Education Of The Exceptional Child History Present Practices And Trends:

Education of the Exceptional Child Bill Ray Gearheart, 1983 Originally published by Harper and Row in 1972 this volume provides an overview of the major exceptionalities including physical and mental handicaps as well as the gifted Also examines public school programs and community resources which deal with these exceptionalities An excellent resource for those entering the field of special education and for practitioners

Systematic Intervention with Disturbed Children Marvin J. Fine, 2012-12-06 Disturbed children constitute a sizeable and varied percentage of the child population Generally two to three percent have severe longstanding problems and 20 to 30 percent have current more transient problems While preventive efforts are needed it also seems obvious that many children will continue to function in a disturbed and disturbing fashion and will continue to require various kinds of therapeutic interventions These interventions will mainly occur in school and community settings This book attempts to present a picture of some fairly popular models of intervention and to consider important related issues There are probably as many ways of coping with disturbed children as there are creative caring persons attempting to do the coping A growing literature exists on ways of conceptualizing and intervening with such children It was believed by the editor that an organized body of information on these concepts and techniques would prove useful to student and practitioner A danger with such collections is that if they mainly portray novel or atypical techniques while informative the book quickly becomes passe and of limited value This book's focus is on contemporary thought but also on orientations that have stood the test of some time and the stability of the underlying theory

A Special Hell Claudia Malacrida, 2015-02-05 Using rare interviews with former inmates and workers institutional documentation and governmental archives Claudia Malacrida illuminates the dark history of the treatment of mentally defective children and adults in twentieth century Alberta Focusing on the Michener Centre in Red Deer one of the last such facilities operating in Canada A Special Hell is a sobering account of the connection between institutionalization and eugenics Malacrida explains how isolating the Michener Centre's residents from their communities served as a form of passive eugenics that complemented the active eugenics program of the Alberta Eugenics Board Instead of receiving an education inmates worked for little or no pay sometimes in homes and businesses in Red Deer under the guise of vocational rehabilitation The success of this model resulted in huge institutional growth chronic crowding and terrible living conditions that included both routine and extraordinary abuse Combining the powerful testimony of survivors with a detailed analysis of the institutional impulses at work at the Michener Centre A Special Hell is essential reading for those interested in the disturbing past and troubling future of the institutional treatment of people with disabilities
