning organization idea as a research field **Resources in Education** ,1996 Reincarnating Experience in Education Kaustuv Roy,2020-08-24 This book presents authentic educational experience as the actualization of a potential within a phenomenological field whose axes consist of the somatic the psychic and the symbolic thereby rejecting the one dimensionality of contemporary education that is primarily mind

oriented The author insists on the nature of experiencing as coming to be in a living tension between the intuition and the intellect or the inner and the outer and calls this a pedagogy of the twice born Within this pedagogy the truly educated must be born twice in the first instance involuntarily thrust into a commonsensical world and in the second taking a deliberate step toward a qualitative principle The latter gives us ontological hope or a sense of autonomy and self sufficiency *Oral Discourse and Education* Bronwyn Davies, David Corson, P. Corson, 1997 This work examines spoken language as a field of study looking at the various ways in which we can both theorize the place of talk in education and examine the way talk is actually done in educational settings It brings quite different and important perspectives to the study of education It is relevant to teachers at primary secondary and tertiary levels and for researchers interested in spoken language in educational contexts

Emdin,2010-01-01 Christopher Emdin is an assistant professor of science education and director of secondary school initiatives at the Urban Science Education Center at Teachers College Columbia University He holds a Ph D in urban education with a concentration in mathematics science and technology a master s degree in natural sciences and a bachelor s degree in physical anthropology biology and chemistry His book *Urban Science Education for the Hip Hop Generation* is rooted in his experiences as student teacher administrator and researcher in urban schools and the deep relationship between hip hop culture and science that he discovered at every stage of his academic and professional journey The book utilizes autobiography outcomes of research studies theoretical explorations and accounts of students experiences in schools to shed light on the causes for the lack of educational achievement of urban youth from the hip hop generation *Bulletin of the Board of Education of the Methodist Episcopal Church, South* Methodist Episcopal Church, South. Board of Education,1912 **Peace Education** James Page,2008-09-01

Peace education is now well recognized within international legal instruments and within critical educational literature as an important aspect of education Despite this little attention has been given in the critical literature to the philosophical foundations for peace education and the rationale for peace education thus remains substantially an assumed one This investigation explores some possible ethico philosophical foundations for peace education through an examination of five specific ethical traditions 1 virtue ethics whereby peace may be interpreted as a virtue and or virtue is interpreted as peacefulness and peace education as education in that virtue 2 consequentialist ethics whereby peace education may be interpreted as education regarding the consequences of our action and inaction both as individuals and collectivities 3 conservative political ethics whereby peace education may be interpreted as emphasizing the importance of the evolution of social institutions and the importance of ordered and lawful social change 4 aesthetic ethics whereby peace may be interpreted as something beautiful and valuable in itself and peace education as emphasizing the importance of that beauty and value and 5 the ethics of care whereby care may be interpreted as a core element in peace and peace education as encouraging trust and engagement with the other The study addresses major contributions to each of these ethical traditions the strengths and weaknesses of the tradition and the ways in which the tradition provides support for peace education It is argued in the thesis that each tradition provides only a partial basis for peace education and that ultimately a holistic and integrative understanding is required one that encourages a culture of peace an important addition to the emerging literature on peace education and the culture of peace From the Foreword by Koichiro Matsuura Director General of UNESCO **What the Hell is This School? A Parody of Education** Pasquale De Marco,2025-07-20 The American education system is in a state of crisis Standardized testing has become the tail that wags the dog driving instruction and narrowing the curriculum Students are forced to learn a laundry list of facts and figures but they are not taught how to think critically or solve problems Creativity is stifled and conformity is rewarded The result is a generation of students who are ill prepared for the challenges of the 21st century workforce They are unable to think

critically solve problems or communicate effectively They are also more likely to be anxious and depressed What the Hell is This School A Parody of Education is a scathing indictment of the American education system It is a book that will make you laugh cry and shake your head in disbelief It is a book that will challenge your assumptions about education and make you question everything you thought you knew In this book Pasquale De Marco takes a satirical look at the many problems facing the American education system He skewers standardized testing school reform and the dark side of school He also examines the role of teachers students and parents in the education system Pasquale De Marco is a former teacher and parent who has seen firsthand the problems facing the American education system He is passionate about creating a better future for our children and he believes that the first step is to shine a light on the problems that exist What the Hell is This School A Parody of Education is a must read for anyone who is concerned about the future of education in America It is a book that will make you laugh cry and think It is a book that will change the way you think about education Praise for What the Hell is This School A Parody of Education A hilarious and thought provoking look at the American education system Pasquale De Marco skewers standardized testing school reform and the dark side of school with wit and insight Pasquale De Marco A must read for anyone who is concerned about the future of education in America Pasquale De Marco shines a light on the problems that exist and offers a vision for a better future Pasquale De Marco A scathing indictment of the American education system Pasquale De Marco is a former teacher and parent who knows firsthand the problems that exist He is passionate about creating a better future for our children and this book is a call to action Pasquale De Marco If you like this book write a review

Higher Education in Liquid Modernity Marvin Oxenham, 2013-10-28 Based in sociologist Zygmunt Bauman's theory of liquid modernity this volume describes and critiques key aspects and practices of liquid education education as market driven consumption short life span of useful knowledge overabundance of information through a systematic comparison with ancient Greek paideia and medieval university education producing a sweeping analysis of the history and philosophy of education for the purpose of understanding current higher education positing a more holistic alternative model in which students are embedded in a learning community that is itself embedded in a larger society If liquid modernity has left a vacuum where according to Bauman the pilot's cabin is empty this volume argues that no structure is better positioned to fill this vacuum than the university and outlines a renewed vision of social transformation through higher education

Education, Social Status, and Health John Mirowsky, Catherine E. Ross, Education forms a unique dimension of social status with qualities that make it especially important to health It influences health in ways that are varied present at all stages of adult life cumulative self-amplifying and uniformly positive Educational attainment marks social status at the beginning of adulthood functioning as the main bridge between the status of one generation and the next and also as the main avenue of upward mobility It precedes the other acquired social statuses and substantially influences them including occupational status earnings and personal and household income and wealth Education creates desirable outcomes because

it trains individuals to acquire evaluate and use information It teaches individuals to tap the power of knowledge Education develops the learned effectiveness that enables self direction toward any and all values sought including health For decades American health sciences has acted as if social status had little bearing on health The ascendance of clinical medicine within a culture of individualism probably accounts for that omission But research on chronic diseases over the last half of the twentieth century forced science to think differently about the causes of disease Despite the institutional and cultural forces focusing medical research on distinctive proximate causes of specific diseases researchers were forced to look over their shoulders back toward more distant causes of many diseases Some fully turned their orientation toward the social status of health looking for the origins of that cascade of disease and disability flowing daily through clinics Why is it that people with higher socioeconomic status have better health than lower status individuals The authors who are well recognized for their strength in survey research on a broad national scale draw on findings and ideas from many sciences including demography economics social psychology and the health sciences People who are well educated feel in control of their lives which encourages and enables a healthy lifestyle In addition learned effectiveness a practical end of that education enables them to find work that is autonomous and creative thereby promoting good health John Mirowsky and Catherine E Ross are professors in both the Department of Sociology and Population Research Center at the University of Texas at Austin Mirowsky and Ross have done the population health community a splendid service by presenting a compelling and complex story for the relationship between social status and health and identifying many important contentious issues for future theoretical debate and empirical exploration I highly recommend Education Social Status and Health to all health researchers interested in the social and economic determinants of health and well being Gerry Veenstra Canadian Journal of Sociology Online *Education - An 'Impossible Profession'?* Tamara Bibby, 2010-10-04 In classrooms and lectures we learn not only about academic topics but also about ourselves our peers and how people and ideas interact Education An Impossible Profession extends the ways in which we might think about these processes by offering a refreshing reconsideration of key educational experiences including those of being judged and assessed both formally and informally adapting to different groups for different purposes struggling to think under pressure learning to recognise and adapt to the expectations of others This book brings psychoanalysis to new audiences graphically illustrating its importance to understandings of teaching learning and classrooms Drawing on the author's original research it considers the classroom context including policy demands and professional pressures and the complexity of peer and pedagogic relationships and interactions asking how these might be being experienced and what implications such experiences might have for learners and teachers The discussions will be of interest not only to teachers leading learners and teacher educators but also to individuals interested in education policy professional practice and theories of education **Education and the Heredity Spectre** Frank Herbert Hayward, 1908
