African Economic Reform Carol Lancaster, 1991 This study proposes a new initiative involving the cancellation of concessional rescheduling of public bilateral debt of reforming African countries through a new international mechanism that would replace existing ones such as the Paris Club and the World Bank Consultative Groups Each of a series of Adjustment Review Consortia would bring together representatives of donor and creditor governments international aid and development agencies and an African government to coordinate debt relief aid and reform initiatives Properly implements ARCs would contribute to building a system in which economic need and performance not political favoritism play the principal roles in how debt and external financing in general are managed

*Economic Reforms and the Poor* Alexandre Marc, Carol Graham, Mark Schacter, 2012 For many African countries and for developing countries in other regions the latter half of the 1980s was a turning point in the struggle to alleviate poverty In response to a marked deterioration in the living standards of the poor caused by an economic crisis and the austerity measures instituted to control it governments added explicit poverty alleviation objectives to their development policies In cooperation with external agencies they began to design and implement interventions such as social action programs SAPs and social funds SFs to protect the poor and some vulnerable groups from the harmful effects of the economic situation and from the transitory negative effects of economic reform There has been a growing acceptance of these interventions in Africa as the World Bank has placed greater emphasis on protecting the poor during adjustment The present study previewed in this brief reviews the experience of twelve SAPs and SFs in sub Saharan Africa Because a number of the programs are still in progress at this writing it is too soon to analyze

their effects on poverty reduction in depth However performance information is increasingly available on the implementation of these programs This report is based on data gathered from project documents and task managers of the projects and on findings by the authors during field visits
